```
PUBLIC REVIEW DRAFT — FOR COMMENT
NOT FINAL
NOT HG-D1 ACCEPTED
NOT PROPOSED STATUTORY TEXT
NOT HUMAN-ACCEPTED
NOT CURRENT KANSAS LAW

DRAFT 1.12 / PUBLIC REVIEW DRAFT CANDIDATE
HG-D1 NOT PASSED
Q-BILL-A-001 THROUGH Q-BILL-A-016 RECORDED
Q-BILL-A-016 = C — INVARIANTS FIRST
CLASS-H PUBLIC-REVIEW BLOCKERS = NONE AS OF CWC-CE-170
PDCA ≠ TAXING AUTHORITY
PDCA ≠ CHANGE AUTHORITY
HUMAN REVIEW PENDING — SILENCE IS NOT ACCEPTANCE
PUBLICATION FOR COMMENT ≠ HUMAN ACCEPTANCE ≠ HG-D1
NOT A PRODUCTION SPEC
HG-D2 NOT PASSED
NOT LEGISLATION
NOT AN INTRODUCED BILL
PUBLIC REVIEW NOT RELEASED BY THIS DRAFT
BILL B INDEPENDENCE PRESERVED
LOU-001 NOT SUPERSEDED BY THIS DRAFT
BILL A MATURITY = 19% UNCHANGED
```

Authority Effect: This draft records proposed Engineering Definition only. It does not constitute HG-D1 acceptance, an approved SPEC, legislative drafting authority, CWC-CE Controlled Execution authorization, implementation authority, public-review release, or maturity change. Silence is not Human Engineer acceptance. AI recommendation is not Human approval.

---

1. Purpose

This Letter of Understanding is the Bill A–only Engineering Definition working artifact for:

BILL A — COMPREHENSIVE KANSAS TAX-SYSTEM REPLACEMENT

```
PUBLIC REVIEW DRAFT — FOR COMMENT
NOT FINAL
NOT HG-D1 ACCEPTED
NOT PROPOSED STATUTORY TEXT
```

It exists to document the current Human Engineering Intent sufficiently for examination, criticism, research, and comment **before** Human acceptance and HG-D1.

Public review is intended to expose incorrect assumptions, legal conflicts, fiscal weaknesses, implementation problems, contradictory requirements, unintended consequences, better alternatives, and missing evidence.

Publication for comment, if later Human-authorized, does **not** validate Bill A. It does **not** accept this LOU. It does **not** pass HG-D1. It does **not** create a SPEC. It does **not** draft a statute.

CWC-CE-174 reconciles Draft 1.11 against Q-BILL-A-016 = **C — INVARIANTS FIRST**. Draft 1.10's "Final Human-Review Candidate" designation and Draft 1.11's public-review synthesis remain **historical** except as carried forward here. This Draft **1.12** is a **Public Review Draft candidate**. It is **not** Human-accepted.

How to read this LOU: §2.0 is the controlling synthesis through CWC-CE-174 / Q-BILL-A-016 = C. Sequential §2.1–§2.27 remain cycle recordings. Later Human decisions control earlier wording. Historical ALL-OUT dual-path language is retained for traceability and is labeled where it is no longer active architecture. WD-BILL-A-113 is a historical Human Review Summary for Draft 1.10 and **does not replace** this LOU.

Source-of-truth order: Human Engineer → controlled Human-Intent record → controlled Definition cycles → controlled evidence → this LOU → White Paper → public representation. Do not reverse this chain. The White Paper shall not control this LOU.

CWC-CE-121 does **not** complete or accept this LOU. Substantive understanding is recorded only after a bounded Human answer is classified and, where required, evidenced.

This LOU is **not** a continuation of LOU-001. LOU-001 remains the unmodified shared Kansas Two-Bill Tax Engineering Project candidate (Bill A and Bill B together). Relationship to LOU-001 is recorded in §10 and §19; it is **not** silently resolved.

---

2. Human Engineering Intent

2.0 Controlling Human Intent Architecture (CWC-CE-174 / Q-BILL-A-016 = C)

Classification: RECONCILED HUMAN INTENT / WORKING DEFINITION for public-review examination. **Not** accepted LOU provisions. **Not** Kansas law. **Not** HG-D1. **Not** a SPEC. **Not** legislation. **Not** proposed statutory text.

Source of record: Q-BILL-A-001 through Q-BILL-A-016; CWC-CE-152 through CWC-CE-174; WD-BILL-A-110; WD-BILL-A-112 / WD-BILL-A-113 (historical Draft 1.10); WD-BILL-A-208 through WD-BILL-A-221; WD-BILL-A-279 / WD-BILL-A-280.

Reading rule: This subsection is the controlling synthesis through CWC-CE-174. Sequential §2.1–§2.27 recordings remain historical or cycle-specific. Where earlier candidate wording conflicts, this subsection and the later Human decision control. Material superseded interpretations are **not** silently erased; they remain in §2.1–§2.26, §7, and §8, labeled as historical where they are no longer active architecture.

Labeling rule used in this draft:

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **Label:** HUMAN INTENT
- **Meaning:** Recorded Human Engineering Intent. Not Kansas law.

Table row 2

- **Label:** ENGINEERING TARGET
- **Meaning:** Design objective. Not a certified result.

Table row 3

- **Label:** CONTROLLED EVIDENCE
- **Meaning:** Established in a controlled artifact.

Table row 4

- **Label:** RESEARCH REQUIRED
- **Meaning:** Missing or incomplete evidence.

Table row 5

- **Label:** LEGAL EFFECT UNKNOWN
- **Meaning:** Legal consequence not established.

Table row 6

- **Label:** FISCAL ENGINEERING REQUIRED
- **Meaning:** Quantity / formula not calculated.

Table row 7

- **Label:** IMPLEMENTATION ENGINEERING REQUIRED
- **Meaning:** Mechanics not designed.

Table row 8

- **Label:** HUMAN DECISION DEFERRED
- **Meaning:** Recorded as open, not invented.

Table row 9

- **Label:** EXPLICIT HOLD
- **Meaning:** Recorded architecture not presently active.

Table row 10

- **Label:** NOT YET AUTHORIZED
- **Meaning:** Gate not passed.

Table row 11

- **Label:** CLASS I
- **Meaning:** Durable invariant. Not automatically adjustable by ordinary PDCA evidence.

Table row 12

- **Label:** CLASS P
- **Meaning:** Initial operating parameter. Measurable. Adjustment requires the applicable lawful change authority. Evidence ≠ authority.

Table row 13

- **Label:** CLASS HYP

• **Meaning:** Hypothesis / engineering proposition requiring evidence. **Not** the historical §2.0.10 CLASS H (Human-Intent-required-before-public-review).

Table row 14

• **Label:** CLASS T

• **Meaning:** Temporary transition control.

Table row 15

• **Label:** CLASS PILOT

• **Meaning:** Bounded proving-ground mechanism.

Table row 16

• **Label:** CLASS U

• **Meaning:** Insufficient Human Intent, evidence, or authority to classify safely.

Not current Kansas law. SHALL-style language below states intended architecture, not a claim that current Kansas statutes already operate this way.

2.0.1 Foundational principles (Q-BILL-A-001)

```
PROPERTY RIGHTS PRECEDE GOVERNMENT POOLING.
SIGNAL MUST PRECEDE CLAIM.
THERE IS ONE ULTIMATE SOURCE OF TAXATION: PEOPLE WITH MONEY.
SHUFFLING THE DECK DOES NOT CREATE ANOTHER TAX SOURCE.
CURRENT TAX REVENUE ≠ REQUIRED REPLACEMENT REVENUE.
CURRENT SPENDING ≠ AUTHORIZED FUTURE SPENDING.
HISTORICAL EXISTENCE DOES NOT CREATE PERMANENT FUTURE ENTITLEMENT.
TAXPAYERS ARE NOT AUTOMATIC BACKSTOPS FOR GOVERNMENT PLANNING OR PERF
```

Organizations, businesses, corporations, and other mechanisms do not create a separate ultimate source merely by moving or collecting money. Taxpayer ownership and government stewardship remain engineering objectives. Downstream custody/ownership mechanics after payment remain unresolved (`[LEGAL EFFECT UNKNOWN]`).

2.0.2 H.R. 25-style economic tax base (Q-BILL-A-002)

Bill A uses the substantive economic standard of current H.R. 25, 119th Congress, FairTax Act of 2025 (IH pin; SRC-BILL-A-015 / WD-BILL-A-008 / WD-BILL-A-009), adapted to Kansas only as necessary

without silently changing that selected economic standard.

Under Q-BILL-A-016 = C, the H.R. 25-style **economic standard of final consumption** is **CLASS I (I-03)**. H.R. 25 **implementation mechanisms** remain later research and are **not** thereby made CLASS I. Existence is **not** the intended taxable event (**CLASS I / I-02**).

Permitted taxable-event architecture is **final consumption** as previously defined in those controlled artifacts, including previously defined treatment of business/investment purpose, resale/production/provision/rendering/selling, used property, mixed use, and gaming. Do not rewrite that standard from memory.

```
MERE OWNERSHIP ≠ TAXABLE EVENT.
MERE POSSESSION ≠ TAXABLE EVENT.
MERE ACCUMULATION ≠ TAXABLE EVENT.
APPRECIATION ≠ TAXABLE EVENT.
INCOME MERELY EARNED/RECEIVED ≠ STATE H.R. 25-STYLE TAXABLE EVENT.
```

Rates are **not set**. Motor fuel remains the **example** of the uniform surviving-excise standard, **not** a RETAIN (Q-BILL-A-003). Historical ALL-OUT county personal/business income/payroll as an express path split (CWC-CE-155 / CF-BILL-A-014) is **not** current active architecture (Q-BILL-A-011 = C — EXPLICIT HOLD). It is **not** a silent repeal of the existence-not-event rule for the H.R. 25-style architecture.

2.0.3 State tax architecture (CWC-CE-155)

Kansas **state-level** legacy tax architecture converts to the selected H.R. 25-style consumption-tax architecture. The state does **not** preserve a parallel traditional state income/payroll system merely because one exists in the Current State. Exact rates, administration, exemptions, distributions, and statutory mechanisms beyond this recorded Human Intent remain later.

Provisional planning ceilings remain part of active Human Intent: **up to 5% state** and **up to 5% local**. These are **planning ceilings**, not targets, entitlements, final rates, certified sufficient rates, or operative statutory rates. Under Q-BILL-A-016 = C they are **CLASS P** initial Human-Intent values. They are **not** CLASS I. The currently recorded numbers are **not changed** by this draft. Adjustment, if later warranted by evidence, requires the applicable lawful change authority. The engineering

objective is the **lowest sufficient authorized rate**. Rates are **not calculated** here. 5% + 5% ≠ a guaranteed 10%.

LOCAL REVENUE ENVELOPE ≠ COUNTY-GOVERNMENT OWNERSHIP. Authorized local revenue may support legitimate functions performed by USDs, counties, cities, townships, special districts, or other authorized entities. MONEY FOLLOWS LEGITIMATE AUTHORIZED FUNCTION, NOT HISTORICAL LEVYING ENTITY. Distribution percentages are **not** established here.

Post-Bill-A compulsory demand authority is intended to be closed (Q-BILL-A-004 / Q-BILL-A-005 Option (a)). This closed-authority rule is **CLASS I (I-05)** under Q-BILL-A-016 = C. Kansas Government Revenue Universe remains auditable. Universe and KLRS remain **NOT CERTIFIED**. Field 25 remains **BLANK**. Field 26 remains **NOT DETERMINED**.

2.0.4 Property-tax architecture (CWC-CE-142 / CWC-CE-146)

```
PROPERTY TAX → ZERO STATEWIDE.
EVERY KANSAS COUNTY ELIMINATES PROPERTY TAXATION.
ALL-IN / ALL-OUT DOES NOT DETERMINE WHETHER PROPERTY TAXATION SURVIVE
```

Under Q-BILL-A-016 = C, PROPERTY TAX → ZERO STATEWIDE is **CLASS I (I-01)**. It is **not** an adjustable PDCA parameter.

Each county independently selects a **5-year maximum runway** or a **7-year maximum runway**. These are **maximums**, not guaranteed collection periods. Under Q-BILL-A-016 = C they are **CLASS T + CLASS P** initial Human-Intent values, not a claim that five and seven are eternally perfect numbers. The currently recorded maxima are **not changed** by this draft. Additional authorized ALL-IN revenue sufficiency may accelerate remaining property-tax elimination. Lengthening or shortening the recorded maxima requires the applicable lawful change authority. Qualifying seniors and qualifying disabled persons on fixed incomes receive first priority to zero, then other taxpayers. Eligibility, schedule mathematics, and no-double-dip formula remain later (CLASS S / residual CLASS R).

2.0.5 ALL-IN / ALL-OUT architecture (CWC-CE-142 / 155 / 157 / 158 refined by Q-BILL-A-011 = C)

The CWC-CE-142 four rules remain historically controlling for **property-tax elimination** and statewide taxpayer-control architecture. Property tax is eliminated in every Kansas county. ALL-IN / ALL-OUT does **not** determine whether property taxation survives.

```
ALL-IN = PRIMARY ACTIVE CANDIDATE.
ALL-IN = NOT HUMAN-ACCEPTED.
ALL-OUT = DEFERRED CANDIDATE + EXPLICIT HOLD + NOT RETIRED + NOT ACTI
```

ALL-IN (current active candidate):

- participates in the new Bill A state/local architecture;
- TRANSITION → TRR; ACTIVE / ACCOUNTABILITY → NBBF-admitted spending and functions; FUTURE → ARR as a **continuously improving operating condition** within durable guardrails, **not** a permanently frozen tax design;
- new spending → NBBF;
- authorized compulsory claims follow applicable Bill A controls;
- revenue above the controlled transition requirement/projection accelerates remaining property-tax elimination;
- no double dip.

Exact fiscal mechanics are **not** complete. ALL-IN is **not** Human-accepted.

ALL-OUT (explicit hold — not current active architecture):

Q-BILL-A-011 = **C — DEFER WITH EXPLICIT HOLD.** Historical design work in §2.19 / §2.22 and the tax-system table is preserved for traceability. It SHALL NOT be presented as an active coequal Bill A path. Active Definition SHALL NOT depend on ALL-OUT surviving. ALL-OUT engineering is **not** resumed by this draft.

Historical (held) ALL-OUT description, for traceability only: does not participate in the new local H.R. 25-style replacement architecture; receives no Bill A replacement-revenue guarantee; remains subject to statewide property-tax elimination and statewide taxpayer-control architecture; historically recorded bounded income/payroll with GCD to Zero Terminal (Q-BILL-A-010 = A); shall not impose inheritance tax; may not revive eliminated claims. That description is **EXPLICIT HOLD**, not active architecture.

ALL-OUT is **not** unrestricted legacy taxation, **not** a permanent income/payroll floor, and **not** an escape from GCD — **if later released from hold**. Until then, do not engineer as if it were active.

2.0.6 County jurisdiction (CWC-CE-155) — historical ALL-OUT hold context

The following jurisdiction notes were recorded for historical ALL-OUT income/payroll design. Because ALL-OUT is on **EXPLICIT HOLD**, they are **not** current active architecture. They remain research-open if ALL-OUT is later released.

Temporary physical presence / TDY **alone** does not create county income/payroll-tax jurisdiction. For the already-defined business/work-location case, **both** the business **and** the work location must originate within the county.

Definitions of residence, domicile, originate, TDY, remote work, multi-county employment, and nexus remain **RESEARCH REQUIRED / LEGAL EFFECT UNKNOWN** (UQ-CTS-017). They are **not** invented here.

2.0.7 TRR / ARR / NBBF (Q-BILL-A-006 / 007 / 008)

```
LAYER 1 — CURRENT STATE.
LAYER 2 — TRR: TRANSITIONAL REVENUE REQUIREMENT.
LAYER 3 — ARR: AUTHORIZED REVENUE REQUIREMENT.
TRR ≠ ARR.
CURRENT SPENDING ≠ TRR.
HISTORICAL SPENDING ≠ TRR.
BUDGETED SPENDING ≠ TRR.
APPROPRIATED SPENDING ≠ TRR AUTOMATICALLY.
EXISTING PROGRAM ≠ TRR.
PRE-EXISTING ≠ TRR AUTOMATICALLY.
```

Q-BILL-A-008 = **B — ENFORCEABLE-INSTRUMENT CLASS.** A TRR candidate must arise from a presently enforceable legal obligation belonging to a qualifying class later established through controlled evidence/legal research. Qualifying classes are **not** classified here (UQ-TR-016 = CLASS R).

NEW TRANSITION INSTRUMENT → NEW SPENDING → NBBF.

All **new spending** is immediately subject to NBBF. Kansas/Bill A NBBF admission procedure is **not invented** (UQ-NBBF-001 = CLASS S).

Government performance must be checked. Accountability must produce a controlled signal and a controlled response. Four-month node accountability remains the **CLASS P** initial Human-Intent cadence; mechanics are not invented. The currently recorded four-month interval is **not changed** by this draft. A later evidence-based cadence change requires the applicable lawful change authority. Four months is **not** CLASS I. TRR and ARR are **not calculated**. ARR SHALL NOT silently become a permanent spending or revenue entitlement. ARR remains subject to lawful recurring examination under the continuous-improvement architecture.

2.0.8 Government Claim Degradation / Zero Terminal (CWC-CE-155 / Q-BILL-A-009 / Q-BILL-A-010)

Any authorized compulsory governmental monetary claim subject to GCD must contain and follow an authorized degradation path.

```
SUBSTANCE CONTROLS OVER LABEL.
DEGRADATION DOES NOT AUTHORIZE A CLAIM.
A CLAIM MUST FIRST BE INDEPENDENTLY AUTHORIZED.
ZERO TERMINAL IS THE GENERAL DESTINATION.
NO AUTOMATIC PERMANENT NON-ZERO FLOOR.
```

Under Q-BILL-A-016 = C: **GCD DESTINATION** (Zero Terminal for claims actually subject to GCD) is **CLASS I (I-04)**. **GCD DEGRADATION RATE** is **CLASS P**. Do not confuse the destination with the rate.

Percentage-based (CLASS P initial Human-Intent value — numbers unchanged): −0.25 **percentage points** every three months. Equivalent: −1.00 percentage point over a full year. Example: 10.00% → 9.75% → 9.50% → 9.25% → 9.00% → continuing toward ZERO. **Not** proportional. **Not** compounded. These numerical rates are **not** CLASS I. Adjustment requires the applicable lawful change authority. This draft does **not** create automatic administrative power to alter them.

Annual average: where annual liability is calculated across quarterly degrading percentage rates, use the **arithmetic average** of applicable rates. Example: 10.00 / 9.75 / 9.50 / 9.25 → **9.625%**. Partial-year and implementation mechanics remain CLASS S (UQ-GCD-005).

Fixed-dollar (CLASS P initial Human-Intent value — numbers unchanged): 1% of **original starting amount** per full year. Not compounded from the declining balance. Example: $10.00 → $9.90 → $9.80 → $9.70 → continuing toward ZERO. Quarterly implementation, rounding, fractional cents, and last collectible increment remain CLASS S (UQ-GCD-002).

Renaming a compulsory claim as a tax, fee, assessment, levy, surcharge, license, permit, contribution, service charge, or another term does not evade the rule when the underlying substance remains a compulsory government claim.

Zero Terminal chain:

```
GOVERNMENT CLAIM
→ LAWFUL AUTHORITY
→ CLEAR SIGNAL
→ AUTHORIZED CLAIM
→ REQUIRED DEGRADATION
→ CONTINUING ENFORCEABILITY WHILE COMPLIANT
→ ZERO
→ CLAIM TERMINATES.
```

Government may not evade Zero Terminal merely by renaming or reclassifying the claim.

Jury-decision exception (narrow): a monetary claim arising from a **court decision by a jury** is outside the general GCD requirement. Do not broaden it. Remaining statutory boundary is CLASS L (UQ-GCD-004).

Q-BILL-A-010 = **A — APPLIES IN FULL** was recorded while ALL-OUT was still treated as an active path split. Q-BILL-A-011 = C later placed ALL-OUT on **EXPLICIT HOLD**. The GCD / Zero Terminal rule remains Human Intent for authorized compulsory claims that are actually subject to GCD under active architecture. Do **not** represent ALL-OUT income/payroll GCD as current active architecture.

2.0.9 Sinking-fund Future-State objective (Q-BILL-A-009)

```
PERSONAL SINKING FUNDS ≠ GOVERNMENTAL SINKING FUNDS.
ZERO TERMINAL = HUMAN INTENT.
SINKING-FUND / EARNINGS MODEL = FUTURE-STATE DESIGN OBJECTIVE REQUIRI
```

The sinking-fund / earnings model is **CLASS HYP**. Future State here means a continuously improving operating condition within durable guardrails, not a certified destination freeze. Accumulated capital and authorized earnings may increasingly support authorized governmental functions as compulsory claims degrade toward zero. This is **not** a finding of guaranteed returns or proven financial sufficiency (UQ-SF-001 = CLASS R). GCD and governmental sinking funds shall **not** silently convert taxpayer property into permanent government ownership.

2.0.10 Open-dependency classification (WD-BILL-A-110; confirmed this CWC)

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **Class: H** — Human Intent required before public-review reconciliation
- **Status: NONE** as of CWC-CE-170

Table row 2

- **Class: R** — Research / evidence
- **Status:** UQ-TR-016; UQ-CTS-017; UQ-GCD-003 application; UQ-SF-001; UQ-CTS-012; Revenue Universe / KLRS residuals; Domain 07+; Sedgwick Current-State residuals; deferred overlap map; lottery cost audit; Round 2 PDF **NOT FOUND**; 90/10 feasibility; retailer compensation classification; current lottery beneficiaries; identified non-Kansas purchaser

Table row 3

- **Class: S** — Requirements / SPEC
- **Status:** UQ-GCD-002; UQ-GCD-005; CF-BILL-A-015 remaining rate engineering; UQ-NBBF-001; Sedgwick Future-State design; PT schedule / sufficiency / envelope formulas; Rule-of-72 custody/instrument; NBBF procedure

Table row 4

- **Class: L** — Legislative Engineering
- **Status:** UQ-GCD-004 statutory boundary; criminal-enforcement elements; operative statutory language

Revenue Universe arithmetic only: D01=14, D02=16, D03=5, D04=5, D05=18, D06=14; **TOTAL = 72**. Universe **NOT CERTIFIED**. KLRS **NOT CERTIFIED**. Field 25 **BLANK**. Field 26 **NOT DETERMINED**. Domain 07 **NOT EXECUTED**. Sedgwick Future State **not designed**. Overlap map **not created**. These research conditions do **not** reopen CLASS H.

This subsection does **not** assign Field 25 dispositions, classify UQ-TR-016, invent NBBF procedure, calculate TRR/ARR/rates/fund balances, or pass HG-D1.

2.0.11 Kansas Lottery — major Bill A component (CWC-CE-165 through CWC-CE-170)

Classification: HUMAN INTENT. **Not** a current-law finding that the Kansas Lottery is presently a "voluntary tax." **Not** an appropriation. **Not** certified feasibility. **Not** operational implementation.

The Kansas Lottery is a **major Bill A component**. Human Intent characterizes Lottery participation as a candidate **voluntary-tax architecture**: participation is voluntary, while the governmental portion of the economic transaction is being engineered as part of Bill A's revenue/accountability architecture. A Lottery purchase is **not** converted into a Kansas FairTax taxable event merely by this characterization. H.R. 25 gaming/chance treatment in §2.3 remains: do not create a separate Kansas FairTax on a chance if H.R. 25 does not treat the corresponding chance as taxable property or a taxable service.

The Lottery is a candidate **Phase-One proving ground (CLASS PILOT)** for taxpayer attribution, Rule-of-72 partition, governmental cash attribution, NBBF, taxpayer telemetry, property-tax transition, and controlled accountability. Telemetry tracks / exposes / attributes money. Telemetry does **not** create money. NBBF performance does **not** create cash. No operational implementation is claimed. Statewide expansion is **not** authorized by this draft. The Lottery is **not** controlling authority for unrelated Bill A mechanisms.

Candidate proving-ground pattern (Human Intent / not a statutory procedure):

```
BOUND → OPERATE → MEASURE → COMPARE → CORRECT → PROVE
→ EXPAND ONLY THROUGH LAWFUL AUTHORITY.
```

Lottery Cash Waterfall (HUMAN INTENT / ENGINEERING TARGET — feasibility NOT CERTIFIED):

```
GROSS LOTTERY CASH RECEIPTS
→ PRIZE OBLIGATIONS
→ POST-PRIZE CASH
→ 4% RULE-OF-72 INDIVIDUAL PARTITION
→ EVIDENCED UNAVOIDABLE DIRECT ECONOMIC COSTS
→ 90/10 ENGINEERING BASE
→ AVAILABLE GOVERNMENTAL CASH
  versus
  CONTROLLABLE ADMINISTRATION
→ AVAILABLE GOVERNMENTAL CASH
```

→ PROPERTY-TAX ABATEMENT / RETIREMENT.

90/10 BASE = POST-PRIZE CASH – 4% RULE-OF-72 PARTITION – EVIDENCED UNAVOIDABLE DIRECT ECONOMIC COSTS.

The **4% post-prize Rule-of-72 partition**, the **90/10 engineering target**, and the **50/50 attribution values** below are **CLASS P / CLASS HYP / CLASS PILOT** initial Human-Intent values under Q-BILL-A-016 = C. They are **not** CLASS I. The currently recorded numbers are **not changed** by this draft. Adjustment requires the applicable lawful change authority.

90 SIDE = AVAILABLE GOVERNMENTAL CASH (Q-BILL-A-014 = A). Cash received ≠ cash available. Auditable monetary flows only. Noncash public/taxpayer/attributable value, telemetry, NBBF performance, Rule-of-72 account value, accounting credits, and projected savings **cannot** manufacture 90% compliance.

10 SIDE = CEILING / NOT SPENDING ENTITLEMENT for controllable administration (Q-BILL-A-015 = A). Controllable administration ≤ 10% of the defined 90/10 base. If lawful, secure, reliable operation can be achieved below 10%, do **not** spend additional money merely to reach 10%. Lowest practicable controllable cost subject to lawful + secure + reliable lottery operation.

90% is a Human engineering target (**CLASS HYP**). It is not a finding about current Kansas Lottery economics, not a statutory percentage, not a guaranteed result, not 90% of gross Lottery sales, and not permission to manipulate the denominator, classify genuine costs as avoidable, or count noncash value as cash. If later evidence shows the target is unachievable: **REPORT THE CONFLICT.** Do not falsely certify. Do not manipulate evidence to protect the target. A failed hypothesis is information. It is not permission to manufacture compliance.

The earlier gross-ticket Rule-of-72 model (`$0.05 per $1 of gross ticket sales`) is **SUPERSEDED**. Current planning: **4% of post-prize revenue** (**CLASS P** initial planning parameter). This is not 4% of gross sales, not a current Kansas Lottery rule, not an enacted rate, and not a final statutory percentage. Transaction-generated Rule-of-72 partition ≠ NBBF clawback. Ownership, custody, investment instrument, public-debt instrument, tax treatment, inheritance, liquidity, and final legal structure

remain **IMPLEMENTATION ENGINEERING REQUIRED / HUMAN DECISION DEFERRED**.

Remaining **AVAILABLE GOVERNMENTAL LOTTERY CASH** after prizes + Rule-of-72 partition + evidenced unavoidable direct economic costs + controllable administration is intended **primarily** for **PROPERTY-TAX ABATEMENT / RETIREMENT**, subject to later-identified legally required obligations Bill A cannot impair (Q-BILL-A-012 = A). This is Human Engineering Intent. It is not an appropriation, dollar amount, certified replacement amount, beneficiary disposition, or operative statutory mechanism. Abatement versus retirement ranking remains **HUMAN DECISION DEFERRED**.

Geographic attribution (HUMAN INTENT; CLASS P / CLASS PILOT initial values; formulas unresolved):

- Identified Kansas purchaser: 50% county of sale / 50% purchaser domicile county. If the same county: 100% to that county.
- Anonymous / unregistered: 50% county of sale / 50% Kansas 105-County Fund.
- Identified non-Kansas purchaser treatment: **UNRESOLVED**.
- 105-County Fund formula: **UNRESOLVED**.

COUNTY ATTRIBUTION ≠ COUNTY-GOVERNMENT OWNERSHIP. Money follows legitimate authorized function, not historical levying entity.

CURRENT STATUTORY DESTINATION ≠ AUTOMATIC FUTURE-STATE ENTITLEMENT. CURRENT STATUTORY DESTINATION ≠ AUTOMATICALLY AVAILABLE CASH. Current Lottery beneficiaries require controlled audit. This draft does **not** determine which current beneficiary retains or loses funding.

RETAILER COMPENSATION = CLASSIFICATION REQUIRED. No unsupported current Lottery cost is classified here as unavoidable direct economic cost or as controllable administration.

CURRENT COST ≠ FUTURE COST ENTITLEMENT. ENGINEERING TARGET ≠ PERMISSION TO IGNORE REAL COST. DEBT PROCEEDS ≠ FREE REVENUE.

ROUND 2 LOTTERY RESEARCH PDF = **NOT FOUND** in the controlled Cursor workspace. FULL INGESTION = **BLOCKED**. Do not reconstruct

it. Unsupported Round 2 assertions are not controlled facts.

Primary control: `CASH → CLASSIFY → ATTRIBUTE → AUTHORIZE → APPLY → VERIFY.`

2.0.12 Public-review status of this draft

This Draft **1.12** is a **PUBLIC REVIEW DRAFT CANDIDATE**.

It is **not** a Final LOU, Human-accepted LOU, HG-D1 PASS, specification, bill, proposed statute, enacted law, or current Kansas law.

Human gates (HG-D1, SPEC, HG-D2, legislative engineering, publication) are **CLASS I (I-06)** under Q-BILL-A-016 = C. PDCA SHALL NOT bypass them.

Human silence ≠ approval for public-comment publication. CWC-CE-172 produced a Draft 1.11 White Paper / package that is now **HELD** because this draft materially reconciles LOU-004 to Draft 1.12. A later White Paper PDCA reconciliation cycle is required before publication. A later explicit Human Git authorization remains required before publication.

Public comments, if later received, become candidate input to later controlled reconciliation. They do not automatically modify Human Intent.

2.0.13 Improvement-machine principle and Future State (Q-BILL-A-016 = C)

Q-BILL-A-016 = C — INVARIANTS FIRST. Recorded in WD-BILL-A-280. Not Kansas law. Not HG-D1.

Working formulation (Human Intent / not statutory meaning):

```
BILL A ESTABLISHES THE IMPROVEMENT MACHINE;
IT DOES NOT CLAIM TO BE THE FINAL OUTPUT OF THE MACHINE.
```

Bill A shall establish a lawful continuous-improvement architecture inside durable constitutional / normative guardrails. Bill A is **not** intended to freeze the initially engineered tax system as the permanently perfect tax system.

Intended architecture:

```
DURABLE GUARDRAILS
→ INITIAL LAWFUL OPERATING ARCHITECTURE
→ PLAN
→ DO
```

```
→ CHECK
→ ACT
→ IMPROVED OPERATING STATE
→ REPEAT,
```

subject at every stage to the authority legally required for the particular change.

FUTURE STATE means:

```
A CONTINUOUSLY IMPROVING OPERATING CONDITION
WITHIN DURABLE CONSTITUTIONAL / NORMATIVE GUARDRAILS.
```

It does **not** mean a permanently frozen tax architecture created by the original bill.

Explanatory sequence (not a statutory calendar):

```
CURRENT STATE
→ TRANSITION
→ INITIAL OPERATING STATE
→ PDCA
→ IMPROVED OPERATING STATE
→ PDCA
→ FURTHER IMPROVED OPERATING STATE.
```

ARR remains Layer 3 engineering. ARR is **not calculated**. ARR SHALL NOT silently become a permanent spending or revenue entitlement.

2.0.14 Durable invariants and classification taxonomy (Q-BILL-A-016 = C)

Q-BILL-A-016 = C durable invariants until separately reopened through controlled authority:

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **ID: I-01**
- **Invariant:** PROPERTY TAX → ZERO STATEWIDE

Table row 2

- **ID: I-02**
- **Invariant:** EXISTENCE → NOT THE INTENDED TAXABLE EVENT

Table row 3

- **ID: I-03**
- **Invariant:** H.R. 25-style **economic standard** → FINAL CONSUMPTION

Table row 4

- **ID: I-04**
- **Invariant:** ZERO TERMINAL → destination for claims actually subject to GCD

Table row 5

- **ID: I-05**
- **Invariant:** CLOSED POST-BILL-A COMPULSORY DEMAND AUTHORITY

Table row 6

- **ID: I-06**
- **Invariant:** HUMAN GATES

Already-controlled foundational principles from Q-BILL-A-001 remain Human Intent and are **not** newly numbered as Q-016 I-IDs by this draft: property rights precede government pooling; signal must precede claim; current tax revenue ≠ required replacement revenue; current spending ≠ automatic authorized future spending; current revenue claim ≠ automatic future authority; accountability without consequences = only reporting; failure must produce a controlled signal and a controlled response.

Naming note: PDCA **CLASS HYP** (hypothesis) is distinct from historical **CLASS H** in §2.0.10 (Human Intent required before public-review reconciliation) and from **HG-D1 / HG-D2** (Human Gates). Do not collapse those labels.

2.0.15 PLAN → DO → CHECK → ACT (Human Intent; not automatic change authority)

PDCA is recorded as Bill A Human-Intent architecture. It is **not** a statute. It does **not** invent automatic change authority.

PLAN — where applicable establish: lawful objective; applicable invariant / constitutional boundary; baseline; taxpayer burden; governmental function; hypothesis; expected result; measurement; failure criteria; review point.

DO — implement a lawful, bounded operating change or pilot capable of producing useful evidence while preserving required continuity and superior authority.

CHECK — measure actual results against expected results. Candidate measures may include, where applicable: taxpayer burden; revenue; service performance; compliance cost; administrative cost; NBBF performance; economic effects; debt effects; transition effects; distribution effects; unintended consequences; constitutional/legal conflicts; telemetry; expected-versus-actual variance.

ACT — based on controlled evidence: retain; improve; accelerate; slow; modify; replace; suspend; retire; or return for the required Human / legislative / constitutional decision. Then repeat.

PDCA identifies, measures, tests, and recommends improvement. **CHANGE AUTHORITY remains separate.**

2.0.16 PDCA authority firewall, anti-drift, failure doctrine, and traceability

```
PDCA ≠ UNLIMITED ADMINISTRATIVE DISCRETION.
PDCA ≠ EXECUTIVE AUTHORITY TO REWRITE TAXATION.
PDCA ≠ SELF-EXPANDING GOVERNMENT AUTHORITY.
PDCA ≠ TAXING AUTHORITY.
EVIDENCE ≠ AUTHORITY.
```

PDCA SHALL NOT itself create governmental taxing authority. PDCA SHALL NOT itself authorize: a new compulsory claim; an increase in a compulsory claim; expansion of a taxable event; expansion of taxpayer liability; new debt; impairment of taxpayer rights; weakening of transparency; weakening of exit; evasion of sunset; bypass of Human gates; bypass of legislative authority; bypass of constitutional authority.

Continuous improvement SHALL NOT mean continuous expansion of government authority.

PDCA must remain **LAWFUL + BOUNDED + TRACEABLE + REVIEWABLE + NON-SELF-EXPANDING**.

The exact delegation matrix (which parameter may later be adjusted by controlled administrative authority, statute, legislative action, Human Engineering authority, constitutional change, or another lawful mechanism) remains later engineering unless already controlled. **It is not**

invented here.

Bill-A-wide failure doctrine (Human Intent; generalization of the Lottery conflict-report rule):

```
ENGINEERING TARGET
+ CONTRARY CONTROLLED EVIDENCE
→ CONFLICT SIGNAL
→ DO NOT FALSELY CERTIFY
→ CONTROLLED REVIEW
→ RETAIN / MODIFY / REPLACE / RETIRE / DEFER
→ APPLICABLE CHANGE AUTHORITY.
```

EVIDENCE SHALL NOT BE MANIPULATED TO PROTECT AN ENGINEERING TARGET. A failed hypothesis is information. It is not permission to manufacture compliance.

Parameter traceability (Human-Intent requirement; schema is later Requirements / SPEC): adjustable parameter changes shall be traceable, evidence-grounded, and authority-grounded. Candidate metadata (parameter ID, purpose, authority, initial value, baseline, expected result, measurement, actual result, variance, review, change authority, prior/new value, evidence, effective date, next review / sunset) belongs in later Requirements Engineering. This draft does **not** create the database or SPEC.

Layer map (conceptual; no software is sovereign; no framework is superior to law):

```
AGCL / DURABLE INVARIANTS → BOUNDARIES
BILL A → LAWFUL MIGRATION AND TAX-SYSTEM OPERATING ARCHITECTURE
PDCA → CONTINUOUS-IMPROVEMENT LOOP
NBBF → GOVERNMENT-FUNCTION PERFORMANCE / CHECK ARCHITECTURE
RUNTIME REPUBLIC / TAXPAYER TELEMETRY → OBSERVABILITY / EVIDENCE / S
HUMAN / LEGISLATIVE / CONSTITUTIONAL AUTHORITY → CHANGE AUTHORIZATIO
```

2.1 Intent authorized for this working identity (CWC-CE-121)

The Human Engineer authorized CE — Bill A Definition Engineer to establish this Bill A Definition workspace for:

Bill A — Comprehensive Kansas Tax-System Replacement.

Bill A is the broader Kansas tax-system engineering object. It is related to, but distinct from, Bill B — Kansas Property-Tax Elimination. Bill C is outside this LOU.

This section records **working identity and process intent** for CWC-CE-121. It does **not** record an accepted end-state tax architecture, tax-class disposition, revenue design, or transition design.

2.2 Human Engineering Intent recorded from Q-BILL-A-001 (2026-08-31)

Classification: HUMAN INTENT / WORKING DEFINITION.

Source of record: `Engineering-Office/definition/working/bill-a/WD-BILL-A-007-Q-BILL-A-001-Human-Intent-Working-Definition.md` (SRC-BILL-A-012).

Not: a specification; legislative language; a claim of current Kansas law; HG-D1 acceptance; a maturity change; publication.

The Human Engineer states that the fundamental problem Bill A must solve is that the existing tax architecture can hide, unbound, and invert the proper order of property, signal, claim, pooling, stewardship, and accountability — treating government revenue need as if it created property rights, additional tax sources, unlimited ownership of collected resources, a permanent rate entitlement, and an automatic taxpayer backstop.

Bill A is to be considered structurally successful only if the replacement architecture can establish and protect the objectives listed in WD-BILL-A-007 §14, including at least:

- property rights before government pooling;
- clear signals before revenue claims;
- one ultimate source of taxation — people with money;
- clear separation between tax source and tax collection mechanism;
- visible taxpayer burden;
- explicitly defined taxable events;
- bounded government revenue authority;
- taxpayer ownership as an engineering objective and government stewardship rather than unlimited ownership;
- auditable constitutional spending authority at state and local levels;
- sinking-fund financial discipline;
- non-permanent assumptions about tax rates;

- an end to taxpayers as the automatic backstop for poor planning;
- four-month node accountability with controlled consequences for node failure;
- transparency of collection and expenditure;
- expiration / reauthorization where required;
- enforceable controls against government drift.

Working architectural chain (intent only; architecture remains under Engineering Definition):

```
PERSON WITH ECONOMIC RESOURCES
→ PROPERTY RIGHT
→ CLEAR GOVERNMENT SIGNAL
→ AUTHORIZED TAXABLE EVENT
→ BOUNDED REVENUE CLAIM
→ COLLECTION / TRANSMISSION MECHANISM
→ GOVERNMENT POOLING
→ TAXPAYER-OWNERSHIP / STEWARDSHIP CONTROL
→ CONSTITUTIONALLY AUTHORIZED SPENDING
→ GOVERNMENT NODE
→ FOUR-MONTH ACCOUNTABILITY
→ PERFORMANCE SIGNAL
→ CONTINUED AUTHORITY / CORRECTIVE ACTION / FAILURE RESPONSE
→ EXPIRATION OR REAUTHORIZATION
```

The Human Engineer expressly reserved legal feasibility of continuing taxpayer ownership after payment, constitutional spending boundaries, tax incidence, legality of taxable events, rates, replacement-revenue quantity, node definition, and node-failure legal consequences as matters requiring research and Human disposition. This LOU records that reservation. It does **not** convert those items into facts.

2.3 Human Engineering Intent recorded from Q-BILL-A-002 (2026-09-01)

Classification: HUMAN INTENT / WORKING DEFINITION — governing **classification architecture** for end-state tax design.

Source of record: `Engineering-Office/definition/working/bill-a/WD-BILL-A-008-Q-BILL-A-002-Human-Intent-FairTax-Architecture.md` (SRC-BILL-A-013).

Primary federal model: H.R. 25 — FairTax Act of 2025 (119th Congress, Introduced / IH), pinned for Definition tracing at congress.gov / `BILLS-119hr25ih.pdf` (SRC-BILL-A-015). Crosswalk surface: WD-BILL-A-009

(SRC-BILL-A-014).

Not: a specification; legislative language; a claim of current Kansas law; a fiscal finding; HG-D1 or HG-D2 acceptance; a maturity change; publication; commit/push authorization; a completed Kansas tax-class inventory.

Governing disposition rule (intent only):

```
H.R. 25 ECONOMIC STANDARD
→ KANSAS MIRROR
→ EXPRESSLY IDENTIFIED KANSAS DEVIATIONS ONLY
```

Bill A shall mirror the substantive economic tax architecture of H.R. 25 to the maximum extent legally and operationally possible as a state-level mirror. Where H.R. 25 already defines an economic classification necessary to FairTax treatment, Engineering shall not invent a separate Kansas definition. Exact operative H.R. 25 language shall be used where the intended Kansas rule is substantively identical; paraphrase that could change meaning is forbidden. Federal-only machinery may be adapted for Kansas jurisdiction/administration only without silently altering the H.R. 25 economic standard.

Existence, ownership, possession, accumulation, or appreciation of wealth (including money, savings, income merely because earned/received, land, real/personal property, investments, and other owned resources) shall **not** create a Kansas FairTax taxable event. Permitted taxable-event architecture is final consumption as defined and controlled by H.R. 25.

Used property, business-purpose, investment-purpose, mixed-use, conversion, and gaming/lottery/chance treatment shall follow H.R. 25. Do not create a separate Kansas FairTax on a chance if H.R. 25 does not treat the corresponding chance as taxable property or a taxable service. **CWC-CE-165/171:** that FairTax-event exclusion is compatible with treating the Kansas Lottery as a separate Bill A component / candidate voluntary-tax architecture (§2.0.11). The Lottery purchase is not thereby converted into a Kansas FairTax taxable event.

Expressly identified Kansas deviation (intent): retained excise taxes **if later Human-authorized after evidenced audit**. Where an excise is retained, Kansas FairTax shall not stack on the same transaction unless the Human Engineer later expressly authorizes stacking. Motor fuel is the current **example of the uniform surviving-excise standard**, not a unique exception class and not a RETAIN decision (Q-BILL-A-003 / §2.4). Business-purpose FairTax treatment does not

exempt a surviving excise. Every surviving excise must have an expressly declared bounded purpose; 100% of proceeds restricted to direct purpose execution; no government administrative/overhead charge against the pool. Control chain: EXCISE TAX → EXPRESS PURPOSE → RESTRICTED POOL → DIRECT PURPOSE EXECUTION.

Unused excise balances, sinking funds, rate reductions, refunds, credits, and related disposition mechanisms are **OPEN** — do not invent.

Kansas revenue-claim inventory and REMAIN / TRANSFORM / DISAPPEAR / REQUIRES HUMAN DECISION / EVIDENCE INSUFFICIENT classifications are **not invented** by this recording. Architecture is recorded; inventory remains EVIDENCE REQUIRED / OPEN.

CWC-CE-123 preservation, then Q-BILL-A-003 supersession of candidate-retention framing: Items A–O in WD-BILL-A-010 §2 remain historical Human Intent except that **motor fuel as a "PRESENT HUMAN CANDIDATE" retained deviation is superseded** by Q-BILL-A-003 (WD-BILL-A-012 / §2.4): motor fuel is the **example of the uniform surviving-excise standard**, not a unique exception class and not a RETAIN decision. Lottery ticket sales remain Human-classified as **not** a Kansas FairTax taxable transaction; H.R. 25 gaming/chances treatment remains on the evidence crosswalk (VERIFY vs IH PDF).

2.4 Human Engineering Intent recorded from Q-BILL-A-003 (2026-09-01)

Classification: HUMAN INTENT / WORKING DEFINITION.

Source of record: `Engineering-Office/definition/working/bill-a/WD-BILL-A-012-Q-BILL-A-003-Human-Intent-Uniform-Excise-Audit.md` (SRC-BILL-A-017). Audit requirement: WD-BILL-A-013 (SRC-BILL-A-018).

Not: a specification; legislative language; current Kansas law; fiscal finding; HG-D1/HG-D2; authorization of any excise; authorization to retain any audited tax; inventory; RETAIN/TRANSFORM/DISAPPEAR dispositions; maturity change; publication; commit/push.

Do **not** select individual Kansas excise taxes for special treatment at this stage.

All existing Kansas excise taxes and materially equivalent excise-type claims **require an evidenced audit** before final Bill A disposition.

All excises ultimately authorized to survive shall be governed by **one uniform structural standard** (WD-BILL-A-012 §3 A–J): express purpose; 100% restricted pool (not general revenue); direct purpose execution only; no government administrative overhead against the pool (administration funded outside the pool); direct labor/equipment only when executing the declared purpose; no FairTax stacking on the same transaction unless later expressly authorized; surviving excise not waived by H.R. 25 business-purpose treatment; taxpayer transparency signal; no automatic grandfathering; silence is not authorization.

Motor fuel is the **current example of that standard**, not a unique exception class.

Audit chain and fourteen questions: WD-BILL-A-012 §§1–2. The statewide audit is **not executed** in this recording (WD-BILL-A-013).

Final RETAIN / TRANSFORM / DISAPPEAR / HUMAN DECISION REQUIRED / EVIDENCE INSUFFICIENT decisions are **deferred** until the audit provides evidence. Do not invent those dispositions.

2.6 Human Engineering Intent recorded from Q-BILL-A-004 (2026-09-02)

Classification: HUMAN INTENT / WORKING DEFINITION.

Source of record: `Engineering-Office/definition/working/bill-a/WD-BILL-A-015-Q-BILL-A-004-Human-Intent-Kansas-Legal-Revenue-Scope.md` (SRC-BILL-A-019). Audit architecture: WD-BILL-A-016 (SRC-BILL-A-020).

Not: a specification; legislative language; current Kansas law; fiscal finding; HG-D1/HG-D2; authorization of any revenue claim; populated inventory; RETAIN/TRANSFORM/DISAPPEAR; criminal offense or penalty; maturity change; publication; commit/push.

Supersession: The 2026-09-01 narrow Q-BILL-A-004 (materially equivalent excise-type classes (a)–(g)) is **historically retained and SUPERSEDED** by this clarification. It is not erased.

Working Definition concept: **Kansas Legal Revenue Scope (KLRS)** — the complete, evidenced, closed universe of governmental revenue claims that Kansas state government and Kansas local governmental entities may lawfully impose after Bill A's final architecture is established. Intended to answer: what exactly may government lawfully require a Kansan to pay after Bill A?

Audit by legal authority, economic function, and taxable event — not merely by government label. Search surface (not findings): WD-BILL-A-015 §4.

State **and** local entities (counties, cities, school districts, townships, special districts, authorities, and other entities discovered by evidence — do not invent the entity universe).

Strict distinction: CURRENT KANSAS REVENUE INVENTORY ≠ POST-BILL-A KLRS. Current existence does not create survival. Blank disposition ≠ RETAIN. Silence does not authorize a claim.

Q-BILL-A-003 remains controlling for excises. WD-BILL-A-013 is the subordinate Domain EXCISE. Motor fuel is **not RETAINED**. The beyond-motor-fuel excise question remains required and unanswered.

Candidate closed-authority rule (intent, not current law): if a governmental revenue claim is not within the final KLRS, government has no authority under the Bill A architecture to demand it. Anti-evasion (rename / fee-vs-tax / local-vs-state / missed-by-audit) remains LEGAL ENGINEERING REQUIRED.

Criminal-enforcement intent is **Human Intent only** — not current law, not operative legislation, not a defined offense, not penalties. Reserved criminal-law questions: WD-BILL-A-015 §13.

Working structural models: WD-BILL-A-015 §14. Not accepted requirements.

The comprehensive audit is **not executed** (WD-BILL-A-016).

2.7 Human Engineering Intent recorded from Q-BILL-A-005 (2026-09-02)

Classification: HUMAN INTENT / WORKING DEFINITION.

Source of record: `Engineering-Office/definition/working/bill-a/WD-BILL-A-018-Q-BILL-A-005-Human-Intent-Closed-Demand-Authority.md` (SRC-BILL-A-021). Schema: WD-BILL-A-019 (SRC-BILL-A-022). Completeness / execution control: WD-BILL-A-020 (SRC-BILL-A-023).

Not: a specification; legislative language; current Kansas law; fiscal finding; HG-D1/HG-D2; RETAIN of any claim; authorization of a new claim; criminal offense or penalty; audit execution; maturity change; publication; commit/push.

Answer: OPTION (a).

The post-Bill-A Kansas Legal Revenue Scope is the closed set of **compulsory governmental revenue claims** that government may lawfully demand from a person or organization.

The current-state audit shall still discover and classify all material governmental receipts, including non-compulsory receipts, but those receipts remain **outside** the closed demand-authority set unless the Human Engineer later expressly determines otherwise.

Receipt of money by government does not itself create authority to compel payment.

```
KANSAS GOVERNMENT REVENUE UNIVERSE
≠
KANSAS LEGAL REVENUE SCOPE
```

ALL KLRS CLAIMS ARE WITHIN THE GOVERNMENT REVENUE UNIVERSE. NOT ALL GOVERNMENT RECEIPTS ARE KLRS CLAIMS.

Criminal-enforcement intent (Q-BILL-A-004) is preserved for unauthorized **demands**. Option (a) is intended to prevent that architecture from silently applying to mere receipt of non-compulsory funds. Elements remain reserved.

Master register schema and completeness method are **locked as candidate architecture** (WD-BILL-A-019 / WD-BILL-A-020). Registers remain **empty**. Audit **not executed**.

Q-BILL-A-003 unchanged. Motor fuel **not RETAINED**. Beyond-motor-fuel excise question **unanswered**.

2.8 Human Engineering Intent recorded from CWC-CE-139 (2026-09-02)

CWC-CE-142 SUPERSESSION: This §2.8 recording of ALL-IN / ALL-OUT as a **property-tax-transition participation** choice is **SUPERSEDED** as controlling interpretation. Historical text is retained. Controlling intent: §2.11 and WD-BILL-A-067.

Classification: HUMAN INTENT / WORKING DEFINITION — county property-tax transition architecture boundary. **SUPERSEDED as controlling (CWC-CE-142).**

Source of record: `Engineering-Office/definition/working/bill-a/WD-BILL-A-057-County-Property-Tax-All-In-All-Out-Human-Intent-Definition.md` (SRC-BILL-A-230). Unresolved questions: WD-BILL-A-058

(SRC-BILL-A-231).

Not: a specification; legislative language; current Kansas law; accepted LOU provision; HG-D1/HG-D2; a Domain 02 disposition; replacement-revenue engineering; a FairTax rate; an API SPEC; software requirements; a constitutional conclusion; a selected 5-year or 7-year schedule; Domain 05; maturity change; publication; commit/push.

The Human Engineer intends Bill A to **investigate** a county-by-county property-tax transition under an **ALL-IN / ALL-OUT** architecture. That choice is a candidate **PROPERTY-TAX TRANSITION BOUNDARY**, not a general Bill A participation boundary.

```
COUNTY ALL-IN / ALL-OUT
≠
COUNTY OPT-IN / OPT-OUT OF BILL A GENERALLY
```

Statewide / non-optional Human intent (not county-selectable):

1. API access;
2. Taxpayer Supremacy;
3. Runtime Republic architecture.

A county remaining ALL-OUT SHALL NOT, merely because of that choice, be understood to escape statewide API, Taxpayer Supremacy, Runtime Republic, or other statewide controls ultimately established through accepted Bill A Engineering Definition. Exact remaining statewide-control contents stay under Definition. Do not invent additional mandatory components.

ALL-IN (candidate, CWC-CE-139 historical): county affirmatively enters the complete property-tax elimination transition toward **ZERO PROPERTY-TAX AUTHORITY**. **ALL-OUT (candidate, CWC-CE-139 historical):** the county does not enter that property-tax transition package at that decision point. ALL-OUT is not permanent property-tax authority, not county sovereignty over statewide Bill A controls, and not a cherry-pick of replacement benefits.

CWC-CE-142 SUPERSESSION / CWC-CE-159 reading note: This CWC-CE-139 PT-transition-participation reading is **not** controlling. Controlling architecture is **§2.0 / §2.11**. Property-tax elimination is statewide under both ALL-IN and ALL-OUT. ALL-IN / ALL-OUT is a tax-system choice, later refined for revenue architecture in §2.19 / §2.22.

Duration: 5 YEARS = HUMAN CANDIDATE. 7 YEARS = HUMAN CANDIDATE. FINAL DURATION = HUMAN DECISION REQUIRED. Neither is selected. LOU-001's five-year statewide mandate remains **NOT TRANSFERRED** as accepted understanding.

Voter authorization (candidate): county property-tax transition should be authorized by county voters. Exact mechanism OPEN.

Constraint: a property-tax phaseout must not be defeated merely by rising property values or assessed valuations. Baseline mathematics OPEN.

DEPENDENCY ≠ RETAIN. Existing obligations cannot be ignored. H.R. 25 architecture is unchanged. County PT election is not authority for independent county consumption-tax systems. Domain 01–04 dispositions remain **BLANK**. Domain 05 current-state evidence is recorded under CWC-CE-141 (WD-BILL-A-060–066) and is **not** accepted as LOU provisions; Domain 05 dispositions remain **BLANK**. Domain 06 current-state evidence is recorded under CWC-CE-144 (WD-BILL-A-071–077) and is **not** accepted as LOU provisions; Domain 06 dispositions remain **BLANK**; Domain 07 remains **NOT EXECUTED**. Bill A / Bill B allocation remains **HUMAN DECISION REQUIRED**. Full text: WD-BILL-A-057. Open questions: WD-BILL-A-058. No Q-BILL-A-006.

2.9 Prior Human statements not transferred as accepted understanding

The following prior statements exist in controlled artifacts. They are **not** copied here as Agreed Understanding. They remain available for Human confirmation, revision, rejection, or deferral through the questionnaire.

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **Prior statement (summary):** Bill A public pin = COMPREHENSIVE KANSAS TAX-SYSTEM REPLACEMENT
- **Source:** STD-011 §26; CWC-CE-085; LOU-001 Draft 0.3
- **Treatment in this LOU:** Working identity for this LOU (label only)

Table row 2

- **Prior statement (summary):** Bill A includes five-year property-tax elimination **and** comprehensive replacement architecture
- **Source:** LOU-001 Draft 0.3 §1 / §2 (NOT ACCEPTED)
- **Treatment in this LOU: NOT TRANSFERRED** by Q-BILL-A-001 as accepted LOU-004 understanding. CWC-CE-142 records **statewide mandatory** property-tax elimination with a **county choice of 5-year or**

7-year schedule. That does **not** accept LOU-001 and does **not** close Domain G.

Table row 3

- **Prior statement (summary):** Shared LOU-001 remains master for coordinated A/B; optional later bill-specific LOU if authorized
- **Source:** OPTION-3 (CWC-CE-086)
- **Treatment in this LOU:** This LOU is a working Bill A–only candidate; LOU-001 unmodified; supersession **UNRESOLVED**

Table row 4

- **Prior statement (summary):** Existing Kansas taxes survive because they currently exist
- **Source:** Current Kansas practice / silence
- **Treatment in this LOU: REJECTED** by Q-BILL-A-002 — existence is not survival authority

Table row 5

- **Prior statement (summary):** Narrow Q-BILL-A-004 as the complete audit-scope question
- **Source:** LOU-004 Draft 0.5 §10.7; WD-BILL-A-002 v0.5.0
- **Treatment in this LOU: SUPERSEDED** by Q-BILL-A-004 clarification (WD-BILL-A-015); historically retained

Cursor SHALL NOT fill unanswered questions with inferred policy.

2.10 Domain 05 current-state evidence status recorded from CWC-CE-141 (2026-09-02)

Classification: AUDIT STATUS / TRACEABILITY ONLY — **not** accepted LOU provisions.

Source of record: WD-BILL-A-060 through WD-BILL-A-066.

Not: a specification; legislative language; accepted LOU provision; HG-D1/HG-D2; RETAIN/TRANSFORM/DISAPPEAR; a FairTax rate; replacement-revenue engineering; future distribution; Domain 06 execution; maturity change; publication; commit/push; Q-BILL-A-006.

Domain 05 was Human-authorized as a **current-state revenue-claim evidence audit**. Eighteen verified claim-category records were written to WD-BILL-A-061. Completeness: **DOMAIN 05 SUBSTANTIALLY**

COMPLETE WITH EXPLICIT GAPS. Every Field 25 remains **BLANK**. Every Field 26 remains **NOT DETERMINED**. BLANK ≠ RETAIN. CURRENT EXISTENCE ≠ POST-BILL-A AUTHORITY. CURRENT RECEIPTS ≠ REQUIRED REPLACEMENT REVENUE. Kansas Government Revenue Universe remains **NOT CERTIFIED**. KLRS remains **NOT CERTIFIED**. API / Taxpayer Supremacy / Runtime Republic remain statewide. **CWC-CE-142:** the "property-tax-transition-only" ALL-IN / ALL-OUT reading in the original CWC-CE-141 report is **SUPERSEDED** as architecture interpretation (WD-BILL-A-067); Domain 05 evidence is **not** reopened. Findings live in the working artifacts and are **not** converted into this LOU.

2.11 Human Engineering Intent recorded from CWC-CE-142 (2026-09-02)

Classification: HUMAN INTENT / WORKING DEFINITION — **CONTROLLING** for county tax-system choice and property-tax elimination. **Not** accepted LOU provisions. **Not** Kansas law.

Source of record: WD-BILL-A-067 (SRC-BILL-A-274). Supersession: WD-BILL-A-068. Unresolved questions: WD-BILL-A-069.

Not: a specification; legislative language; current Kansas law; accepted LOU provision; HG-D1/HG-D2; a Domain 02/05 disposition; replacement-revenue engineering; a FairTax rate; an API SPEC; software requirements; a constitutional conclusion; invented phaseout mathematics; maturity change; publication; commit/push; Q-BILL-A-006.

Verbatim Human Engineering Intent:

> Every Kansas county eliminates property taxation. Each county chooses a five- or seven-year elimination schedule and independently decides whether to adopt the new tax system or retain the legacy tax system, with property taxation permanently removed. Statewide taxpayer-control architecture—including API access, Taxpayer Supremacy, transparency, accountability, and the Runtime Republic—is not optional and is not subject to county-by-county adoption.

Four rules (do not collapse):

```
PROPERTY-TAX ELIMINATION IS STATEWIDE AND MANDATORY.
FIVE YEARS OR SEVEN YEARS IS A COUNTY SCHEDULE CHOICE.
NEW SYSTEM OR LEGACY SYSTEM MINUS PROPERTY TAX IS A SEPARATE COUNTY T
TAXPAYER-CONTROL ARCHITECTURE IS STATEWIDE AND NON-OPTIONAL.

ALL-IN  = NEW SYSTEM
```

```
ALL-OUT = LEGACY SYSTEM MINUS PROPERTY TAX
ALL-OUT ≠ RETAIN PROPERTY TAX
ALL-IN ≠ PROPERTY-TAX ELIMINATION
PROPERTY-TAX ELIMINATION OCCURS UNDER BOTH PATHS
```

Statewide / non-optional: API access; Taxpayer Supremacy; transparency architecture; accountability architecture; Runtime Republic architecture.

Do not infer which individual legacy claims survive. Field 25 remains **BLANK**. Field 26 remains **NOT DETERMINED**. Mechanisms remain RESEARCH REQUIRED / LEGAL INTERPRETATION REQUIRED / NOT DETERMINED (WD-BILL-A-069). HUMAN INTENT ≠ CURRENT LAW.

CWC-CE-155 / 157 / 158 refinement (does not rewrite the CWC-CE-142 four rules): “Legacy system minus property tax” is **not** a complete ALL-OUT revenue statement and is **not** permanent legacy-tax authority. ALL-OUT income/payroll, where authorized, is transitional and subject to Government Claim Degradation through Zero Terminal (Q-BILL-A-010 = A). ALL-OUT ≠ permanent tax floor. See §2.19 / §2.22.

CWC-CE-146 INTEGRATION: The four rules above remain controlling. The 5-year / 7-year schedule is the **maximum authorized property-tax elimination runway**, not a governmental entitlement to collect property tax for five or seven years. Revenue-sufficiency acceleration, no-double-dip, senior Year-1 priority, provisional up-to-5% state and up-to-5% local planning ceilings, Current-State → Future-State mapping, function-first local allocation, and Sedgwick County as initial reference model are recorded in §2.13 / WD-BILL-A-078. This does **not** accept those statements as LOU provisions.

2.12 Domain 06 current-state evidence status recorded from CWC-CE-144 (2026-09-02)

Classification: AUDIT STATUS / TRACEABILITY ONLY — **not** accepted LOU provisions.

Source of record: WD-BILL-A-071 through WD-BILL-A-077.

Not: a specification; legislative language; accepted LOU provision; HG-D1/HG-D2; RETAIN/TRANSFORM/DISAPPEAR; a FairTax rate; replacement-revenue engineering; future distribution; Domain 07 execution; county-architecture change; property-tax architecture change; maturity change; publication; commit/push; Q-BILL-A-006.

Domain 06 was Human-authorized as a **current-state revenue-claim evidence audit**. Fourteen verified claim-category records were written to WD-BILL-A-072 (`KRU-D06-001` through `KRU-D06-014`). Completeness: **DOMAIN 06 SUBSTANTIALLY COMPLETE WITH EXPLICIT GAPS**. Every Field 25 remains **BLANK**. Every Field 26 remains **NOT DETERMINED**. BLANK ≠ RETAIN. ASSESSMENT ≠ AUTOMATICALLY RETAIN. PROPERTY-RELATED ASSESSMENT ≠ AUTOMATICALLY PROPERTY TAX. CURRENT EXISTENCE ≠ POST-BILL-A AUTHORITY. CURRENT RECEIPTS ≠ REQUIRED REPLACEMENT REVENUE. Kansas Government Revenue Universe remains **NOT CERTIFIED**. KLRS remains **NOT CERTIFIED**. Domain 01–05 counts remain **14 / 16 / 5 / 5 / 18**. Combined arithmetic **58 + 14 = 72** is a register count only — **72 ≠ 72 retained claims**. The four-rule county architecture in §2.11 is **unchanged** as the CWC-CE-142 base and is **integrated** (not superseded) by CWC-CE-146. Findings live in the working artifacts and are **not** converted into this LOU.

2.13 Human Engineering Intent recorded from CWC-CE-146 (2026-09-02)

Classification: HUMAN INTENT / WORKING DEFINITION — **CONTROLLING** for transition sequencing, no-double-dip, revenue-sufficiency acceleration, senior Year-1 priority, provisional 5%/5% planning ceilings, Current-State → Future-State mapping, function-first local allocation, and Sedgwick County reference-model **role**. **Not** accepted LOU provisions. **Not** Kansas law.

Source of record: WD-BILL-A-078 (SRC-BILL-A-309). Unresolved questions: WD-BILL-A-079. Conflicts / authority levels: WD-BILL-A-080. CWC-CE-142 four rules remain in WD-BILL-A-067 / §2.11.

Not: a specification; legislative language; current Kansas law; accepted LOU provision; HG-D1/HG-D2; a Domain 01–06 disposition; a FairTax rate; replacement-revenue engineering; a distribution formula; a Sedgwick fiscal audit; invented senior eligibility; invented sufficiency mathematics; maturity change; publication; commit/push; Q-BILL-A-006.

Recorded Human Engineering Intent (summary; full text WD-BILL-A-078):

```
PROPERTY TAX = ZERO IS THE STATEWIDE END STATE.
5 OR 7 YEARS IS THE MAXIMUM TRANSITION RUNWAY, NOT A GOVERNMENT REVEN
REVENUE SUFFICIENCY MAY ACCELERATE PROPERTY TAX TO ZERO.
THE TRANSITION SHALL NOT AUTHORIZE DOUBLE-DIPPING.
SENIORS RECEIVE FIRST PRIORITY TO ZERO WHEN A TRANSITION REMAINS.
IF REVENUE SUFFICIENCY SUPPORTS ZERO FOR EVERYONE, DO NOT DELAY EVERY
UP TO 5% STATE AND UP TO 5% LOCAL ARE PROVISIONAL PLANNING CEILINGS.
```

```
THE CEILING IS NOT THE TARGET.
5% + 5% ≠ GUARANTEED 10%.
CURRENT REVENUE ≠ REQUIRED FUTURE REVENUE.
HISTORICAL COLLECTION ≠ FUTURE ENTITLEMENT.
LOCAL REVENUE IS AN ENVELOPE ENGINEERED AROUND AUTHORIZED FUNCTION AN
USDs MAY REQUIRE THE LION'S SHARE; THEY ARE NOT PREASSIGNED THE LION'
EACH COUNTY REQUIRES CURRENT-STATE → FUTURE-STATE MAPPING.
SEDGWICK COUNTY IS THE INITIAL REFERENCE MODEL, NOT THE STATEWIDE RES
```

AUTHORIZED REVENUE REQUIREMENT remains an engineering term. It is **not** last year's revenue, current collections, current spending, current property-tax collections, or historical budget.

Senior Year-1 destination is **zero**, not a freeze / cap / deferral / rebate / partial exemption / permanent separate class. Eligibility remains **NOT DETERMINED** (WD-BILL-A-079 UQ-TR-001).

Sedgwick County fiscal audit is **NOT EXECUTED** as of this CWC-CE-146 recording. Subsequent Current-State mapping status: §2.14.

No rate, replacement-revenue, distribution, or senior-savings calculation is performed. Human concurrence with CWC-CE-146 authorizes this Definition recording. It does **not** constitute acceptance of this LOU draft.

2.14 Sedgwick Current-State reference-model evidence mapping status recorded from CWC-CE-148 (2026-09-04)

Classification: AUDIT STATUS / TRACEABILITY ONLY — **not** accepted LOU provisions. **Not** new Human Intent. **Not** Future-State design. This recording was made while this LOU remained **Draft 1.10** (version not then incremented). Controlling draft is now **Draft 1.12** (§2.0 / §2.27). **STATUS UPDATE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE.**

Source of record: WD-BILL-A-082 through WD-BILL-A-091. Supplemental Human sales/use evidence leads investigated in WD-BILL-A-087.

Not: a specification; legislative language; accepted LOU provision; HG-D1/HG-D2; a Domain 01–06 disposition; a FairTax rate; replacement-revenue engineering; AUTHORIZED REVENUE REQUIREMENT; a sufficiency test; a no-double-dip formula; senior eligibility; a distribution formula; maturity change; publication; commit/push; Q-BILL-A-006.

CWC-CE-148 executed the first **Current-State evidence mapping** of the governmental fiscal ecosystem affecting taxpayers within Sedgwick County, Kansas, as the initial Bill A reference model. Completeness: **SUBSTANTIALLY COMPLETE FOR ARCHITECTURE WITH EXPLICIT**

GAPS (WD-BILL-A-090). Sedgwick ≠ statewide default / rate / template. County government ≠ the entire ecosystem. Domain 01–06 counts remain **14 / 16 / 5 / 5 / 18 / 14 = 72**. Field 25 remains **BLANK**. Field 26 remains **NOT DETERMINED**. Universe/KLRS remain **NOT CERTIFIED**. Domain 07 statewide audit remains **NOT EXECUTED**.

Human-supplied sales/use figures were **evidence leads** until independently verified. Subsequent CWC-CE-150 verification: §2.15. Material Current-State quantities are **Current-State evidence only**. They are **not** Bill A revenue targets, local requirements, or rate inputs. `$824.3M` / `$145M` / `$121M+` are **not** Bill A targets. Current Kansas sales/use tax is **not** H.R. 25. Up to 5% state + up to 5% local remain **provisional planning ceilings**. Future State is **NOT DESIGNED**. No Bill A rate or replacement-revenue calculation was performed.

Findings live in the working artifacts and are **not** converted into this LOU.

2.15 Sedgwick Current-State evidence-gap closure status recorded from CWC-CE-150 (2026-09-04)

Classification: AUDIT STATUS / TRACEABILITY ONLY — **not** accepted LOU provisions. **Not** new Human Intent. **Not** Future-State design. This recording was made while this LOU remained **Draft 1.10** (version not then incremented). Controlling draft is now **Draft 1.12** (§2.0 / §2.27). **STATUS UPDATE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE. EVIDENCE ≠ HUMAN INTENT.**

Source of record: WD-BILL-A-092 through WD-BILL-A-096. Updates to WD-BILL-A-087 and WD-BILL-A-090. CWC-CE-148 map remains canonical at SHA `f8bc930c8fe16a394123076dc155b6035d838f87`. CWC-CE-149 = PASS.

Not: a specification; legislative language; accepted LOU provision; HG-D1/HG-D2; a Domain 01–06 disposition; a FairTax rate; replacement-revenue engineering; AUTHORIZED REVENUE REQUIREMENT; a sufficiency test; a no-double-dip formula; senior eligibility; a distribution formula; overlap-map design; CWC-CE-151; maturity change; publication; commit/push; Q-BILL-A-006.

CWC-CE-150 closed, narrowed, or precisely preserved high-value Current-State evidence gaps. Primary KDOR workbooks verify the Human CY2023–2025 state sales/use and FY2024–FY2025 state sales-only leads, the FY2025 countywide 1% local sales/use series, and the CY2025 countywide 1% sales pool. The Human Wichita approximately $7 million lead is **NOT VERIFIED / CONTRADICTED**. CF-SED-003, CF-SED-004, CF-SED-005, CF-SED-006, and

CF-SED-007 are closed as unlike-quantity or methodological classifications, or as a contradicted factual lead. CF-SED-001 numerical bridge and CF-SED-002 remain **UNRESOLVED**. Domain 01–06 counts remain **14 / 16 / 5 / 5 / 18 / 14 = 72**. Field 25 remains **BLANK**. Field 26 remains **NOT DETERMINED**. Universe/KLRS remain **NOT CERTIFIED**. Domain 07 statewide audit remains **NOT EXECUTED**.

Sedgwick County Government Overlap Map — deferred until completion of all other Bill A LOU research and Definition activities. **No map created.** Future State is **NOT DESIGNED**. No Bill A rate or replacement-revenue calculation was performed.

Findings live in the working artifacts and are **not** converted into this LOU.

2.16 Next Human-Intent question asked from CWC-CE-152 (2026-09-04)

Classification: AUDIT STATUS / TRACEABILITY ONLY — later answered under §2.17. This recording was made while this LOU remained **Draft 1.10** (version not then incremented). Controlling draft is now **Draft 1.12** (§2.0 / §2.27).

Source of record: WD-BILL-A-097; WD-BILL-A-002 Q-BILL-A-006; WD-BILL-A-098.

CWC-CE-152 restored the Bill A Definition sequence and identified **Q-BILL-A-006**. The question was **asked** in CWC-CE-152 and **answered** in CWC-CE-153. See §2.17. ARR was **not** calculated.

2.17 Q-BILL-A-006 Human Intent recorded from CWC-CE-153; Q-BILL-A-007 asked (2026-09-04)

Classification: HUMAN INTENT / WORKING DEFINITION recorded in working artifacts — **not** accepted LOU provisions. **Not** HG-D1. This recording was made while this LOU remained **Draft 1.10** (version not then incremented). Controlling draft is now **Draft 1.12** (§2.0 / §2.27). **STATUS UPDATE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE. RECORDING ≠ CALCULATION.**

Source of record: WD-BILL-A-099 (SRC-BILL-A-333); WD-BILL-A-002 Q-BILL-A-006 / Q-BILL-A-007; WD-BILL-A-100.

Exact Human statement answering Q-BILL-A-006 (punctuation preserved; this is the Human quote, not an engineering paraphrase):

> All-In counties must meet their current spending requirements, but a spike in revenue beyond projections is immediately used to eliminate all remaining property taxes. Seniors (and the disabled on fixed incomes go

first to zero, then others follow. All-Out counties are on their own to survive with surviving tax systems, and property taxes dissipate.

Engineering interpretation (WD-BILL-A-099 §2; **not** a Human quote): ALL-IN counties must be capable of meeting **TRR** during transition. The historical phrase “current spending requirements” in the Human quote is **not** automatic TRR protection of all current spending. After Q-BILL-A-008, TRR membership is the Enforceable-Instrument Class rule (presently enforceable qualifying legal obligations). ALL-IN revenue above the properly established projection is applied to accelerate remaining property-tax elimination (formula **not** designed). First-priority property-tax elimination class is qualifying seniors **and** qualifying disabled persons on fixed incomes; then other property taxpayers follow; eligibility **not** determined. ALL-OUT counties receive **no** Bill A replacement-revenue guarantee and must survive on surviving tax systems while property tax dissipates to zero. ALL-OUT does **not** escape statewide taxpayer-control architecture. 5/7 years remain a **maximum** runway. No-double-dip principle is strengthened; formula **not** written. ARR / TRR **not calculated**.

Not resolved by this recording: the precise Definition of “current spending requirements” as Layer 2 transitional continuity versus Layer 3 mature Future-State ARR. That distinction is **answered** in §2.18 / CWC-CE-154 (Q-BILL-A-007). Membership of Layer 2 is **answered** in §2.20 / CWC-CE-156 (Q-BILL-A-008 = B). Candidate TRR/ARR terminology was **recommended** in CWC-CE-153 and **established** in CWC-CE-154.

Not: a specification; legislative language; accepted LOU provision; HG-D1/HG-D2; a FairTax rate; ARR/TRR calculation; sufficiency test; no-double-dip formula; surplus-after-zero rule; senior/disabled eligibility; overlap-map design; Domain 07; maturity change; publication; commit/push.

Domain 01–06 counts remain **14 / 16 / 5 / 5 / 18 / 14 = 72**. Field 25 **BLANK**. Field 26 **NOT DETERMINED**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. Future State **not designed**. Overlap map **not created**. Maturity remains **19%**.

Findings live in the working artifacts and are **not** converted into accepted LOU provisions.

2.18 Q-BILL-A-007 Human Intent recorded from CWC-CE-154; Q-BILL-A-008 asked (2026-09-05)

Classification: HUMAN INTENT / WORKING DEFINITION recorded in working artifacts — **not** accepted LOU provisions. **Not** HG-D1. This recording was made while this LOU remained **Draft 1.10** (version not then incremented). Controlling draft is now **Draft 1.12** (§2.0 / §2.27). **STATUS UPDATE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE. RECORDING ≠ CALCULATION.**

Source of record: WD-BILL-A-101 (SRC-BILL-A-335); WD-BILL-A-002 Q-BILL-A-007 / Q-BILL-A-008; WD-BILL-A-102.

Exact Human statements answering Q-BILL-A-007 (this is the Human quote, not an engineering paraphrase):

Part 1: “Protects legally obligated current spending, but immediately subjects all new spending to NBBF.”

Part 2: “Creates TRR — Transitional Revenue Requirement for the transition and reserves ARR — Authorized Revenue Requirement.”

Menu classification: **OTHER / HUMAN DEFINITION.** CWC-CE-153 alternatives were **not** substituted.

Engineering interpretation (WD-BILL-A-101 §2; **not** a Human quote): **TRR** is established as the temporary Layer 2 requirement for legally obligated current spending. **ARR** is reserved as the separate mature Layer 3 Future-State requirement. TRR ≠ ARR. Legally obligated current spending ≠ all current spending, all lawful spending, all budgets, or automatic permanent entitlement. All **new spending** is immediately subject to NBBF and shall not automatically enter TRR. Complete NBBF admission procedure for Kansas Bill A is **not invented**. Precise membership of “legally obligated current spending” and “new spending” is **answered** in §2.20 / CWC-CE-156 (Q-BILL-A-008 = B — Enforceable-Instrument Class). Qualifying **classes** remain later research (UQ-TR-016). TRR/ARR **not calculated**.

Not: a specification; legislative language; accepted LOU provision; HG-D1/HG-D2; a FairTax rate; TRR/ARR calculation; sufficiency test; no-double-dip formula; NBBF SPEC; overlap-map design; Domain 07; maturity change; publication; commit/push.

Domain 01–06 counts remain **14 / 16 / 5 / 5 / 18 / 14 = 72**. Field 25 **BLANK**. Field 26 **NOT DETERMINED**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. Future State **not designed**. Overlap map **not created**. Maturity remains **19%**.

Findings live in the working artifacts and are **not** converted into accepted LOU provisions.

2.19 ALL-IN / ALL-OUT revenue architecture and Government Claim Degradation recorded from CWC-CE-155 (2026-09-05)

Historical dual-path recording. ALL-OUT portions are **EXPLICIT HOLD** after Q-BILL-A-011 = C. See controlling §2.0.5 / §2.24.

Classification: HUMAN INTENT / WORKING DEFINITION recorded in working artifacts — **not** accepted LOU provisions. **Not** HG-D1. This recording was made while this LOU remained **Draft 1.10** (version not then incremented). Controlling draft is now **Draft 1.12** (§2.0 / §2.27). **STATUS UPDATE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE. RECORDING ≠ CALCULATION. DEGRADATION ≠ AUTHORIZATION.**

Source of record: WD-BILL-A-103 (SRC-BILL-A-337); WD-BILL-A-104.

Q-BILL-A-008 status: ANSWERED BY HUMAN ENGINEER in §2.20 / CWC-CE-156 (B — Enforceable-Instrument Class). This section is **not** that answer.

Kansas **state-level** tax architecture shall be converted to the H.R. 25-style consumption-tax architecture. The state shall **not** preserve a parallel traditional state income/payroll-tax system merely because it exists in the Current State.

ALL-IN counties participate in the new Bill A state/local tax architecture. Preserved: CURRENT STATE → TRR → ARR; TRR ≠ ARR; TRR membership = presently enforceable qualifying legal obligations (Q-BILL-A-008 = B); new spending → NBBF; surplus → PT acceleration; 5/7 = maximum runway; senior + disabled fixed-income first-priority class. ALL-IN does **not** mean funding existing government exactly as it exists.

ALL-OUT counties do **not** participate in the new **local** H.R. 25-style replacement architecture. They receive **no** Bill A replacement-revenue guarantee; remain subject to statewide PT elimination, statewide taxpayer-control architecture, Government Claim Degradation, and **Zero Terminal** for compulsory claims subject to degradation; may operate only claims Bill A authorizes to survive; may set initial rates/amounts for authorized surviving claims subject to Government Claim Degradation; **may** operate traditional personal and business income/payroll tax within county jurisdiction (temporary presence / TDY alone is **not** jurisdiction;

business **and** work location must originate in-county); **SHALL NOT** impose an inheritance tax; may **not** revive eliminated claims. ALL-OUT status does **not** create a permanent tax floor and cannot evade Zero Terminal by renaming a tax as a fee or other compulsory charge. **CWC-CE-158 / Q-BILL-A-010 = A:** authorized ALL-OUT personal and business income/payroll **SHALL** follow the general GCD percentage path (–0.25 percentage points every three months) to Zero Terminal. ALL-OUT income/payroll is **transitional**, not a permanent tax floor. CWC-CE-142 four rules remain; ALL-OUT revenue description is **refined** (CF-BILL-A-016).

Government Claim Degradation: any compulsory governmental monetary claim must contain an authorized degradation path over time unless it is a **jury-decision** monetary claim. Substance controls over label. Degradation does **not** authorize a claim. **CWC-CE-157 / Q-BILL-A-009 = A:** the general terminal destination is **ZERO**. No automatic non-zero floor. See §2.21.

Percentage-based surviving compulsory claims: –**0.25 percentage points every three months** (1.00 point per year). Not a 25% quarterly cut. Continues toward **ZERO**. Annual liability, where determined annually, uses the **arithmetic average** of applicable rates for that year (example 10.00 / 9.75 / 9.50 / 9.25 → 9.625%). Fixed-dollar surviving compulsory claims: **1% of the original starting amount per full year**, not compounded from the declining balance (example $10.00 → $9.90 / $9.80 / $9.70). Continues toward **ZERO**. Except the jury-decision exception, a claim required to degrade that lacks and does not follow its authorized degradation path is **not enforceable** under the intended Bill A architecture. **Not current Kansas law.**

Provisional 5%/5% ceilings remain attached to the H.R. 25-style architecture and are **not** silently applied as ALL-OUT income/payroll caps (CF-BILL-A-015). H.R. 25 existence-not-event remains controlling for the H.R. 25-style taxable event; ALL-OUT income/payroll is an express county-path deviation (CF-BILL-A-014).

Field 25 remains **BLANK**. Counts remain **14 / 16 / 5 / 5 / 18 / 14 = 72**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. TRR/ARR **not calculated**. Maturity remains **19%**.

Tax-system architecture table (explanatory Definition material only)

Historical dual-path table. ALL-OUT rows are **EXPLICIT HOLD** after Q-BILL-A-011 = C and are **not** current active architecture. This table **does not** assign Revenue Universe Field 25 dispositions. Terminal condition is stated separately from treatment so Zero Terminal is not confused with a RETAIN.

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **CLAIM / SYSTEM:** State H.R. 25-style architecture
- **TREATMENT:** State converts from parallel traditional income/payroll to H.R. 25-style consumption tax. ALL-IN participates locally. ALL-OUT does **not** participate in the **new local** replacement. Rate **not set**. 5%/5% = planning ceilings for this architecture, **not** ALL-OUT caps.
- **DEGRADATION:** Surviving authorized compulsory claims follow GCD. This architecture itself is not a retained income tax.
- **TERMINAL CONDITION:** Not a GCD terminal for the H.R. 25-style tax as such; surviving compulsory add-ons follow Zero Terminal if GCD applies
- **UNRESOLVED DEPENDENCIES:** Rate/base/administration; UQ-TR-004; local envelope; Domain 03/04 Field 25 **BLANK**

Table row 2

- **CLAIM / SYSTEM:** Property tax
- **TREATMENT:** Statewide mandatory elimination under **both** ALL-IN and ALL-OUT. 5- or 7-year **maximum** runway; ALL-IN sufficiency may accelerate. ALL-IN / ALL-OUT does **not** decide survival.
- **DEGRADATION:** Elimination path is Human Intent; not the 0.25-point surviving-claim rule
- **TERMINAL CONDITION: ZERO STATEWIDE**
- **UNRESOLVED DEPENDENCIES:** Eligibility; schedule mathematics; no-double-dip formula

Table row 3

- **CLAIM / SYSTEM:** ALL-IN local architecture
- **TREATMENT:** Participates in new Bill A state/local architecture; Current State → TRR → ARR; new spending → NBBF; surplus

accelerates remaining PT elimination; no double dip

• **DEGRADATION:** Surviving authorized compulsory local claims follow GCD

• **TERMINAL CONDITION:** PT → ZERO; other authorized compulsory claims → Zero Terminal if GCD applies

• **UNRESOLVED DEPENDENCIES:** UQ-TR-016; UQ-CTS-014 residual; envelope formulas

Table row 4

• **CLAIM / SYSTEM:** ALL-OUT personal income/payroll

• **TREATMENT: May** operate only within bounded county jurisdiction. TDY/temporary presence alone is **not** jurisdiction. **Not** a permanent income/payroll floor. **Not** a Field 25 RETAIN.

• **DEGRADATION: GCD APPLIES IN FULL** (Q-BILL-A-010 = A): –0.25 percentage points every 3 months

• **TERMINAL CONDITION: ZERO TERMINAL**

• **UNRESOLVED DEPENDENCIES:** UQ-CTS-017 (definitions CLASS R)

Table row 5

• **CLAIM / SYSTEM:** ALL-OUT business income/payroll

• **TREATMENT: May** operate; **both** business **and** work location must originate in-county. **Not** a permanent floor. **Not** a Field 25 RETAIN.

• **DEGRADATION: GCD APPLIES IN FULL** (same path as personal)

• **TERMINAL CONDITION: ZERO TERMINAL**

• **UNRESOLVED DEPENDENCIES:** UQ-CTS-017 (definitions CLASS R)

Table row 6

• **CLAIM / SYSTEM:** Inheritance tax

• **TREATMENT:** ALL-OUT **SHALL NOT** impose. Not authorized as a surviving ALL-IN local claim by this recording.

• **DEGRADATION:** N/A (prohibition)

• **TERMINAL CONDITION: PROHIBITED** — not a surviving claim

• **UNRESOLVED DEPENDENCIES:** Other transfer-claim Universe residuals; Field 25 **BLANK**

Table row 7

• **CLAIM / SYSTEM:** Percentage-based compulsory claims

• **TREATMENT:** Authorization first; then GCD if the claim is an authorized surviving compulsory percentage claim

• **DEGRADATION:** –0.25 percentage **points** every 3 months; annual **arithmetic** average if annual liability (example 9.625%)

• **TERMINAL CONDITION: ZERO** (Q-BILL-A-009 = A)

• **UNRESOLVED DEPENDENCIES:** UQ-GCD-005 (CLASS S)

Table row 8

• **CLAIM / SYSTEM:** Fixed-dollar compulsory claims

• **TREATMENT:** Authorization first; then GCD if authorized surviving compulsory fixed-dollar claim

• **DEGRADATION:** 1% of **original starting amount** per full year; **not** compounded

• **TERMINAL CONDITION: ZERO** (Q-BILL-A-009 = A)

• **UNRESOLVED DEPENDENCIES:** UQ-GCD-002 (CLASS S)

Table row 9

• **CLAIM / SYSTEM:** Fees / licenses / permits

• **TREATMENT:** Not automatically compulsory; not automatically RETAINED. ALL-OUT may operate only authorized surviving claims.

• **DEGRADATION:** If substance is compulsory: GCD applies despite the label

• **TERMINAL CONDITION: ZERO** if GCD applies

• **UNRESOLVED DEPENDENCIES:** UQ-GCD-003 (CLASS R); Domain 05 Field 25 **BLANK**

Table row 10

• **CLAIM / SYSTEM:** Assessments / surcharges / other compulsory claims

• **TREATMENT:** Authorization first; cannot revive eliminated claims; cannot evade Zero Terminal by rename

- **DEGRADATION:** Substance over label; GCD if surviving compulsory
- **TERMINAL CONDITION: ZERO** if GCD applies
- **UNRESOLVED DEPENDENCIES:** UQ-TR-009; Domain 06 Field 25 **BLANK**

Table row 11

- **CLAIM / SYSTEM:** Jury-decided monetary claims
- **TREATMENT:** Outside general GCD. Narrow: a monetary claim arising from a **court decision by a jury** only.
- **DEGRADATION:** General GCD does **not** apply
- **TERMINAL CONDITION:** Outside Zero Terminal **as a GCD destination**; remaining statutory boundary CLASS L
- **UNRESOLVED DEPENDENCIES:** UQ-GCD-004

Findings live in the working artifacts and are **not** converted into accepted LOU provisions.

2.20 Q-BILL-A-008 Human Intent recorded from CWC-CE-156; Q-BILL-A-009 asked (2026-09-05)

Classification: HUMAN INTENT / WORKING DEFINITION recorded in working artifacts — **not** accepted LOU provisions. **Not** HG-D1. This recording was made while this LOU remained **Draft 1.10** (version not then incremented). Controlling draft is now **Draft 1.12** (§2.0 / §2.27). **STATUS UPDATE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE. RECORDING ≠ CALCULATION. TRR ELIGIBILITY ≠ AMOUNT. TRR ≠ ARR. TRR ≠ GOVERNMENT CLAIM DEGRADATION.**

Source of record: WD-BILL-A-105 (SRC-BILL-A-339); WD-BILL-A-002 Q-BILL-A-008 / Q-BILL-A-009; WD-BILL-A-106.

Human selection answering Q-BILL-A-008: B — ENFORCEABLE-INSTRUMENT CLASS. The Human Engineer explicitly concurred. Options A, C, and D were **not** substituted.

Engineering interpretation (WD-BILL-A-105 §2; **not** a Human quote): For ALL-IN transition, TRR covers **only** presently enforceable legal obligations of classes later established through controlled evidence and legal research. Ongoing budgeted or statutory programs without a qualifying enforceable legal instrument are **not** automatically TRR-protected. New instruments created during transition are new spending subject to NBBF rather than automatically entering TRR.

Pre-existing instruments do **not** automatically qualify. CURRENT SPENDING ≠ TRR. The historical Q-BILL-A-006 phrase “current spending requirements” shall **not** be read as TRR protection of all current spending.

Research-candidate classes (constitutional obligations, bonded debt, lawful contracts, judgments, and others listed in UQ-TR-016) are **not** Human-approved TRR classes. This CWC does **not** classify them.

TRR is temporary Layer 2 treatment. It does not automatically preserve programs, entities, revenue streams, taxes, fees, assessments, ARR, permanent funding, or constitutional authority.

ALL-OUT receives **no** Bill A replacement-revenue guarantee. Q-BILL-A-008 does **not** extend TRR into an ALL-OUT replacement-revenue guarantee.

TRR (governmental expenditure obligation) and Government Claim Degradation (compulsory claim against governed parties) remain **separate**. A GCD jury-decision exception does **not** make a judgment TRR-qualified.

Q-BILL-A-009 is **asked** in this section’s original CWC-CE-156 recording. Subsequent Human answer: **§2.21 / CWC-CE-157** (A — Zero Terminal). TRR/ARR **not calculated**. Field 25 **BLANK**. Counts remain **14 / 16 / 5 / 5 / 18 / 14 = 72**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. Maturity remains **19%**.

Findings live in the working artifacts and are **not** converted into accepted LOU provisions.

2.21 Q-BILL-A-009 Human Intent recorded from CWC-CE-157; Q-BILL-A-010 asked (2026-09-05)

Classification: HUMAN INTENT / WORKING DEFINITION recorded in working artifacts — **not** accepted LOU provisions. **Not** HG-D1. This recording was made while this LOU remained **Draft 1.10** (version not then incremented). Controlling draft is now **Draft 1.12** (§2.0 / §2.27). **STATUS UPDATE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE. RECORDING ≠ CALCULATION. ZERO TERMINAL ≠ PROVEN SINKING-FUND SUFFICIENCY. DEGRADATION ≠ AUTHORIZATION.**

Source of record: WD-BILL-A-107 (SRC-BILL-A-341); WD-BILL-A-002 Q-BILL-A-009 / Q-BILL-A-010; WD-BILL-A-108.

Human selection answering Q-BILL-A-009: A — ZERO TERMINAL. The Human Engineer explicitly concurred. Options B, C, and D were **not** substituted.

Additional Human statement (exact quote, not engineering paraphrase):

> With both personal and government sinking funds running government on perpetual interest off these funds is possible.

The Human Engineer explicitly concurred with recording this direction.

Engineering interpretation (WD-BILL-A-107 §2; **not** a Human quote): Every authorized surviving compulsory governmental monetary claim subject to Government Claim Degradation continues along its authorized degradation path until the applicable compulsory **rate or amount reaches ZERO**. ZERO is the general terminal destination. Once at zero, that claim is no longer enforceable as a compulsory monetary demand.

```
AUTHORIZED COMPULSORY CLAIM
→ REQUIRED DEGRADATION
→ CONTINUING REDUCTION
→ ZERO
→ COMPULSORY CLAIM TERMINATES.

GOVERNMENT CLAIM
→ LAWFUL AUTHORITY
→ CLEAR SIGNAL
→ AUTHORIZED CLAIM
→ REQUIRED DEGRADATION PATH
→ CONTINUING ENFORCEABILITY WHILE COMPLIANT
→ ZERO
→ CLAIM TERMINATES.
```

Subject to the narrow jury-decision exception. Degradation does **not** authorize a claim. Claim authorization must precede degradation. A prohibited claim does not become lawful because it degrades.

No automatic non-zero floor. Historical revenue, historical tax rates, historical fee amounts, historical budgets, historical spending, administrative convenience, revenue expectations, and governmental preference are **not** authority to stop degradation above zero. Any future exception requires separate Human authorization and controlled engineering. This CWC does **not** create such an exception.

ZERO means ZERO. Government SHALL NOT automatically freeze the claim immediately above zero, create a minimum permanent rate or fee,

rename the residual, transfer the residual into another compulsory claim, or restart the claim under a different label. Substance controls over label. A replacement compulsory claim requires independent Bill A authority.

Percentage and fixed-dollar **rates remain as recorded in §2.19**. Paths now continue **toward ZERO**. Quarterly implementation, rounding, fractional-cent handling, and last collectible increment remain **UQ-GCD-002** (later Requirements/SPEC). Average-rate mechanics remain **UQ-GCD-005**.

Sinking-fund Future-State objective (not a sufficiency finding): Bill A shall contemplate a financial architecture in which **personal** sinking funds and **governmental** sinking funds (two conceptually distinct categories; **not** merged) accumulate capital over time, with the objective that authorized governmental functions may increasingly be supported by earnings generated from accumulated funds as compulsory claims degrade toward zero. Directional architecture: COMPULSORY CLAIM → AUTHORIZED COLLECTION → CONTROLLED DEGRADATION → CAPITAL ACCUMULATION / SINKING-FUND DEVELOPMENT → REDUCED DEPENDENCE ON COMPULSORY CLAIMS → ZERO TERMINAL → INCREASED RELIANCE ON AUTHORIZED CAPITAL / EARNINGS.

```
ZERO TERMINAL = HUMAN INTENT.
SINKING-FUND / EARNINGS MODEL = FUTURE-STATE DESIGN OBJECTIVE
REQUIRING LATER EVIDENCE AND ENGINEERING.
```

This recording does **not** assert guaranteed or perpetual returns; principal that cannot decline; a sufficient rate or balance; that every function can already be financed from earnings; that transition funding, market risk, inflation risk, fiduciary architecture, or constitutional investment authority is solved; or that personal and governmental sinking funds are legally interchangeable. Those questions are **UQ-SF-001** and later financial, constitutional, fiduciary, actuarial, and risk analysis. Cross-reference Q-BILL-A-001 / WD-BILL-A-007 §8 sinking-fund financial discipline; do **not** silently rewrite that earlier intent.

Taxpayer property-right firewall: PROPERTY RIGHTS PRECEDE GOVERNMENT POOLING. SIGNAL MUST PRECEDE CLAIM. Government Claim Degradation and governmental sinking funds SHALL NOT silently convert taxpayer property into permanent government ownership. Downstream ownership, custody, investment, beneficiary, withdrawal, allocation, transfer, clawback, inheritance, and access structures are **not resolved** here.

Zero Terminal SHALL **not** assign Revenue Universe Field 25. Universe/KLRS remain **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. UQ-TR-016 remains **NOT CLASSIFIED**. TRR/ARR **not calculated**. Sinking-fund balances **not calculated**. Investment returns **not assumed**.

Q-BILL-A-010 is **asked** in this section's original CWC-CE-157 recording. Subsequent Human answer: **§2.22 / CWC-CE-158** (A — Applies in Full).

Findings live in the working artifacts and are **not** converted into accepted LOU provisions.

2.22 Q-BILL-A-010 Human Intent recorded from CWC-CE-158; LOU Completion Readiness OUTCOME A (2026-09-05)

Historical ALL-OUT income/payroll GCD recording. After Q-BILL-A-011 = C this is **not** current active architecture. See §2.0.5 / §2.24.

Classification: HUMAN INTENT / WORKING DEFINITION recorded in working artifacts — **not** accepted LOU provisions. **Not** HG-D1. This recording was made while this LOU remained **Draft 1.10** (version not then incremented). Controlling draft is now **Draft 1.12** (§2.0 / §2.27). **STATUS UPDATE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE. RECORDING ≠ CALCULATION. READINESS ≠ ACCEPTANCE.**

Source of record: WD-BILL-A-109 (SRC-BILL-A-343); WD-BILL-A-110 (SRC-BILL-A-344); WD-BILL-A-002 Q-BILL-A-010; WD-BILL-A-111.

Human selection answering Q-BILL-A-010: A — APPLIES IN FULL. The Human Engineer explicitly concurred. Options B and C were **not** substituted.

Engineering interpretation (WD-BILL-A-109 §2; **not** a Human quote): Authorized ALL-OUT personal and business income/payroll taxes are fully subject to the general Government Claim Degradation architecture. They decline –**0.25 percentage points every three months** until **ZERO TERMINAL**. ALL-OUT does **not** create permanent traditional income/payroll authority. ALL-OUT ≠ permanent legacy tax system. ALL-OUT income/payroll ≠ permanent tax floor. ALL-OUT authorization ≠ exemption from GCD.

```
AUTHORIZED ALL-OUT PERSONAL OR BUSINESS INCOME/PAYROLL CLAIM
→ BOUNDED COUNTY JURISDICTION
→ CLEAR SIGNAL
→ AUTHORIZED COMPULSORY CLAIM
```

→ −0.25 PERCENTAGE POINTS EVERY THREE MONTHS
→ CONTINUING DEGRADATION
→ ZERO
→ CLAIM TERMINATES.

Not current Kansas law. Temporary presence / TDY alone does **not** create jurisdiction. Nexus definitions remain UQ-CTS-017. Provisional 5%/5% ceilings remain attached to the H.R. 25-style architecture and are **not** ALL-OUT income/payroll caps. Q-BILL-A-010 does **not** assign Field 25.

LOU Completion Readiness Review result (WD-BILL-A-110): OUTCOME A — HUMAN-INTENT DEFINITION COMPLETE ENOUGH FOR FINAL LOU RECONCILIATION. Q-BILL-A-011 is **not asked**. This is **not** HG-D1 and **not** Human acceptance. Remaining items are classified CLASS R / S / L. CLASS H for LOU completion is **empty**. Next controlled action identified in this recording: FINAL LOU RECONCILIATION / HUMAN-REVIEW PREPARATION.
CWC-CE-159 executed that action (§2.0 / §2.23). The result is a Final Human-Review Candidate. It is **not** Human-accepted.

TRR/ARR **not calculated**. Field 25 **BLANK**. Counts remain **14 / 16 / 5 / 5 / 18 / 14 = 72**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. Maturity remains **19%**.

Findings live in the working artifacts and are **not** converted into accepted LOU provisions.

2.23 CWC-CE-159 final LOU reconciliation / Human-review candidate (2026-09-05)

Classification: RECONCILIATION / HUMAN-REVIEW PREPARATION — **not** accepted LOU provisions. **Not** HG-D1. **Not** Human acceptance.

Source of record: WD-BILL-A-112 (SRC-BILL-A-346); WD-BILL-A-113 (SRC-BILL-A-347); WD-BILL-A-114 (SRC-BILL-A-348).

CWC-CE-159 reconciled Q-BILL-A-001 through Q-BILL-A-010 and subsequent Human-authorized refinements into **§2.0**. Consistency Tests 1–18 **PASS**. CLASS H remains **NONE**. No new Q-BILL-A item was manufactured.

Designation (historical Draft 1.10): FINAL HUMAN-REVIEW CANDIDATE. Later superseded as the current draft identity by Draft 1.11 Public Review Draft candidate (§2.26). Neither designation is Human acceptance.

Not: Human-accepted; HG-D1 passed; SPEC created; maturity changed; TRR/ARR/rate/fund calculation; Field 25 assignment; UQ-TR-016 classification;

Domain 07 execution; Sedgwick Future-State design; overlap map; NBBF procedure.

Draft version remained **1.10** in CWC-CE-159. **VERSION CHANGE WAS NOT PERFORMED IN THAT CYCLE.** STATUS UPDATE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE. Later CWC-CE-171 incremented to **Draft 1.11** without accepting the LOU.

Human Review Summary: WD-BILL-A-113. It **does not replace** this LOU.

The Human Engineer is asked to select **A / B / C** in §21. Cursor shall **not** infer the answer. Human silence ≠ acceptance. Acceptance of this LOU, if later given, is **not** automatically HG-D1 passage unless governing control expressly makes them identical. They are **not** identical.

TRR/ARR **not calculated**. Field 25 **BLANK**. Counts remain **14 / 16 / 5 / 5 / 18 / 14 = 72**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. Maturity remains **19%**.

2.24 Q-BILL-A-011 Human Intent recorded from CWC-CE-166 — ALL-OUT explicit hold (2026-09-05)

Classification: HUMAN INTENT / WORKING DEFINITION. **Not** accepted LOU provisions. **Not** HG-D1.

Source of record: WD-BILL-A-128 / WD-BILL-A-129.

Human selection answering Q-BILL-A-011: C — DEFER WITH EXPLICIT HOLD. The Human Engineer stated: “I concur with C.” Options A and B were **not** substituted.

ALL-OUT = deferred candidate + explicit hold + not retired + not active. ALL-IN = primary active candidate, **not** Human-accepted. Active Definition SHALL NOT depend on ALL-OUT surviving. Do not resume ALL-OUT engineering unless a later CWC releases the hold.

§2.19 / §2.22 remain historical recordings. They are **not** erased. They are **not** current active architecture.

2.25 Q-BILL-A-012 through Q-BILL-A-015 — Lottery remainder / 90/10 / cash / ceiling (2026-09-05)

Classification: HUMAN INTENT / WORKING DEFINITION. **Not** accepted LOU provisions. **Not** HG-D1. Feasibility **NOT CERTIFIED**.

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **ID:** Q-BILL-A-012
- **Answer: A — PRIMARY TRANSITION DESTINATION**
- **Meaning:** Remaining available governmental lottery cash is intended primarily for property-tax abatement / retirement, subject to protected obligations. Not an appropriation.

Table row 2

- **ID:** Q-BILL-A-013
- **Answer: B — AFTER UNAVOIDABLE COSTS**
- **Meaning:** 90/10 applies after prizes, 4% post-prize Rule-of-72 partition, and evidenced unavoidable direct economic costs. Not 90% of gross.

Table row 3

- **ID:** Q-BILL-A-014
- **Answer: A — AVAILABLE GOVERNMENTAL CASH**
- **Meaning:** The 90 side is auditable available governmental cash. Noncash value cannot satisfy the target. Cash received ≠ cash available.

Table row 4

- **ID:** Q-BILL-A-015
- **Answer: A — CEILING / NOT SPENDING ENTITLEMENT**
- **Meaning:** The 10 side is a ceiling. Do not spend merely to reach 10%. Lowest practicable controllable cost subject to lawful + secure + reliable operation.

Sources of record: WD-BILL-A-145 / 163 / 185 / 208 and consolidation WD-BILL-A-210. Controlling synthesis: **§2.0.11**.

Q-BILL-A-016 was **asked in CWC-CE-173** and **answered in CWC-CE-174**. CWC-CE-170 Class-H public-review blockers = **NONE**.

2.26 CWC-CE-171 public-review reconciliation (2026-09-05)

Classification: RECONCILIATION / PUBLIC REVIEW DRAFT CANDIDATE — **not** accepted LOU provisions. **Not** HG-D1. **Not** Human acceptance. **Not**

publication.

CWC-CE-171 reconciled Draft 1.10 against Human Intent through CWC-CE-170. Stale ALL-OUT dual-path presentation is corrected in §2.0. Lottery architecture is incorporated in §2.0.11. Unresolved matters remain visible in §10.30 / §12.

Draft version is incremented to **1.11** because this CWC actually rewrites LOU-004. VERSION CHANGE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE ≠ HG-D1 ≠ PUBLICATION.

2.27 Q-BILL-A-016 Human Intent recorded from CWC-CE-174 — Invariants First / PDCA (2026-09-05)

Classification: HUMAN INTENT / WORKING DEFINITION. **Not** accepted LOU provisions. **Not** HG-D1. **Not** automatic tax-change authority.

Source of record: WD-BILL-A-279 (asked) / WD-BILL-A-280 (answered).

Human selection answering Q-BILL-A-016: C — INVARIANTS FIRST.
Options A and B were **not** substituted. A blend was **not** substituted.

Controlling synthesis: **§2.0.13–§2.0.16**. Durable invariants I-01–I-06. Named Draft 1.11 numbers preserved as initial CLASS P / CLASS HYP / CLASS T / CLASS PILOT values. PDCA ≠ taxing authority. Future State is not a frozen tax design.

Draft version is incremented to **1.12** because this CWC actually rewrites LOU-004. VERSION CHANGE ≠ HUMAN ACCEPTANCE ≠ MATURITY CHANGE ≠ HG-D1 ≠ PUBLICATION. White Paper remains Draft 1.11 until a later authorized reconciliation cycle.

---

3. Scope — In

1. Bill A Engineering Definition for comprehensive Kansas tax-system replacement.
2. Question-driven recording of Human intent, proposed understanding, factual claims requiring evidence, assumptions, open questions, rejected interpretations, and deferred items.
3. Evidence taxonomy and non-authoritative research recording.
4. AGCL 00A–00J Definition control classification (not satisfaction claims).

5. Relationship analysis to Bill B **without** modifying Bill B artifacts.

6. Recording of legal and fiscal unknowns as unknowns.

7. Kansas Lottery as a Bill A component, Rule-of-72 partition, 90/10 engineering target, and property-tax cash destination — as Human Intent, not certified economics.

8. Public-review status labeling and unresolved-matters disclosure.

9. Lawful continuous-improvement (PDCA) architecture, CLASS I / CLASS P / CLASS HYP / CLASS T / CLASS PILOT / CLASS U taxonomy, and PDCA authority firewall — as Human Intent, not automatic change authority.

---

4. Scope — Out

1. HG-D1 acceptance.

2. Production SPEC / HG-D2.

3. Legislative drafting (bill sections, operative statutory text, constitutional amendment language, repealer, effective-date, appropriation, codification).

4. Implementation, Controlled Execution, Git commit/push, publication, press, social-media product.

5. Maturity recalculation (Bill A remains 19% unchanged).

6. Modification of LOU-001, Bill B Definition artifacts, LOU-003 / Bill C, or PRC-BILL-B / PRC-BILL-C.

7. Inventing Kansas law, fiscal quantities, or Human intent.

8. Silent resolution of conflicts.

9. Domain 07 and later execution.

10. Inventing phaseout percentages, valuation baselines, mill-levy formulas, election statutes, default schedules, debt treatment, school/municipal/special-district binding, or other mechanisms reserved in WD-BILL-A-069.

11. FairTax-rate, replacement-revenue, or future-distribution engineering.

12. Git publication / public-comment release (later Human-authorized cycle only).

13. White Paper rewrite (later CWC-CE-175). This CWC does **not** rewrite the White Paper.

14. Certifying Lottery 90/10 feasibility; classifying unsupported Lottery costs; disposing current Lottery beneficiaries; inventing the 105-County Fund formula; selecting Rule-of-72 ownership/custody/instrument.

15. Resuming ALL-OUT engineering.

16. Inventing PDCA delegation / automatic administrative tax-change authority.

17. Changing any currently recorded numerical Human-Intent value (GCD rates, four-month cadence, 5%/5% ceilings, 5/7-year maxima, Lottery 4% / 90/10 / 50/50).

---

5. Research Inputs

High-level inventory only. Details are in §6 and in `WD-BILL-A-003-Evidence-Register.md`.

- **Status:** Pinned locator opened (SRC-BILL-A-015); full provision-by-provision trace **INCOMPLETE**

Table row 11

- **Stream:** PRIMARY-LEGAL / GOV-DATA Kansas current-state revenue claims
- **Status:** Domain 01 **executed** in WD-BILL-A-022 / WD-BILL-A-023 (CWC-CE-127) and **closure applied** in WD-BILL-A-028 (CWC-CE-128). Domain 02 **executed** in WD-BILL-A-030 /

WD-BILL-A-031 (CWC-CE-130) and **closure applied** in WD-BILL-A-037 (CWC-CE-131). Domain 03 **executed** in WD-BILL-A-039 / WD-BILL-A-040 (CWC-CE-133) and **closure applied** in WD-BILL-A-046 (CWC-CE-134). Domain 04 **executed** in WD-BILL-A-048 / WD-BILL-A-049 (CWC-CE-136) and **closure applied** in WD-BILL-A-055 (CWC-CE-137). Domain 05 **executed** in WD-BILL-A-060 / WD-BILL-A-061 (CWC-CE-141). Domain 06 **executed** in WD-BILL-A-071 / WD-BILL-A-072 (CWC-CE-144). Those findings are **not** accepted into this LOU. Domains 07–12 **not** executed. Statewide Universe **not** certified.

No Kansas constitutional provision, statute, rate, or revenue quantity is asserted as an **accepted LOU fact** in this Draft 1.11. CWC-CE-148 Sedgwick Current-State locators and working findings live in WD-BILL-A-082 through WD-BILL-A-091 and are **not** accepted LOU facts. CWC-CE-150 locators and working findings live in WD-BILL-A-092 through WD-BILL-A-096 (with status updates to WD-BILL-A-087 and WD-BILL-A-090) and are **not** accepted LOU facts. Domain 01 current-state locators and working findings live in WD-BILL-A-022 through WD-BILL-A-026 and WD-BILL-A-028. Domain 02 current-state locators and working findings live in WD-BILL-A-030 through WD-BILL-A-035 and WD-BILL-A-037. Domain 03 current-state locators and working findings live in WD-BILL-A-039 through WD-BILL-A-044 and WD-BILL-A-046. Domain 04 current-state locators and working findings live in WD-BILL-A-048 through WD-BILL-A-056. Domain 06 current-state locators and working findings live in WD-BILL-A-071 through WD-BILL-A-077. They do **not** become LOU provisions by being discovered. Current income-tax existence is **not** a Human RETAIN. Current property-tax existence is **not** a Human RETAIN. Current Kansas sales/use tax is **not** designated as the Bill A replacement tax and is **not** H.R. 25. H.R. 25 is recorded as the Human-directed federal model text, not as Kansas law. Kansas Legal Revenue Scope remains a working Definition concept (compulsory demand-authority only) and is **not** a closed post-Bill-A inventory.

---

6. Research Record / Evidence Annex

Non-authoritative provenance. Classification does not confer engineering authority. Default Authority Status: **Non-authoritative**.

AI summaries of H.R. 25 are **not** primary evidence. Use SRC-BILL-A-015.

---

7. Agreed Understanding

NONE ACCEPTED. HG-D1 remains NOT PASSED.

The following are **PROPOSED UNDERSTANDING** seeds transcribed from classified Human Intent (Q-BILL-A-001 through Q-BILL-A-016 and later recordings). They are **not** accepted understanding, not requirements, and not Kansas legal findings. CWC-CE-159 classified Q-001–010 for Human review in WD-BILL-A-112. CWC-CE-171 adds Q-011–015. CWC-CE-174 adds Q-016 = C. **NONE ACCEPTED until the Human Engineer later selects A on the Human Review Decision.** Public-review publication, if later authorized, is **not** that selection. Recorded Human Intent ≠ accepted understanding ≠ HG-D1.

1. Bill A's tax architecture shall start from the person and that person's property, not from the government revenue pool; property rights precede government pooling.

2. Signal must precede claim: authority, taxable event, obligated person, timing, determination method, destination of funds, limits, and expiration/reconsideration shall be defined before a revenue claim.

3. There is only one ultimate source of taxation for Bill A design: people with money. Collection mechanisms, legal entities, and tax names do not create additional ultimate sources.

4. Bill A shall distinguish the ultimate source of taxation from the mechanism used to collect or transmit it. Reducing the number of tax names is not by itself the success condition; visibility of economic reality is.

5. Taxpayer ownership of tax dollars and government stewardship of tax dollars are central engineering objectives. Payment into a pool shall not automatically be treated as unlimited government ownership. Legal feasibility of continuing ownership after payment is **not** established here.

6. Current spending / current tax revenue shall not automatically define required replacement revenue. Authorized functions, constitutional

obligations, lawful debt, contracts, transition, performance, efficiency, and expenditures lacking continuing authority must be examined first.

7. Structural success is defined by the objective list in WD-BILL-A-007 §14 and the working architectural chain in §16 of that source. The architecture remains under Engineering Definition.

8. Bill A's end-state FairTax economic architecture shall mirror H.R. 25 (SRC-BILL-A-015) under the disposition rule H.R. 25 → Kansas mirror → expressly identified Kansas deviations only (WD-BILL-A-008).

9. Existence/ownership/accumulation of wealth is not a Kansas FairTax taxable event; permitted taxable-event architecture is H.R. 25 final consumption.

10. Any excise ultimately authorized by the Human Engineer to survive Bill A shall be governed by **one uniform surviving-excise standard** (WD-BILL-A-012 §3 A–J): express bounded purpose; 100% restricted pool (not general revenue); direct purpose execution only; no government administrative overhead against the pool; direct labor/equipment only when executing the declared purpose; no FairTax stacking on the same transaction unless later expressly authorized; H.R. 25 business-purpose treatment does not exempt the surviving excise; taxpayer transparency signal; no automatic grandfathering; silence is not authorization. Motor fuel is the **example of that standard**, not a unique exception class and **not** a RETAIN decision.

11. All existing Kansas excise taxes and materially equivalent excise-type claims **require an evidenced audit** (WD-BILL-A-013) before RETAIN / TRANSFORM / DISAPPEAR / HUMAN DECISION REQUIRED / EVIDENCE INSUFFICIENT. Dispositions are **not invented**. The statewide audit is **not executed** in this draft.

12. **HUMAN-ACCEPTANCE REQUIRED candidate default (CWC-CE-123, force preserved except candidate-retention framing):** a revenue claim disappears or is transformed into the Kansas FairTax architecture unless Human Intent and later legal engineering expressly authorize survival after audit. Survival schema: WD-BILL-A-010 (historical candidate-retention notes superseded by WD-BILL-A-012). Not a requirement.

13. **Kansas Government Revenue Universe** is the current-state evidenced universe of material governmental receipts and claims. **Kansas Legal Revenue Scope** is the intended closed post-Bill-A set of **compulsory** governmental demand claims only (Q-BILL-A-005 Option (a)). Neither register is populated by this draft.

14. Post-Bill-A governmental **demand** authority is intended to be closed. Receipt of money is not demand authority. Candidate rule: if a compulsory demand is not within the final KLRS, government has no Bill A collection authority. Intent only — not current Kansas law.

15. A compulsory demand does not obtain authority by silence, audit miss, historical existence, rename, fee-vs-tax characterization, local-vs-state placement, or equivalent economic function under different terminology. Anti-evasion legal implementation remains LEGAL ENGINEERING REQUIRED.

16. Criminal-enforcement intent against unauthorized **demands** outside the final KLRS is recorded as Human Intent only. It does not apply by recording to mere receipt of non-compulsory funds. Not current law. Not operative legislation.

17. **SUPERSEDED (CWC-CE-142):** County ALL-IN / ALL-OUT as a candidate **property-tax transition** participation boundary (CWC-CE-139 / WD-BILL-A-057). Historical only.

18. API access, Taxpayer Supremacy, transparency, accountability, and Runtime Republic architecture are statewide / non-county-optional Human intent. ALL-OUT does not escape those statewide controls.

19. **CWC-CE-142 (historical dual-path language; later hold):** ALL-IN = adopt the new Bill A tax system applicable to county/local taxation (as later defined). Historical ALL-OUT = retain the otherwise applicable legacy tax system **minus property tax**. ALL-OUT ≠ retain property tax. ALL-IN ≠ property-tax elimination. Property-tax elimination occurs under both historical paths. **CWC-CE-155/158 (historical):** “legacy minus PT” is incomplete as a complete ALL-OUT revenue statement; historically recorded ALL-OUT income/payroll is transitional and subject to GCD / Zero Terminal (Q-BILL-A-010 = A). **CWC-CE-166 / Q-BILL-A-011 = C:** ALL-OUT is on **EXPLICIT HOLD** and is **not** an active coequal path. ALL-IN is the **primary active candidate**, not Human-accepted.

20. **CWC-CE-142:** Each county chooses a **five-year or seven-year** property-tax elimination schedule. Those two choices exist. Mechanics (percentages, baselines, formulas, default if no choice) remain OPEN (WD-BILL-A-069).

21. County decision authority / voter-authorization **mechanism** remains OPEN.

22. DEPENDENCY ≠ RETAIN. Existing obligations cannot be ignored. Bill A / Bill B allocation remains HUMAN DECISION REQUIRED.

23. **CWC-CE-142:** Property-tax elimination is **statewide and mandatory**. PROPERTY TAX = ZERO is the intended end condition for every Kansas county. Mechanisms RESEARCH REQUIRED / LEGAL INTERPRETATION REQUIRED / NOT DETERMINED. Human Intent ≠ current Kansas law.

24. Do not infer which individual legacy claims survive under ALL-OUT. Domain 01–06 Field 25 remains BLANK.

25. **CWC-CE-146:** The county 5-year or 7-year schedule is the **maximum authorized property-tax elimination runway**, not a governmental entitlement to collect property tax for the full period. Earlier zero is intended when subsequently defined revenue-sufficiency conditions are satisfied. Mechanics remain OPEN (WD-BILL-A-069 / WD-BILL-A-079).

26. **CWC-CE-146:** The transition shall not authorize double-dipping — collecting full replacement-system revenue while also collecting property-tax revenue that is no longer necessary. The formula is **not** defined.

27. **CWC-CE-146:** If an ALL-IN county's new authorized tax system produces sufficient revenue to meet the properly determined AUTHORIZED REVENUE REQUIREMENT, property taxation shall accelerate to zero. The sufficiency test is **not** defined. AUTHORIZED REVENUE REQUIREMENT is **not** last year's revenue / current collections / current spending / current property-tax collections / historical budget. **CWC-CE-153/154:** During transition the sufficiency object is **TRR** (legally obligated current spending), not all current spending. **ARR** is reserved for mature Future State. TRR ≠ ARR. Neither is calculated. Precise TRR membership is **Q-BILL-A-008 = B** (CWC-CE-156). Qualifying classes remain UQ-TR-016.

28. **CWC-CE-146:** Qualifying senior homestead property tax is intended to reach zero in Year 1 as an elimination **priority** when a transition remains necessary. Eligibility is **not** determined. If Year-1 sufficiency is achieved, do not delay everyone else solely to preserve the schedule. Absorption is **not** defined as a tax shift onto younger owners. **CWC-CE-153:** the first-priority class is qualifying seniors **and** qualifying disabled persons on fixed incomes; then other property taxpayers follow to zero. Eligibility remains **not** determined. Internal subclass order is **not** determined.

29. **CWC-CE-146:** Up to 5% state and up to 5% local FairTax-style / use-tax amounts are **provisional planning ceilings**, not set rates, not a guaranteed 10%, and not a county-owned 5%. The ceiling is not the target. H.R. 25 substantive economic architecture is **not** silently modified.

30. **CWC-CE-146:** Each Kansas county requires a controlled Current-State → Future-State mapping before its final Bill A transition architecture is determined. Local revenue follows authorized function and demonstrated Future-State requirement. USD lion's share is possible if later evidence supports it and is **not** preassigned. Sedgwick County is the initial **reference model**, not the statewide result.

31. **CWC-CE-148:** First Sedgwick Current-State evidence mapping is recorded in WD-BILL-A-082–091. Future-State mapping is **not** executed. Current-State figures are **not** Bill A rates, replacement-revenue requirements, or local envelopes. UQ-TR-001–012 remain open.

32. **CWC-CE-153:** When ALL-IN new-system revenue exceeds the properly established projection/requirement, the excess is **not** automatically new spending authority; it is applied to accelerate remaining property-tax elimination. Formula **not** designed. Surplus-distribution after property tax = zero is **not** decided.

33. **CWC-CE-153:** ALL-OUT counties receive **no** Bill A replacement-revenue guarantee. They survive on surviving tax systems while property tax dissipates to zero. ALL-OUT ≠ right to preserve property tax. ALL-OUT ≠ exemption from statewide taxpayer-control architecture. Individual legacy-claim survival remains **NOT INFERRED** (Field 25 **BLANK**). TRR is **not** inferred to apply to

ALL-OUT as a Bill A replacement guarantee.

34. **CWC-CE-154: TRR** (Transitional Revenue Requirement) is the temporary Layer 2 requirement for legally obligated current spending. **ARR** (Authorized Revenue Requirement) is reserved for the mature Layer 3 Future-State requirement. TRR SHALL NOT automatically become ARR.

35. **CWC-CE-154:** All **new spending** is immediately subject to NBBF and shall not automatically enter TRR. Complete Kansas/Bill A NBBF admission procedure is **not invented**.

36. **CWC-CE-154:** Legally obligated current spending ≠ mere historical existence, current budget line, or permanent Future-State entitlement. Precise classification was **asked** as Q-BILL-A-008 and later **ANSWERED** as **B — ENFORCEABLE-INSTRUMENT CLASS** (CWC-CE-156 / §2.20). Qualifying instrument **classes** remain CLASS R (UQ-TR-016), **not** classified.

37. **CWC-CE-155:** Kansas **state** tax architecture converts to H.R. 25-style consumption tax; the state shall not preserve a parallel traditional state income/payroll system merely because it currently exists.

38. **CWC-CE-155 (historical dual-path; later hold):** ALL-IN counties participate in the new Bill A state/local tax architecture. Historical ALL-OUT counties do **not** participate in the new **local** H.R. 25-style replacement architecture. **Current status (Q-011 = C):** ALL-OUT is not active.

39. **CWC-CE-155:** ALL-OUT counties may operate traditional personal and business income/payroll tax only within bounded county jurisdiction (temporary presence/TDY alone is not jurisdiction; business and work location must originate in-county). Definitions of originate/nexus remain OPEN. **CWC-CE-158:** those authorized claims follow general GCD to Zero Terminal (Q-BILL-A-010 = A).

40. **CWC-CE-155:** ALL-OUT counties **SHALL NOT** impose an inheritance tax and may not revive a claim eliminated by Bill A.

41. **CWC-CE-155:** Government Claim Degradation is required for authorized surviving compulsory claims unless the narrow jury-decision exception applies. Substance controls over label. Degradation does **not** authorize a claim.

42. **CWC-CE-155:** Percentage-based surviving compulsory claims decline 0.25 **percentage points** every three months. Annual liability, where determined annually, uses the arithmetic average of applicable rates. Fixed-dollar surviving compulsory claims decline 1% of the **original starting amount** per full year, not compounded from the declining balance.

43. **CWC-CE-155:** Except the jury-decision exception, a compulsory claim required to degrade that lacks and does not follow its authorized degradation path is not enforceable under the intended Bill A architecture. **Not current Kansas law.**

44. **CWC-CE-156:** Q-BILL-A-008 = B. TRR covers only presently enforceable legal obligations of later-established qualifying classes. Current spending, budgets, appropriations, programs, staffing, entities, and pre-existing instruments are not automatically TRR. New transition instruments are new spending / NBBF.

45. **CWC-CE-156:** TRR eligibility is not a calculated amount and is not ARR or permanent Future-State authorization. TRR ≠ Government Claim Degradation. A jury-decision GCD exception does not make a judgment TRR-qualified.

46. **CWC-CE-157:** Q-BILL-A-009 = A. Authorized surviving compulsory claims subject to Government Claim Degradation continue until the applicable rate or amount reaches **ZERO**. ZERO is the general terminal destination. Once at zero, the claim is no longer enforceable as a compulsory monetary demand.

47. **CWC-CE-157:** No automatic permanent non-zero floor. Historical revenue, rates, fees, budgets, spending, convenience, expectations, or governmental preference are not authority to stop degradation above zero.

48. **CWC-CE-157:** ZERO means ZERO. Government shall not automatically freeze immediately above zero, create a minimum permanent rate or fee, rename or transfer the residual, or restart the claim under a different label. Replacement compulsory claims require independent Bill A authority.

49. **CWC-CE-157:** Personal sinking funds and governmental sinking funds are a Future-State design objective connected to Zero Terminal. They remain conceptually distinct. This is **not** a finding of financial

sufficiency, guaranteed returns, or solved transition funding.

50. **CWC-CE-157:** Property rights precede government pooling. Signal must precede claim. GCD and governmental sinking funds shall not silently convert taxpayer property into permanent government ownership.

51. **CWC-CE-158 (historical ALL-OUT context; later hold):** Q-BILL-A-010 = A. Authorized ALL-OUT personal and business income/payroll follow the general 0.25-percentage-point / three-month GCD path to Zero Terminal **if ALL-OUT is later released**. ALL-OUT ≠ permanent legacy tax system. ALL-OUT income/payroll ≠ permanent tax floor. Q-BILL-A-011 = C holds ALL-OUT.

52. **CWC-CE-158:** Human-Intent Definition of LOU-004 is recorded as sufficiently complete for final LOU reconciliation (Outcome A). That recording is **not** HG-D1 and **not** Human acceptance.

53. **CWC-CE-159 (historical):** LOU-004 Draft 1.10 was designated a **Final Human-Review Candidate**. That designation is **not** Human acceptance, **not** HG-D1, **not** a SPEC, and **not** a maturity change. Subsequent Human Intent (Q-011–015) required this Draft 1.11 public-review reconciliation.

54. **CWC-CE-166:** Q-BILL-A-011 = C. ALL-OUT = deferred candidate + explicit hold + not retired + not active. ALL-IN = primary active candidate, not Human-accepted.

55. **CWC-CE-165/170:** Kansas Lottery is a major Bill A component and a candidate voluntary-tax / Phase-One proving-ground architecture. Not a current-law classification finding. Lottery purchase is not thereby a Kansas FairTax taxable event.

56. **CWC-CE-165:** Current planning Rule-of-72 partition = 4% of post-prize revenue. Gross-sales $0.05 model is SUPERSEDED. Partition ≠ NBBF clawback. Ownership/custody/instrument unresolved.

57. **CWC-CE-167:** Q-BILL-A-012 = A. Remaining available governmental lottery cash is intended primarily for property-tax abatement / retirement, subject to protected obligations. Not an appropriation.

58. **CWC-CE-168:** Q-BILL-A-013 = B. 90/10 applies after prizes + Rule-of-72 partition + evidenced unavoidable direct economic costs. Current cost ≠ future cost entitlement. Engineering target ≠ permission

to ignore real cost.

59. **CWC-CE-169:** Q-BILL-A-014 = A. 90 side = available governmental cash. Cash received ≠ cash available. Telemetry ≠ cash. NBBF performance ≠ cash. Projected savings ≠ realized cash. Debt proceeds ≠ free revenue.

60. **CWC-CE-170:** Q-BILL-A-015 = A. 10 side = ceiling / not spending entitlement. Do not spend merely to reach 10%. 90/10 feasibility is not certified.

61. **CWC-CE-171:** Draft 1.11 was a Public Review Draft candidate. Public review ≠ Human acceptance ≠ HG-D1 ≠ SPEC. Unresolved matters remain visible.

62. **CWC-CE-174 / Q-BILL-A-016 = C:** Bill A establishes a lawful continuous-improvement architecture inside durable guardrails. It does not claim to be the final output of that architecture. Future State is a continuously improving operating condition within those guardrails.

63. **CWC-CE-174:** I-01 through I-06 are durable until separately reopened. GCD numerical rates, four-month NBBF cadence, Lottery numerical parameters, 5%/5% ceilings, and 5/7-year maxima remain recorded initial values and are not CLASS I.

64. **CWC-CE-174:** PDCA identifies, measures, tests, and recommends. PDCA does not create taxing authority, rewrite taxation, expand compulsory claims, or bypass Human / legislative / constitutional gates. Evidence ≠ authority.

65. **CWC-CE-174:** Engineering target + contrary controlled evidence → conflict signal → do not falsely certify. Evidence shall not be manipulated to protect an engineering target.

Prior LOU-001 candidate statements are **not** imported as agreed understanding.

---

8. Rejected / Non-Adopted Interpretations

The following are **not adopted** for this LOU. Historical retention does not equal current adoption.

1. That LOU-001 Draft 0.2 inverted Bill A/B labels (Bill A = elimination-only) remain the working identity for Bill A. Draft 0.3 /

CWC-CE-085 / STD-011 public pins supersede that **label**. HG-D1 remains unpassed.

2. That this LOU is HG-D1 accepted, a production SPEC, legislation, proposed statute, or Human-accepted LOU. Public Review Draft status does not convert this document into any of those.

3. That AI synthesis (including the Grok scout) is primary legal or fiscal authority.

4. That CWC-CE-121 silently supersedes LOU-001 or merges Bill B into Bill A.

5. That questionnaire progress equals maturity advancement.

6. That current tax revenue equals required replacement revenue.

7. That existing programs, appropriations, agencies, contracts, or historical spending patterns automatically establish permanent taxpayer claims merely because they currently exist.

8. That creating another collection mechanism, legal entity, withholding point, or tax name creates another ultimate source of taxation.

9. That tax rates should be treated as permanent or naturally constant entitlements.

10. That taxpayers are the automatic backstop for bad planning, poor performance, failure to save, failure to maintain assets, failure to prepare for predictable obligations, or ineffective operations.

10a. That ALL-OUT remains an active coequal Bill A path after Q-BILL-A-011 = C. 10b. That 10% controllable administration is a spending entitlement, budget floor, or required expenditure. 10c. That 90% is a guaranteed Lottery result, a finding about current Kansas Lottery economics, or 90% of gross ticket sales. 10d. That the superseded gross-ticket Rule-of-72 model ($0.05 per $1 of gross sales) remains current Human Intent. 10e. That telemetry, NBBF performance, projected savings, Rule-of-72 partition dollars, or debt proceeds may be counted as 90-side cash. 10f. That current Lottery statutory destinations are automatic Future-State entitlements or automatically available cash. 10g. That missing Round 2 Lottery research may be reconstructed from summaries or memory. 10h. That publication for comment validates Bill A or passes HG-D1.

11. That the first engineering response to poor governmental performance is to raise more revenue.

12. That government may establish an ambiguous revenue claim first and explain or broaden authority afterward.

13. That accountability without consequences (reporting only) satisfies Bill A's node-accountability objective.

14. That Q-BILL-A-001 accepted any specific node-failure legal consequence. The Human Engineer stated none is accepted at this Definition stage.

15. That Q-BILL-A-001 established current Kansas constitutional or statutory law, tax incidence, rates, or replacement-revenue quantity.

16. That Q-BILL-A-002 completed the Kansas tax-class inventory or disposed every existing Kansas revenue claim. Architecture was recorded; inventory remains open.

17. That an existing Kansas tax, fee, levy, assessment, surcharge, or excise survives Bill A merely because it currently exists.

18. That AI summary of H.R. 25 is primary evidence for the Kansas FairTax mirror.

19. That Q-BILL-A-002 set a Kansas FairTax rate, adopted the federal prebate, or disposed unused excise-balance mechanisms.

20. That business-purpose FairTax treatment exempts a surviving (or motor-fuel example) excise tax.

21. That silence concerning an unidentified, unaudited, or unanswered Kansas revenue class authorizes that class to survive Bill A.

22. That CWC-CE-123 completed the statewide Kansas excise audit or invented RETAIN / TRANSFORM / DISAPPEAR dispositions. Q-BILL-A-003 is recorded; the audit is **not** executed.

23. That motor fuel is a unique structural privilege, a unique exception class, or a Human RETAIN decision. Motor fuel is the example of the uniform surviving-excise standard only.

24. That existing Kansas law automatically preserves any audited claim (no automatic grandfathering).

25. That selecting individual Kansas excise taxes for special treatment is authorized at this stage.

26. That AI synthesis is evidence of current Kansas law, rates, collections, statutory purposes, fund destinations, or obligations.

27. That the 2026-09-01 narrow Q-BILL-A-004 (excise-type classes (a)–(g)) remains the complete audit-scope question.

28. That listing a class on the KLRS search surface is a finding that the class presently exists, is a tax, or will be RETAINED.

29. That current Kansas revenue authority equals post-Bill-A Kansas Legal Revenue Scope.

30. That recording criminal-enforcement intent creates a criminal offense, mental-state element, penalty, or prosecutorial scheme.

31. That this draft populated either the current-state inventory or the final KLRS.

32. That receipt of money by government is itself authority to compel payment from a Kansan.

33. That Q-BILL-A-005 Option (a) converts non-compulsory receipts into KLRS claims or RETAINs any current claim.

34. That criminal-enforcement intent applies to government merely receiving non-compulsory funds.

35. That county ALL-IN / ALL-OUT is a general Bill A opt-in / opt-out of statewide taxpayer-control architecture.

36. That ALL-OUT escapes statewide API access, Taxpayer Supremacy, transparency, accountability, Runtime Republic architecture, or other statewide taxpayer-control architecture.

37. That API access, Taxpayer Supremacy, transparency, accountability, or Runtime Republic architecture is county-optional.

38. That CWC-CE-139 remains the controlling ALL-IN / ALL-OUT meaning after CWC-CE-142.

39. That CWC-CE-139 or CWC-CE-142 calculated a Kansas FairTax rate, replacement revenue, or future distribution formula, or authorized independent county consumption-tax systems.

40. That CWC-CE-139 marked any Domain 01–04 Human disposition.

41. That ALL-OUT means retain property tax, or that a county may permanently remain under the existing system including property taxation.

42. That ALL-IN means property-tax elimination (elimination is statewide and occurs under both paths).

43. That CWC-CE-142 invented phaseout percentages, baselines, mill formulas, election statutes, or decided city/school/special-district binding.

44. That CWC-CE-142 established present Kansas legal authorization for the architecture.

45. That ALL-OUT infers RETAIN of any Domain 01–06 claim other than the Human statement that property taxation is permanently removed.

46. That a 5-year or 7-year schedule is a governmental entitlement to collect property tax for the full period.

47. That CWC-CE-146 set STATE RATE = 5%, LOCAL RATE = 5%, or a guaranteed 10% tax.

48. That county government owns the provisional local 5% envelope.

49. That Unified School Districts are preassigned the lion's share of local replacement revenue.

50. That historical collections equal future entitlement, or that current revenue equals required replacement revenue.

51. That senior Year-1 priority is a freeze, valuation cap, deferral, rebate, partial exemption, or permanent separate property-tax class, or that younger owners are assigned seniors' former property tax.

52. That Sedgwick County is the statewide default, statewide rate, or automatic template result.

53. That CWC-CE-146 calculated a FairTax rate, replacement revenue, distribution, senior savings, or executed a Sedgwick fiscal audit.

54. That CWC-CE-146 superseded the CWC-CE-142 four-rule architecture.

55. That CWC-CE-146 Human concurrence accepts LOU-004 or passes HG-D1.

56. That CWC-CE-148 designed the Future State, calculated a Bill A rate, ARR, sufficiency, no-double-dip formula, senior savings, or USD/county/city Future-State allocation.

57. That Human-supplied Sedgwick sales/use leads are automatically VERIFIED, or that `$824.3M` / `$145M` / `$121M+` are Bill A revenue targets or local requirements.

58. That current Kansas 6.5% state sales/use tax is the Bill A FairTax-style Future State, or that 6.5% compared with the provisional 5% ceiling proves savings, sufficiency, shortage, or required tax-base expansion.

59. That CWC-CE-148 closed UQ-TR-001–012 or UQ-CTS-001–016, changed Domain 01–06 counts or dispositions, certified the Universe/KLRS, executed Domain 07 statewide, created CWC-CE-149, or advanced maturity.

60. That County ACFR sales-tax receipts equal the countywide 1% pool, or that the unresolved `$121M+` versus `~$145M` difference was forced into reconciliation.

61. That an aggregated “Sedgwick government costs $X” total was established.

62. That Q-BILL-A-006 “current spending requirements” permanently authorizes all current spending, or silently repeals CURRENT SPENDING ≠ AUTHORIZED FUTURE SPENDING.

63. That ALL-OUT receives a Bill A replacement-revenue guarantee, may preserve property tax, or escapes statewide taxpayer-control architecture.

64. That a spike in ALL-IN revenue beyond projections becomes new spending authority, or that a permanent surplus-distribution rule after property tax = zero was decided.

65. That senior or disabled eligibility criteria, disability definition, income thresholds, or internal subclass order were determined.

66. That CWC-CE-153 calculated ARR, TRR, a rate, sufficiency, or established TRR as canonical terminology.

67. **(CWC-CE-154 historical; first clause SUPERSEDED as a current rejection.)** That Q-BILL-A-008 was answered **in CWC-CE-154**, or that Layer 1 = Layer 2 = Layer 3. Q-BILL-A-008 **was later answered in CWC-CE-156 as B**. Layer 1 ≠ Layer 2 ≠ Layer 3 remains rejected.

68. That Q-BILL-A-007 authorized TRR protection for all current spending, all lawful spending, all budgets, or all existing programs/entities/claims.

69. That TRR equals ARR, or that TRR automatically becomes ARR.

70. That new spending may be added to TRR without NBBF.

71. That CWC-CE-154 calculated TRR or ARR, invented a Kansas NBBF admission SPEC, or answered Q-BILL-A-008.

72. That CWC-CE-155 answered Q-BILL-A-008.

73. That ALL-OUT preserves state income/payroll tax, revives eliminated claims, or escapes statewide property-tax elimination or taxpayer-control architecture.

74. That ALL-OUT automatically retains every current local claim, or that “legacy minus property tax” remains a complete ALL-OUT revenue description after CWC-CE-155.

75. That temporary presence or TDY alone creates ALL-OUT county income/payroll jurisdiction.

76. That degradation authorizes a claim, or that renaming a tax as a fee/assessment/surcharge/license removes the degradation requirement when the substance remains a compulsory claim.

77. That 0.25 percentage points every three months means a 25% quarterly reduction, a 0.25% proportional reduction, or compounding.

78. That fixed-dollar 1% degrades from the declining balance rather than from the original starting amount.

79. That the jury-decision exception automatically includes administrative penalties, non-jury judgments, settlements, consent decrees, or fines without a jury decision.

80. That CWC-CE-155 assigned Domain 01–06 Field 25 dispositions, calculated TRR/ARR/rates, or applied 5%/5% ceilings as ALL-OUT income/payroll caps.

81. That “current spending requirements” means all current spending is TRR-protected after Q-BILL-A-008.

82. That budget inclusion, appropriation, program existence, staffing, entity existence, historical spending, or pre-existing status automatically establishes TRR eligibility.

83. That a new contract, debt, obligation, or other instrument created during transition automatically enters TRR because it becomes legally enforceable after creation.

84. That research-candidate classes (constitutional obligations, bonded debt, contracts, judgments, settlements, pensions, grants, or others listed in UQ-TR-016) are Human-approved TRR classes.

85. That Q-BILL-A-008 extends TRR as an ALL-OUT replacement-revenue guarantee, classifies qualifying instrument classes, calculates TRR/ARR, or assigns Field 25.

86. That a Government Claim Degradation jury-decision exception automatically makes a judgment TRR-qualified.

87. That Q-BILL-A-009 creates an automatic permanent non-zero floor, freeze immediately above zero, minimum permanent rate or fee, residual rename, residual transfer, or restarted claim under a different label.

88. That the Human statement that running government on perpetual interest “is possible” is a finding of financial sufficiency, guaranteed returns, protected principal, solved transition funding, solved market or inflation risk, solved fiduciary architecture, or established constitutional investment authority.

89. That personal sinking funds and governmental sinking funds are legally interchangeable, merged, or that this CWC resolved ownership, custody, investment, beneficiary, withdrawal, allocation, transfer, clawback, inheritance, or access rights.

90. That Zero Terminal assigns Revenue Universe Field 25, classifies UQ-TR-016, calculates TRR/ARR/rates/fund balances, or designs Sedgwick Future State.

91. That CWC-CE-157 answered Q-BILL-A-010, applied GCD to ALL-OUT income/payroll, or carved ALL-OUT income/payroll out of GCD.

92. That recording Q-BILL-A-009 constitutes Human acceptance of LOU-004.

93. That ALL-OUT income/payroll is a permanent compulsory-tax floor, a permanent legacy tax system, or an exemption from Government Claim Degradation / Zero Terminal.

94. That Q-BILL-A-010 assigns Field 25, invents nexus definitions, applies 5%/5% ceilings as ALL-OUT caps, or calculates county rates.

95. That LOU Completion Readiness Outcome A is HG-D1, Human acceptance of LOU-004, a SPEC, or a change in Bill A maturity.

96. That CWC-CE-158 asked or answered Q-BILL-A-011.

97. That CWC-CE-159 Human-review-candidate designation is Human acceptance, HG-D1 passage, a SPEC, a maturity change, or automatic HG-D1.

98. That remaining CLASS R / S / L items are resolved Human Intent.

99. That UQ-CTS-017 residual nexus definitions are CLASS H, or that this CWC invented residence, domicile, originate, TDY, remote-work, or nexus definitions.

100. That one bill creates a final perfect tax system, or that Future State is a permanently frozen tax architecture.

101. That GCD numerical rates, four-month NBBF cadence, 5%/5% planning ceilings, 5/7-year maxima, or Lottery 4% / 90/10 / 50/50 values are CLASS I merely because they appear in Draft 1.11 / 1.12.

102. That PDCA itself authorizes tax changes, new compulsory claims, claim increases, taxable-event expansion, new debt, Human-gate bypass, legislative bypass, or constitutional bypass.

103. That administrators may alter compulsory claims without the applicable lawful change authority.

104. That ARR is a permanent spending or revenue entitlement.

105. That Q-BILL-A-016 = A or B was selected, or that a blend of A/B/C was substituted.

106. That PDCA CLASS HYP is the same class as historical §2.0.10 CLASS H or as HG-D1.

107. That this draft changed any currently recorded numerical Human-Intent value.

108. That the White Paper was rewritten in CWC-CE-174, or that the CWC-CE-172 Draft 1.11 White Paper remains a current public-review match for this Draft 1.12 LOU.

---

9. Conflicting Sources

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **ID:** CF-BILL-A-001
- **Conflict:** LOU-001 Draft 0.2 inverted Bill A/B labels vs Draft 0.3 / STD-011 public pins
- **Status:** Label correction recorded in LOU-001 Draft 0.3; **LOU-001 still NOT ACCEPTED**

Table row 2

- **ID:** CF-BILL-A-002
- **Conflict:** OPTION-3 retains LOU-001 as shared A/B master and does not split normative LOUs; CWC-CE-121 authorizes a Bill A–only Definition workspace
- **Status: Unresolved** — working separation; LOU-001 unmodified; this LOU does not claim supersession

Table row 3

- **ID:** CF-BILL-A-003
- **Conflict:** LOU-001 / PRC-BILL-A candidate problem statement (property-tax elimination plus replacement architecture) vs LOU-004 Q-BILL-A-001 Human Intent (property-before-pooling, signal-before-claim, one ultimate source, stewardship, spending audit, node accountability)
- **Status: Unresolved** — Q-BILL-A-001 recorded as Human Intent for LOU-004; LOU-001 candidate problem **not imported** and **not superseded**

Table row 4

- **ID:** CF-BILL-A-004
- **Conflict:** Informational NOTE-PKG-KS-TAX-001 originally labeled Bill 1 = comprehensive replacement; LOU-001 Draft 0.2 reversed labels; Draft 0.3 restored public-pin alignment
- **Status:** Historical; identity now aligned to public pins; substance of replacement architecture **not accepted**

Table row 5

- **ID:** CF-BILL-A-005
- **Conflict:** H.R. 25 federal rate, family consumption allowance (prebate), federal administration machinery, and Sixteenth Amendment sunset vs Kansas-only FairTax mirror
- **Status: Unresolved** — Human Intent adopts economic architecture mirror; federal-only mechanisms require ADAPT / OUT-OF-SCOPE / HUMAN DECISION — not silently imported

Table row 6

- **ID:** CF-BILL-A-006
- **Conflict:** H.R. 25 business-purpose non-taxation vs uniform surviving-excise rule applying to business purchases (motor fuel as example of the rule, not a RETAIN)
- **Status: Recorded tension** — Human expressly prioritizes surviving-excise non-exemption for business purchases (WD-BILL-A-008 §8; WD-BILL-A-012 §3 G); not a silent override of other H.R. 25 business rules; **not** a motor-fuel RETAIN

Table row 7

- **ID:** CF-BILL-A-007
- **Conflict:** IH internal cross-reference for gaming sponsor (§701(a) index language vs §702 gaming body text)
- **Status: VERIFY against IH PDF** before Kansas drafting

Table row 8

- **ID:** CF-BILL-A-008
- **Conflict:** Human-authorized surviving-excise restricted pools vs unknown Kansas constitutional/statutory/contractual/bond dedications, existing balances, and debt supported by sources proposed for elimination
- **Status: Unresolved** — UNK-EX-001–004 in WD-BILL-A-010; audit questions 8–10 and 12–14 in WD-BILL-A-012; do not invent

Table row 9

- **ID:** CF-BILL-A-009
- **Conflict:** CWC-CE-123 / WD-BILL-A-010 “PRESENT HUMAN CANDIDATE” motor-fuel retention framing vs Q-BILL-A-003 audit-first /

uniform-standard / no individual RETAIN

• **Status: Recorded supersession** — candidate-retention framing superseded by WD-BILL-A-012; WD-BILL-A-010 retained as history

Table row 10

• **ID:** CF-BILL-A-010

• **Conflict:** Narrow Q-BILL-A-004 (excise-type classes (a)–(g)) vs comprehensive Q-BILL-A-004 (Kansas Legal Revenue Scope)

• **Status: Recorded supersession** — narrow question historically retained; WD-BILL-A-015 governs; WD-BILL-A-013 remains subordinate Domain EXCISE

Table row 11

• **ID:** CF-BILL-A-011

• **Conflict:** Government Revenue Universe (all material receipts) vs Kansas Legal Revenue Scope (compulsory demand-authority only)

• **Status: Recorded distinction** — Q-BILL-A-005 Option (a); not a current-law finding

Table row 12

• **ID:** CF-BILL-A-012

• **Conflict:** LOU-001 Draft 0.3 statewide five-year property-tax elimination (NOT ACCEPTED / NOT TRANSFERRED) vs CWC-CE-142 statewide mandatory PT elimination with county 5- **or** 7-year schedule

• **Status: Partially superseded as to optional county PT participation.** LOU-001 remains **not accepted**. Domain G (Bill A/B allocation) **not closed**. Schedule **mechanics** OPEN.

Table row 13

• **ID:** CF-BILL-A-013

• **Conflict:** Q-BILL-A-006 “current spending requirements” vs Q-BILL-A-001 CURRENT SPENDING ≠ AUTHORIZED FUTURE SPENDING

• **Status: Narrowed / partially resolved at architecture level (CWC-CE-154 / CWC-CE-156).** Layer 2 = TRR = presently enforceable qualifying legal obligations (Q-BILL-A-008 = B), not Layer

1 totals. Layer 3 = ARR. Historical Human quote preserved; it does **not** mean all current spending is TRR-protected. Qualifying **classes** remain UQ-TR-016.

Table row 14

- **ID:** CF-BILL-A-014
- **Conflict:** H.R. 25 existence-not-event / state conversion vs ALL-OUT county income/payroll
- **Status: Recorded authorized path split (CWC-CE-155).** State + ALL-IN remain H.R. 25-style. ALL-OUT income/payroll is an express county-path deviation with nexus bounds. Not a silent statewide repeal of existence-not-event.

Table row 15

- **ID:** CF-BILL-A-015
- **Conflict:** Provisional 5%/5% H.R. 25-style ceilings vs ALL-OUT county-set initial rates
- **Status: Unresolved (CWC-CE-155).** Ceilings remain attached to the H.R. 25-style architecture and are **not** silently applied as ALL-OUT income/payroll caps.

Table row 16

- **ID:** CF-BILL-A-016
- **Conflict:** CWC-CE-142 “ALL-OUT = legacy minus PT” vs CWC-CE-155 ALL-OUT revenue architecture
- **Status: CWC-CE-155 refines ALL-OUT revenue description.** CWC-CE-142 four rules preserved. “Legacy minus PT” is incomplete as a complete ALL-OUT revenue statement. ALL-OUT may establish county income/payroll (not merely retain existing local claims).

Table row 17

- **ID:** CF-BILL-A-017
- **Conflict:** CWC-CE-155 GCD jury-decision exception vs TRR research-candidate “judgments”
- **Status: Recorded firewall (CWC-CE-156).** GCD exception ≠ TRR admission. Judgments remain a research candidate under UQ-TR-016, not a Human-approved TRR class.

Table row 18

- **ID:** CF-BILL-A-018
- **Conflict:** Human quote that running government on perpetual interest “is possible” vs unproven sinking-fund sufficiency
- **Status: Recorded firewall (CWC-CE-157).** Future-State objective recorded. Sufficiency **not found**. Personal ≠ governmental sinking funds. Do not treat the quote as a fiscal fact.

AI shall not silently choose winners.

---

10. Open Questions

10.1 Q-BILL-A-001 — RECORDED

Status: RECORDED as HUMAN INTENT / WORKING DEFINITION (2026-08-31). Not HG-D1 accepted.

Source: WD-BILL-A-007 / SRC-BILL-A-012.

10.2 Q-BILL-A-002 — RECORDED (architecture); inventory OPEN

Status: RECORDED as HUMAN INTENT / WORKING DEFINITION for **governing classification architecture** (2026-09-01). Kansas revenue-claim inventory and class-level REMAIN/TRANSFORM/DISAPPEAR dispositions are **NOT COMPLETE**. Not HG-D1 accepted.

Source: WD-BILL-A-008 / SRC-BILL-A-013. Evidence/crosswalk: WD-BILL-A-009 / SRC-BILL-A-014–015.

Exact question (as asked): Given that Bill A treats people with money as the only ultimate tax source and treats collection mechanisms as not creating additional sources: which existing Kansas tax classes, fees, assessments, levies, surcharges, and similar revenue claims are intended ultimately to remain as distinct claims, to be transformed into a different collection or transmission mechanism, or to disappear — and what must be true for you to consider that end-state inventory structurally complete?

Human answer (summary): Establish H.R. 25 FairTax economic architecture as the Kansas mirror default; expressly identify Kansas deviations (retained excises + purpose control; motor fuel example); then inventory and classify existing Kansas revenue claims against that architecture without inventing the inventory. Structural completeness requires primary-source H.R. 25 trace, non-silent adaptations, express deviations, evidenced inventory, and Human classification

of each claim. Full text: WD-BILL-A-008.

10.3 Q-BILL-A-003 — RECORDED (audit required; dispositions deferred)

Status: RECORDED as HUMAN INTENT / WORKING DEFINITION (2026-09-01). Statewide excise audit **NOT EXECUTED**. Class-level RETAIN / TRANSFORM / DISAPPEAR **NOT INVENTED**. Not HG-D1 accepted.

Source: WD-BILL-A-012 / SRC-BILL-A-017. Audit requirement: WD-BILL-A-013 / SRC-BILL-A-018. Historical cycle (asked, not answered): WD-BILL-A-010 / SRC-BILL-A-016.

Exact question (as asked in CWC-CE-123): Beyond motor fuel as the current Human-defined example, which existing Kansas excise taxes or other non-FairTax revenue claims, if any, do you presently intend Bill A to retain as expressly authorized Kansas deviations from the H.R. 25 FairTax mirror — and for each retained claim, what is the expressly declared bounded purpose that must restrict 100% of the pool to direct purpose execution, with no government administrative or overhead charge against the pool?

Human answer (summary): Do not select individual Kansas excise taxes for special treatment at this stage. All existing Kansas excise taxes and materially equivalent excise-type claims require an evidenced audit. All excises ultimately retained shall be treated under one uniform structural standard. Motor fuel is the current example of that standard, not a unique exception class. Final RETAIN / TRANSFORM / DISAPPEAR decisions are deferred until the audit provides the evidence necessary for Human decision. Do not invent those dispositions. Silence / unidentified / unaudited claims are not authorized to survive. Full text: WD-BILL-A-012.

Exception control model remains HUMAN-ACCEPTANCE REQUIRED (WD-BILL-A-010), with motor-fuel **candidate-retention framing superseded**.

10.4 Open questions reserved by the Human Engineer in Q-BILL-A-001

These remain OPEN / EVIDENCE REQUIRED. They are not closed by intent:

1. Legal feasibility and constitutional consequences of continuing taxpayer ownership after payment. `[LEGAL EFFECT UNKNOWN]`
2. Precise constitutional boundaries of state and local spending. `[CITATION/TEXT NEEDED]`

3. Legal or economic incidence of existing taxes. [TO BE VERIFIED]

4. Legality of any proposed taxable event. (Working constraint: H.R. 25 final-consumption architecture; Kansas legal fit still [LEGAL EFFECT UNKNOWN].)

5. Appropriate tax rate(s). (**Not set** by Q-BILL-A-002.)

6. Amount of replacement revenue required. [REVENUE EFFECT UNKNOWN]

7. Definition of a governmental node; measurement standard; failure threshold; corrective process.

8. Legal consequence of node failure. No specific consequence is accepted at this stage.

9. Final Bill A architecture.

10.5 Open questions opened or confirmed by Q-BILL-A-002

1. Full H.R. 25 provision-by-provision mirror trace (WD-BILL-A-009 incomplete).

2. Kansas administration adaptations that preserve H.R. 25 economic standards.

3. Kansas FairTax rate.

4. Family consumption allowance / prebate — ADOPT / ADAPT / REJECT / DEFER.

5. Complete Kansas revenue-claim inventory from PRIMARY-LEGAL / GOV-DATA.

6. Class-level REMAIN / TRANSFORM / DISAPPEAR / REQUIRES HUMAN DECISION / EVIDENCE INSUFFICIENT dispositions.

7. Complete evidenced audit of Kansas excise / materially equivalent excise-type claims (WD-BILL-A-013) — **required; not executed**.

8. Unused excise balances, sinking funds, rate reductions, refunds, credits, and related disposition mechanisms.

9. Testable boundary: DIRECT PURPOSE EXECUTION vs GOVERNMENT ADMINISTRATION / OVERHEAD — **not yet engineered**.

10. Gaming sponsor IH cross-reference verification (§701(a) vs §702).

11. Contractor vs direct-purpose work; administration funding source outside the excise pool.

12. Complete Kansas revenue inventory and class dispositions (still OPEN).

13. Scope of “materially equivalent excise-type claims” — **narrow Q-BILL-A-004 SUPERSEDED**; remains live inside Domain EXCISE (WD-BILL-A-013).

14. Complete current-state Kansas revenue inventory (state and local) — WD-BILL-A-016; **not executed**.

15. Post-Bill-A Kansas Legal Revenue Scope membership — **EMPTY** until Human disposition after evidence.

16. Compulsory vs other governmental receipts in the **final** closed KLRS — **RECORDED Option (a)**; per-row mixed/uncertain classification still OPEN.

17. Completeness-certification methodology — defined as candidate protocol (WD-BILL-A-020); **not certified**.

18. Criminal-law elements reserved in WD-BILL-A-015 §13.

10.6 Subsequent questionnaire domains (not yet asked)

Domains C–Q remain unasked as closed domains. Intent spill now also constrains Domain E (state/local entities in the KLRS audit), Domain F / Domain G (county property-tax ALL-IN / ALL-OUT transition architecture — CWC-CE-139; domains **not** closed), Domain M (transparency / API association where Q-BILL-A-001 already supports it), and Domain N (criminal-enforcement intent reserved, not legislated). Intent spill does not close a domain. See WD-BILL-A-002.

10.7 Q-BILL-A-004 — RECORDED (narrow framing SUPERSEDED; KLRS recorded)

Status: RECORDED as HUMAN INTENT / WORKING DEFINITION (2026-09-02). Comprehensive KLRS audit **NOT EXECUTED**. Class-level RETAIN / TRANSFORM / DISAPPEAR **NOT INVENTED**. Criminal-enforcement intent recorded as intent only. Not HG-D1 accepted.

Historical asked question (2026-09-01; SUPERSEDED as the complete Q-004): WD-BILL-A-002 v0.5.0 — materially equivalent excise-type classes (a)–(g). Retained as history. Not erased.

Human clarification (summary): Original practical question (excise beyond motor fuel) remains required and unanswered by evidence. Complete objective is the entire Kansas governmental revenue system after Bill A. Establish Kansas Legal Revenue Scope as the closed post-Bill-A universe. Audit by function not label; state and local; current-state inventory ≠ final KLRS; Q-003 excise domain preserved and subordinated; closed authority; no authority by silence; criminal-enforcement intent reserved. Full text: WD-BILL-A-015. Architecture: WD-BILL-A-016.

10.8 Q-BILL-A-005 — RECORDED (Option (a))

Status: RECORDED as HUMAN INTENT / WORKING DEFINITION (2026-09-02). Option **(a)**. Audit **NOT EXECUTED**. Schema locked as candidate (WD-BILL-A-019 / WD-BILL-A-020). Registers **EMPTY**. Not HG-D1 accepted.

Exact question (historical; not erased): WD-BILL-A-002 v0.6.0 / WD-BILL-A-018 historical asked wording.

Human answer (summary): OPTION (a). Final KLRS = closed set of compulsory governmental revenue claims. Current-state audit still inventories all material receipts. Non-compulsory receipts stay outside closed demand-authority unless later expressly added. Receipt of money ≠ authority to compel payment. Full text: WD-BILL-A-018.

Recommended next controlled work (not self-authorized): Remaining Domain 01 residual gaps (KAR, CRE PDFs if accessible, 75-5182(e), non-KDOR TGT) **or** Human-authorized Domain 02. Do **not** self-authorize Domain 02. See WD-BILL-A-028.

10.9 CWC-CE-127 — Domain 01 evidence execution (status only)

Status: Domain 01 current-state evidence audit **EXECUTED** in working artifacts WD-BILL-A-022 through WD-BILL-A-026. **Not** HG-D1 accepted. **Not** converted into LOU provisions. Human dispositions remain **BLANK**. Motor fuel remains **NOT RETAINED**. Bill A maturity remains **19%**.

Working beyond-gasoline answer (in WD-BILL-A-023, not this LOU): YES — VERIFIED from PRIMARY-LEGAL / GOV-DATA. That answer is current-state existence only. It is **not** a RETAIN of any claim.

10.10 CWC-CE-128 — Domain 01 evidence closure / reconciliation (status only)

Status: Domain 01 evidence closure **EXECUTED** in WD-BILL-A-028 (register updates in WD-BILL-A-022–026). Completeness remains **SUBSTANTIALLY COMPLETE WITH EXPLICIT GAPS**. Count remains **14** verified Domain 01 rows.

Gaming lottery/casino pathways **referred** (not Domain 01 counted rows). **Not** HG-D1 accepted. **Not** converted into LOU provisions. Human dispositions remain **BLANK**. Motor fuel remains **NOT RETAINED**. Bill A maturity remains **19%**. UNK-EX-005 remains **RESERVED**.

No Q-BILL-A-006 is issued.

10.11 CWC-CE-130 — Domain 02 evidence execution (status only)

Status: Domain 02 current-state evidence audit **EXECUTED** in WD-BILL-A-030 through WD-BILL-A-035. **Not** HG-D1 accepted. **Not** converted into LOU provisions. Human dispositions remain **BLANK**. No property-tax elimination design. Bill A maturity remains **19%**.

10.12 CWC-CE-131 — Domain 02 evidence closure / reconciliation (status only)

Status: Domain 02 evidence closure **EXECUTED** in WD-BILL-A-037 (register updates in WD-BILL-A-030–035). Completeness remains **SUBSTANTIALLY COMPLETE WITH EXPLICIT GAPS**. Count is **16** verified Domain 02 claim-category rows (KRU-D02-016 added; KRU-D02-010/011 TY 2026 mill **NOT CURRENT**). **Not** HG-D1 accepted. **Not** converted into LOU provisions. Human dispositions remain **BLANK**. Domain 03 **executed** under CWC-CE-133 (status only below). Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.13 CWC-CE-133 — Domain 03 evidence execution (status only)

Status: Domain 03 current-state income/earnings/privilege evidence audit **EXECUTED** in WD-BILL-A-039 through WD-BILL-A-045. Completeness: **SUBSTANTIALLY COMPLETE WITH EXPLICIT GAPS**. Count is **5** verified Domain 03 claim-category rows. Human dispositions remain **BLANK**. BLANK ≠ RETAIN. No income-tax repeal design. No FairTax rate or replacement-revenue calculation. Domain 04 **not executed**. **Not** HG-D1 accepted. **Not** converted into LOU provisions. Bill A maturity remains **19%**. Closure applied under CWC-CE-134 (status only below).

No Q-BILL-A-006 is issued.

10.14 CWC-CE-134 — Domain 03 evidence closure / reconciliation (status only)

Status: Domain 03 evidence closure **EXECUTED** in WD-BILL-A-046 (register / source / completeness / conflict updates in WD-BILL-A-039–044). Completeness remains **SUBSTANTIALLY COMPLETE WITH EXPLICIT GAPS** (not upgraded). Count remains **5**. Human dispositions remain **BLANK**. BLANK ≠ RETAIN. CF-D03-001/002/003 closed as classified in WD-BILL-A-043. Residual gaps preserved. Domain 04 **executed** under CWC-CE-136 (status only below). **Not** HG-D1 accepted. **Not** converted into LOU provisions. Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.15 CWC-CE-136 — Domain 04 evidence execution (status only)

Status: Domain 04 current-state sales/use/consumption evidence audit **EXECUTED** in WD-BILL-A-048 through WD-BILL-A-054. Completeness: **SUBSTANTIALLY COMPLETE WITH EXPLICIT GAPS**. Count is **5** verified Domain 04 claim-category rows. Human dispositions remain **BLANK**. BLANK ≠ RETAIN. STRUCTURAL MATCH ≠ RETAIN. MATERIAL STRUCTURAL DIFFERENCE ≠ DISAPPEAR. Current Kansas sales/use tax is **not** H.R. 25 and is **not** designated as the Bill A replacement tax. No FairTax rate, replacement-revenue, prebate, or future distribution formula. Domain 05 **not executed**. **Not** HG-D1 accepted. **Not** converted into LOU provisions. Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.16 CWC-CE-137 — Domain 04 evidence closure / reconciliation (status only)

Status: Domain 04 evidence closure **EXECUTED** in WD-BILL-A-055 (register updates in WD-BILL-A-048–054). Completeness remains **SUBSTANTIALLY COMPLETE WITH EXPLICIT GAPS**. Count remains **5**. Human dispositions remain **BLANK**. Domain 05 **not executed**. **Not** HG-D1 accepted. **Not** converted into LOU provisions. Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.17 CWC-CE-139 — County property-tax ALL-IN / ALL-OUT Human Intent Definition (status only)

Status: Human Engineering Intent **RECORDED** in WD-BILL-A-057; architecture boundary / unresolved questions in WD-BILL-A-058. **CWC-CE-142 SUPERSESSION:** the interpretation that ALL-IN / ALL-OUT is a candidate **property-tax transition** participation boundary is **SUPERSEDED as controlling**. Historical recording preserved. Statewide API / Taxpayer

Supremacy / Runtime Republic as non-county-optional **remains valid** and is restated in §2.11. Controlling intent: WD-BILL-A-067 / §2.11. Domain 01–04 dispositions remain **BLANK**. **Not** HG-D1 accepted. **Not** converted into accepted LOU provisions. Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.18 CWC-CE-141 — Domain 05 evidence execution (status only)

Status: Domain 05 current-state fees/licenses/permits/regulatory evidence audit **EXECUTED** in WD-BILL-A-060 through WD-BILL-A-066. Completeness: **SUBSTANTIALLY COMPLETE WITH EXPLICIT GAPS**. Count is **18** verified Domain 05 claim-category rows. Human dispositions remain **BLANK**. BLANK ≠ RETAIN. Domain 05 evidence **not reopened** by CWC-CE-142. Domain 06 was **not executed under CWC-CE-141**; it was later executed under CWC-CE-144. **Not** HG-D1 accepted. **Not** converted into LOU provisions. Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.19 CWC-CE-142 — County tax-system choice / mandatory property-tax elimination intent correction (status only)

Status: Controlling Human Engineering Intent **RECORDED** in WD-BILL-A-067; supersession map WD-BILL-A-068; live questions WD-BILL-A-069. Property-tax elimination is **statewide mandatory**. Each county chooses a **five- or seven-year** schedule. ALL-IN = new system; ALL-OUT = legacy minus property tax. Elimination occurs under **both** paths. API / Taxpayer Supremacy / transparency / accountability / Runtime Republic are statewide / non-optional. Human Intent ≠ current Kansas law. Mechanisms **not invented**. Domain 01–05 dispositions remain **BLANK**. **Not** HG-D1 accepted. **Not** converted into accepted LOU provisions. Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.20 CWC-CE-144 — Domain 06 evidence execution (status only)

Status: Domain 06 current-state assessments evidence audit **EXECUTED** in WD-BILL-A-071 through WD-BILL-A-077. Completeness: **SUBSTANTIALLY COMPLETE WITH EXPLICIT GAPS**. Count is **14** verified Domain 06 claim-category rows (`KRU-D06-001–014`). Human dispositions remain **BLANK**. Field 26 remains **NOT DETERMINED**. BLANK ≠ RETAIN. ASSESSMENT ≠ AUTOMATICALLY RETAIN. Domain 01–05 counts preserved (**14 / 16 / 5 / 5 /**

18). Combined arithmetic **72** is not a retained-claim total. Universe/KLRS **not certified**. County four-rule architecture **unchanged**. Domain 07 **not executed**. **Not** HG-D1 accepted. **Not** converted into LOU provisions. Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.21 CWC-CE-146 — Transition / sufficiency / senior / ceiling / mapping / Sedgwick-reference Human Intent (status only)

Status: Human Engineering Intent **RECORDED** in WD-BILL-A-078; unresolved questions WD-BILL-A-079; conflicts / authority levels WD-BILL-A-080. CWC-CE-142 four-rule architecture **preserved and integrated**, not superseded. 5/7 years = **maximum runway**. No-double-dip **principle** recorded; formula **not** defined. ALL-IN revenue-sufficiency acceleration **principle** recorded; test **not** defined. Senior Year-1 zero **priority** recorded; eligibility **not** determined. Up to 5% state and up to 5% local = **provisional planning ceilings**, not set rates, not guaranteed 10%. Sedgwick County = initial **reference model**; audit **not executed**. Domain 01–06 dispositions remain **BLANK**. **Not** HG-D1 accepted. **Not** converted into accepted LOU provisions. Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.22 CWC-CE-148 — Sedgwick Current-State reference-model evidence mapping (status only)

Status: First Current-State evidence mapping **EXECUTED** in WD-BILL-A-082–091. Supplemental Human sales/use leads investigated in WD-BILL-A-087 (verified / partially verified / evidence required / unresolved as classified there). Future State **NOT DESIGNED**. No Bill A rate, ARR, sufficiency, no-double-dip formula, senior savings, or Future-State allocation calculated. Domain 01–06 dispositions remain **BLANK**. Counts **14 / 16 / 5 / 5 / 18 / 14 = 72** preserved. Universe/KLRS **NOT CERTIFIED**. Domain 07 statewide **NOT EXECUTED**. UQ-TR-001–012 and UQ-CTS-001–016 remain **open**. CWC-CE-149 **NOT CREATED**. **Not** HG-D1 accepted. **Not** converted into accepted LOU provisions. Bill A maturity remains **19%**.

No Q-BILL-A-006 is issued.

10.23 CWC-CE-153 — Q-BILL-A-006 recorded; Q-BILL-A-007 asked (status only)

Status: Q-BILL-A-006 **ANSWERED BY HUMAN ENGINEER**. Source of record WD-BILL-A-099. Subsequent Q-BILL-A-007 recording: §2.18 / §10.24.

10.24 CWC-CE-154 — Q-BILL-A-007 recorded; Q-BILL-A-008 asked (status only)

Status: Q-BILL-A-007 **ANSWERED BY HUMAN ENGINEER**. Source of record WD-BILL-A-101. TRR **established**. ARR **reserved**. TRR ≠ ARR. Legally obligated current spending receives transitional protection in principle. All new spending immediately subject to NBBF. Precise membership **ASKED as Q-BILL-A-008**; **not** answered. TRR/ARR **not calculated**. NBBF admission SPEC **not invented**. Domain 01–06 dispositions remain **BLANK**. Counts **14 / 16 / 5 / 5 / 18 / 14 = 72**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. Future State **NOT DESIGNED**. Overlap map **not created**. **Not** HG-D1 accepted. Bill A maturity remains **19%**.

Cursor shall **not** answer Q-BILL-A-008.

Later status (CWC-CE-156): Q-BILL-A-008 was subsequently **ANSWERED** as B — Enforceable-Instrument Class. See §2.20 / §10.26.

10.25 CWC-CE-155 — ALL-IN / ALL-OUT revenue architecture and Government Claim Degradation recorded (status only)

Status: Human Intent recorded in WD-BILL-A-103. Kansas **state** conversion to H.R. 25-style consumption tax **recorded**. ALL-IN / ALL-OUT revenue architecture **recorded**. Government Claim Degradation **recorded**. Tax-system table added in §2.19. At the close of CWC-CE-155, Q-BILL-A-008 remained **UNANSWERED** and was **re-presented**. Field 25 **BLANK**. Counts **14 / 16 / 5 / 5 / 18 / 14 = 72**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. TRR/ARR **not calculated**. **Not** HG-D1 accepted. Bill A maturity remains **19%**. Draft version **remains 1.10**.

This section is **not** an answer to Q-BILL-A-008. Subsequent answer: §2.20 / CWC-CE-156.

10.26 CWC-CE-156 — Q-BILL-A-008 recorded; Q-BILL-A-009 asked (status only)

Status: Q-BILL-A-008 **ANSWERED BY HUMAN ENGINEER** as **B — ENFORCEABLE-INSTRUMENT CLASS**. Source of record WD-BILL-A-105. TRR membership = presently enforceable qualifying legal obligations; classes **not classified** (UQ-TR-016). New transition instruments → NBBF. Pre-existing ≠ TRR automatically. CURRENT SPENDING ≠ TRR. TRR ≠ ARR. TRR ≠ GCD. ALL-OUT TRR guarantee **not** created. Q-BILL-A-009 **ASKED** (GCD terminal condition); **not** answered. TRR/ARR **not calculated**. Field 25 **BLANK**. Counts **14 / 16 / 5 / 5 / 18 / 14 = 72**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT**

EXECUTED. **Not** HG-D1 accepted. Bill A maturity remains **19%**. Draft version **remains 1.10**.

Cursor shall **not** answer Q-BILL-A-009.

Later status (CWC-CE-157): Q-BILL-A-009 was subsequently **ANSWERED** as A — Zero Terminal. See §2.21 / §10.27.

10.27 CWC-CE-157 — Q-BILL-A-009 recorded; Q-BILL-A-010 asked (status only)

Status: Q-BILL-A-009 **ANSWERED BY HUMAN ENGINEER** as **A — ZERO TERMINAL**. Source of record WD-BILL-A-107. GCD destination = ZERO. No automatic non-zero floor. ZERO means ZERO. Personal and governmental sinking funds recorded as a Future-State **objective**, **not** proven sufficiency. Property-right / stewardship firewall preserved. UQ-GCD-001 answered in principle. UQ-SF-001 opened (not answered). Q-BILL-A-010 **ASKED** (ALL-OUT income/payroll GCD application); **not** answered. TRR/ARR **not calculated**. Sinking-fund balances **not calculated**. Field 25 **BLANK**. Counts **14 / 16 / 5 / 5 / 18 / 14 = 72**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. **Not** HG-D1 accepted. Bill A maturity remains **19%**. Draft version **remains 1.10**.

Cursor shall **not** answer Q-BILL-A-010.

Later status (CWC-CE-158): Q-BILL-A-010 was subsequently **ANSWERED** as A — Applies in Full. See §2.22 / §10.28.

10.28 CWC-CE-158 — Q-BILL-A-010 recorded; LOU Completion Readiness Outcome A (status only)

Status: Q-BILL-A-010 **ANSWERED BY HUMAN ENGINEER** as **A — APPLIES IN FULL**. Source of record WD-BILL-A-109. Authorized ALL-OUT personal and business income/payroll follow GCD (–0.25 percentage points / 3 months) to Zero Terminal. ALL-OUT ≠ permanent tax floor. LOU Completion Readiness = **OUTCOME A**. Q-BILL-A-011 was **not asked in CWC-CE-158**. Completion register WD-BILL-A-110. TRR/ARR **not calculated**. Field 25 **BLANK**. Counts **14 / 16 / 5 / 5 / 18 / 14 = 72**. Universe/KLRS **NOT CERTIFIED**. Domain 07 **NOT EXECUTED**. **Not** HG-D1 accepted. Bill A maturity remains **19%**. Draft version then **remained 1.10**.

Later status (CWC-CE-166): Q-BILL-A-011 = **C — EXPLICIT HOLD**. ALL-OUT is not current active architecture. See §2.24 / §10.30.

Later status (CWC-CE-159): Final LOU reconciliation executed. See §2.0 / §2.23 / §10.29.

10.29 CWC-CE-159 — Final LOU reconciliation / Human-review candidate (status only)

Status: CWC-CE-159 **executed**. Source of record WD-BILL-A-112 / 113 / 114. LOU-004 Draft 1.10 designated **FINAL HUMAN-REVIEW CANDIDATE** (historical). **Not** Human-accepted. Consistency Tests 1–18 **PASS** for that cycle. CLASS H = **NONE**. Q-BILL-A-011 was **not asked in CWC-CE-159** and was later asked and answered. Draft 1.10 version was **not** incremented in that cycle.

Later status (CWC-CE-166 through CWC-CE-171): Q-BILL-A-011 = C; Q-012 = A; Q-013 = B; Q-014 = A; Q-015 = A. See §2.24–§2.26 / §10.30. This Draft **1.11** is the public-review reconciliation.

10.30 CWC-CE-165 through CWC-CE-171 — Lottery / ALL-OUT hold / public-review reconciliation (status)

Status: Q-BILL-A-011 through Q-BILL-A-015 **ANSWERED**. Q-BILL-A-016 **NOT ASKED**. Definition question chain **closed for public-review reconciliation**. Class-H public-review blockers = **NONE** as of CWC-CE-170.

ALL-IN = primary active candidate, not Human-accepted. ALL-OUT = explicit hold. Lottery architecture = §2.0.11. 90/10 feasibility = **NOT CERTIFIED**. Round 2 PDF = **NOT FOUND**. Universe/KLRS **NOT CERTIFIED**. Field 25 **BLANK**. Domain 07 **NOT EXECUTED**. Overlap map **not created**. TRR/ARR **not calculated**. Rates **not set**. Maturity remains **19%**. HG-D1 **NOT PASSED**. This Draft 1.11 is **not** Human-accepted and **not** published.

10.31 Public-review unresolved matters (comment particularly requested)

The following remain unresolved and are **not** solved by this draft. Public comment is particularly requested on:

1. Constitutional / legal feasibility of Bill A architecture generally. `[LEGAL EFFECT UNKNOWN]`
2. School finance after property-tax elimination. `[FISCAL ENGINEERING REQUIRED]` / `[LEGAL EFFECT UNKNOWN]`
3. Debt transition. `[IMPLEMENTATION ENGINEERING REQUIRED]` / `[LEGAL EFFECT UNKNOWN]`
4. Consumption-tax architecture / incomplete H.R. 25 crosswalk. `[RESEARCH REQUIRED]`

5. Transition economics and revenue sufficiency. [FISCAL ENGINEERING REQUIRED]

6. Lottery economics and 90/10 feasibility. [RESEARCH REQUIRED] / [FISCAL ENGINEERING REQUIRED]

7. Unavoidable-cost classification, including retailer compensation. [RESEARCH REQUIRED]

8. Rule-of-72 legal structure, ownership, custody, instrument. [IMPLEMENTATION ENGINEERING REQUIRED] / [HUMAN DECISION DEFERRED]

9. Current Lottery beneficiary obligations. [RESEARCH REQUIRED] / [LEGAL EFFECT UNKNOWN] / [HUMAN DECISION DEFERRED]

10. Geographic attribution mechanics; 105-County Fund formula; identified non-Kansas purchaser treatment. [HUMAN DECISION DEFERRED] / [RESEARCH REQUIRED]

11. Taxpayer telemetry / Runtime Republic implementation. [IMPLEMENTATION ENGINEERING REQUIRED]

12. NBBF enforcement mechanics. [IMPLEMENTATION ENGINEERING REQUIRED]

13. Implementation feasibility generally. [IMPLEMENTATION ENGINEERING REQUIRED]

14. Abatement versus retirement ranking. [HUMAN DECISION DEFERRED]

15. ALL-OUT future release or retirement. [EXPLICIT HOLD]

16. Final tax rates / revenue formulas / distributions. [NOT YET AUTHORIZED]

17. Domain 07; Field 25; Universe / KLRS certification. [NOT YET AUTHORIZED]

18. Operative statutory language. [NOT YET AUTHORIZED]

19. PDCA parameter-change delegation matrix (who may adjust CLASS P values). [HUMAN DECISION DEFERRED] / [NOT YET AUTHORIZED]

20. White Paper Draft 1.12 reconciliation against this LOU. [DEFERRED TO LATER CWC]

Do not treat absence of a solution as a hidden decision.

10.32 Q-BILL-A-016 — RECORDED (C — INVARIANTS FIRST)

Status: RECORDED as HUMAN INTENT / WORKING DEFINITION (2026-09-05). Not HG-D1 accepted. Not automatic tax-change authority.

Source: WD-BILL-A-279 (asked) / WD-BILL-A-280 (answered). Controlling synthesis: §2.0.13–§2.0.16.

Exact question: Does the Human Engineer intend that Bill A establish a lawful continuous-improvement architecture inside durable constitutional / normative guardrails — rather than a permanently frozen Future-State tax design created by the original bill?

Human answer: C — INVARIANTS FIRST. Options A and B were not substituted. Full text: WD-BILL-A-280.

---

11. Assumptions

The following are recorded as **working design assumptions stated by the Human Engineer**, not as verified economic or legal facts, and not as Kansas law:

1. For Bill A design, there is only one ultimate source of taxation: people with money. Changes in collector, timing, transaction, account, legal entity, or tax name do not create another ultimate source.
2. H.R. 25 substantive economic architecture is the correct federal model to mirror for Kansas FairTax design (model pin = 119th Cong. IH unless later re-pinned).

No fiscal quantity, Kansas legal rule, Kansas FairTax rate, or replacement-revenue amount is assumed.

---

12. Deferred Items

1. HG-D1 disposition of this LOU.
2. Relationship / supersession decision between LOU-004 and LOU-001 Bill A content.
3. Bill B independent LOU and Domain G (property-tax relationship).
4. Requirements / SPEC (`SPEC-NNN` number TBD).
5. Legislative drafting.

6. Kansas legal-fact verification, including ownership-after-payment and spending authority.

7. Fiscal quantity verification and replacement-revenue modeling.

8. Node definition and failure-consequence engineering.

9. Public-review **publication** (later Human-authorized Git cycle). This Draft 1.12 is a candidate, not a release. Public review ≠ HG-D1. The CWC-CE-172 Draft 1.11 White Paper is **held** pending later reconciliation.

10. Maturity recalculation.

11. Git canonicalization (CE-GitManager; not this agent). **Not authorized** by the 2026-09-01 Q-BILL-A-002 Human reply.

12. Complete H.R. 25 crosswalk completion and Kansas revenue-claim inventory.

13. Disposition of unused excise balances and related mechanisms.

14. Kansas FairTax rate and prebate decisions.

15. Execution of the Kansas excise / excise-type audit (WD-BILL-A-013) — Domain 01 **executed** (CWC-CE-127) and **closure applied** (CWC-CE-128); dispositions **BLANK**; not LOU-accepted.

16. DIRECT PURPOSE EXECUTION versus ADMINISTRATION / OVERHEAD engineering test.

17. Historical narrow Q-BILL-A-004 (a)–(g) — **SUPERSEDED** as complete question; live only inside Domain EXCISE.

18. Execution of the comprehensive Kansas Government Revenue Universe / KLRS audit — **not performed**.

19. Master-register schema / completeness method — **candidate locked** (WD-BILL-A-019 / WD-BILL-A-020); Domain 01 instance in WD-BILL-A-022; Domain 02 instance in WD-BILL-A-031; Domain 03 instance in WD-BILL-A-040; Domain 04 instance in WD-BILL-A-049; statewide register **not** complete; not HG-D1 accepted.

20. Domain 02 PROPERTY TAX evidence execution — **executed** (CWC-CE-130) and **closure applied** (CWC-CE-131); dispositions **BLANK**; not LOU-accepted. Residual Domain 02 gaps remain.

20a. Domain 03 INCOME / EARNINGS / PRIVILEGE evidence execution — **executed** (CWC-CE-133) and **closure applied** (CWC-CE-134); dispositions **BLANK**; not LOU-accepted. Residual Domain 03 gaps remain. 20b. Domain 04 SALES / USE / CONSUMPTION evidence execution — **executed** (CWC-CE-136) and **closure applied** (CWC-CE-137); dispositions **BLANK**; not LOU-accepted. Residual Domain 04 gaps remain. 20c. Domain 05 FEES / LICENSES / PERMITS / REGULATORY REVENUE — **executed** (CWC-CE-141); dispositions **BLANK**; not LOU-accepted. Residual Domain 05 gaps remain. 20d. Domain 06 ASSESSMENTS — **executed** (CWC-CE-144); dispositions **BLANK**; not LOU-accepted. Residual Domain 06 gaps remain. Domain 07 **not executed** and is **not self-authorized**.

21. Criminal-law elements (WD-BILL-A-015 §13) — LEGAL ENGINEERING REQUIRED.

22. Completeness certification — protocol defined; **not certified**.

23. County tax-system choice / PT-elimination **mechanisms** in WD-BILL-A-069 (percentages, baselines, default schedule, election mechanics, city/school/special-district binding, debt, Bill A/B allocation, constitutional research) — **recorded as open; not decided**. Historical UQ-PT list in WD-BILL-A-058 is **not** the controlling question set.

24. CWC-CE-139 PT-transition-participation reading of ALL-IN / ALL-OUT — **SUPERSEDED** as controlling (CWC-CE-142 / WD-BILL-A-067).

25. CWC-CE-146 transition mechanisms (revenue-sufficiency test; AUTHORIZED REVENUE REQUIREMENT; no-double-dip formula; senior eligibility; 5%/5% rate relationship; local envelope allocation; USD share) — **recorded as open; not decided** (WD-BILL-A-079).

26. CWC-CE-148 Sedgwick Future-State mapping, remaining Current-State gaps in WD-BILL-A-090 (including residual CF-SED-001 / 002 / 008 and related inventories), and residual UQ-TR-011 entity-depth — **recorded as open; not decided**. First Current-State mapping **executed**; CWC-CE-150 gap closure **canonicalized** (CWC-CE-151); Future State **not** designed.

27. CWC-CE-152 / CWC-CE-153 Q-BILL-A-006 — **ANSWERED BY HUMAN ENGINEER** (WD-BILL-A-099).

28. CWC-CE-154 Q-BILL-A-007 — **ANSWERED BY HUMAN ENGINEER**; TRR established; ARR reserved (WD-BILL-A-101). Precise legally obligated / new-spending membership was **ASKED as Q-BILL-A-008** and later **ANSWERED in CWC-CE-156 as B**. Kansas/Bill A NBBF admission procedure **not invented** (UQ-NBBF-001 = CLASS S).

29. CWC-CE-155 ALL-IN / ALL-OUT revenue architecture and Government Claim Degradation — **recorded** (WD-BILL-A-103). At close of that CWC, Q-BILL-A-008 remained unanswered (later answered in CWC-CE-156). Nexus / originate / TDY definitions **not invented** (UQ-CTS-017). Zero/terminal later answered in CWC-CE-157. ALL-OUT income/payroll GCD later answered in CWC-CE-158. Fixed-dollar quarterly, compulsory-vs-voluntary, jury-exception statutory boundary, and average-rate mechanics remain later (UQ-GCD-002–005). Field 25 **BLANK**.

30. CWC-CE-156 Q-BILL-A-008 — **ANSWERED BY HUMAN ENGINEER** as B (WD-BILL-A-105). Qualifying TRR instrument **classes** remain research (UQ-TR-016); **not classified**. Q-BILL-A-009 later **ANSWERED** in CWC-CE-157. TRR/ARR **not calculated**.

31. CWC-CE-157 Q-BILL-A-009 — **ANSWERED BY HUMAN ENGINEER** as A Zero Terminal (WD-BILL-A-107). Sinking-fund Future-State objective recorded; sufficiency **not** found (UQ-SF-001). Q-BILL-A-010 later **ANSWERED** in CWC-CE-158.

32. CWC-CE-158 Q-BILL-A-010 — **ANSWERED BY HUMAN ENGINEER** as A Applies in Full (WD-BILL-A-109). LOU Completion Readiness **OUTCOME A** (WD-BILL-A-110). Q-BILL-A-011 **not asked**. TRR/ARR **not calculated**. Field 25 **BLANK**.

33. CWC-CE-159 final LOU reconciliation — **executed** (historical Draft 1.10). Final Human-Review Candidate designated at that time. **Not** Human-accepted.

34. CWC-CE-166 ALL-OUT hold — **recorded**; ALL-OUT engineering **not resumed**.

35. Lottery cost audit / 90/10 feasibility / Round 2 PDF ingestion — **open**; PDF **NOT FOUND**.

36. Rule-of-72 ownership / custody / instrument — **open**.

37. 105-County Fund formula / identified non-Kansas purchaser — **open**.

38. Current Lottery beneficiary dispositions — **open**; not invented.

39. White Paper PDCA reconciliation / public-review package revalidation / Git publication — **deferred to later CWC (candidate CWC-CE-175)**. HG-D1 **not passed**.

40. Q-BILL-A-016 — **ANSWERED BY HUMAN ENGINEER** as C (WD-BILL-A-280). PDCA delegation matrix **not invented**.

---

13. Verification Status

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **Item:** Working identity (Bill A public pin)
- **Status:** Asserted as CWC-CE-121 / STD-011 working identity only

Table row 2

- **Item:** Q-BILL-A-001 Human Intent
- **Status:** Recorded; **Requires verification** of any later legal/fiscal claims; not HG-D1 accepted

Table row 3

- **Item:** Q-BILL-A-002 Human Intent (FairTax architecture)
- **Status:** Recorded; inventory **not complete**; not HG-D1 accepted

Table row 4

- **Item:** Q-BILL-A-003 Human Intent (uniform excise audit)
- **Status:** Recorded; audit **not executed**; dispositions **not invented**; not HG-D1 accepted

Table row 5

- **Item:** Q-BILL-A-004 Human Intent (Kansas Legal Revenue Scope)
- **Status:** Recorded; narrow prior framing **SUPERSEDED** and historically retained; comprehensive audit **not executed**; not HG-D1 accepted

Table row 6

- **Item:** Q-BILL-A-005 Human Intent (Option (a) closed demand-authority)
- **Status:** Recorded; KLRS = compulsory claims only; Government Revenue Universe remains auditable; audit **not executed**; not HG-D1 accepted

Table row 7

- **Item:** H.R. 25 IH primary text
- **Status:** Locator pinned; provision-by-provision mirror trace **INCOMPLETE**

Table row 8

- **Item:** Kansas Government Revenue Universe
- **Status:** Working concept; Domains 01–06 executed as working findings; statewide universe **NOT CERTIFIED**

Table row 9

- **Item:** Kansas Legal Revenue Scope (post-Bill-A closed compulsory set)
- **Status:** Working concept recorded; **EMPTY as a closed post-Bill-A set** — no claim authorized

Table row 10

- **Item:** Master register schema / completeness protocol
- **Status:** Candidate locked (WD-BILL-A-019 / WD-BILL-A-020); Domain 01–06 instances populated in working artifacts; **not certified**; statewide register **not complete**

Table row 11

- **Item:** Current-state Kansas revenue inventory (state and local)
- **Status:** Domain 01–06 working inventories exist; statewide inventory **not certified** — WD-BILL-A-016

Table row 12

- **Item:** Kansas excise / excise-type inventory
- **Status:** Domain 01 **executed** (WD-BILL-A-013/022/023); dispositions **BLANK**; residual gaps remain

Table row 19

- **Item:** Kansas FairTax rate / prebate
- **Status: NOT SET** / OPEN HUMAN DECISION

Table row 20

- **Item:** Node definition / failure consequences
- **Status:** Not engineered; none accepted

Table row 21

- **Item:** LOU-001 candidate substance
- **Status:** Not verified into this LOU

Table row 22

- **Item:** Grok scout figures
- **Status:** UNVERIFIED

Table row 23

- **Item:** Bill A maturity
- **Status: 19% UNCHANGED**

Table row 24

- **Item:** CWC-CE-139 county ALL-IN / ALL-OUT Human Intent
- **Status:** Historical recording in WD-BILL-A-057 / WD-BILL-A-058; **SUPERSEDED as controlling** by CWC-CE-142

Table row 25

- **Item:** CWC-CE-141 Domain 05 evidence
- **Status:** Executed in WD-BILL-A-060–066; 18 rows; dispositions **BLANK**; **not** accepted LOU provisions

Table row 26

- **Item:** CWC-CE-142 county tax-system / mandatory PT-elimination Human Intent
- **Status:** Recorded in WD-BILL-A-067; **not** accepted LOU provisions; **not** Kansas law; mechanisms OPEN (WD-BILL-A-069); Domain 01–06 dispositions **BLANK**

Table row 27

- **Item:** CWC-CE-144 Domain 06 evidence
- **Status:** Executed in WD-BILL-A-071–077; 14 rows; dispositions **BLANK**; **not** accepted LOU provisions

Table row 28

- **Item:** CWC-CE-146 transition / sufficiency / senior / ceiling / mapping / Sedgwick-reference Human Intent
- **Status:** Recorded in WD-BILL-A-078; **not** accepted LOU provisions; **not** Kansas law; mechanisms OPEN (WD-BILL-A-079); Domain 01–06 dispositions **BLANK**; Sedgwick Current-State mapping later executed under CWC-CE-148 (not Future-State design)

Table row 29

- **Item:** CWC-CE-148 Sedgwick Current-State reference-model evidence mapping
- **Status:** Executed in WD-BILL-A-082–091; **not** accepted LOU provisions; Future State **not** designed; no rate/ARR/sufficiency calculation; Domain 01–06 dispositions **BLANK**

Table row 30

- **Item:** Q-BILL-A-006 Human Intent (CWC-CE-153)
- **Status:** Recorded in WD-BILL-A-099; **not** accepted LOU provisions; ARR **not** calculated

Table row 31

- **Item:** Q-BILL-A-007 Human Intent (CWC-CE-154)
- **Status:** Recorded in WD-BILL-A-101; TRR established; ARR reserved; **not** accepted LOU provisions; TRR/ARR **not** calculated

Table row 32

- **Item:** Q-BILL-A-008 Human Intent (CWC-CE-156)
- **Status:** Recorded in WD-BILL-A-105; B — Enforceable-Instrument Class; **not** accepted LOU provisions; classes **not** classified; TRR/ARR **not** calculated

Table row 33

- **Item:** Q-BILL-A-009 Human Intent (CWC-CE-157)
- **Status:** Recorded in WD-BILL-A-107; A — Zero Terminal; sinking-fund objective recorded (**not** sufficiency); **not** accepted LOU provisions; TRR/ARR/fund balances **not calculated**

Table row 34

- **Item:** Q-BILL-A-010 Human Intent (CWC-CE-158)
- **Status:** Recorded in WD-BILL-A-109; A — Applies in Full; **not** accepted LOU provisions; TRR/ARR **not calculated**

Table row 35

- **Item:** LOU Completion Readiness (CWC-CE-158)
- **Status: OUTCOME A** recorded in WD-BILL-A-110; **not** HG-D1; **not** Human acceptance

Table row 36

- **Item:** CWC-CE-155 ALL-IN / ALL-OUT revenue architecture / Government Claim Degradation
- **Status:** Recorded in WD-BILL-A-103; tax-system table in §2.19; **not** accepted LOU provisions; **not** Kansas law; Field 25 **BLANK**; TRR/ARR **not** calculated

Table row 37

- **Item:** CWC-CE-159 final LOU reconciliation
- **Status:** Recorded in WD-BILL-A-112; Human Review Summary WD-BILL-A-113; historical **FINAL HUMAN-REVIEW CANDIDATE** for Draft 1.10; **not** Human-accepted; CLASS H = **NONE**; HG-D1 **NOT PASSED**

Table row 38

- **Item:** Q-BILL-A-011 Human Intent (CWC-CE-166)
- **Status:** Recorded in WD-BILL-A-128; C — explicit hold; **not** accepted LOU provisions

Table row 39

- **Item:** Q-BILL-A-012 Human Intent (CWC-CE-167)
- **Status:** Recorded in WD-BILL-A-145; A — primary PT destination; **not** an appropriation

Table row 40

- **Item:** Q-BILL-A-013 Human Intent (CWC-CE-168)
- **Status:** Recorded in WD-BILL-A-163; B — after unavoidable costs; feasibility **not certified**

Table row 41

- **Item:** Q-BILL-A-014 Human Intent (CWC-CE-169)
- **Status:** Recorded in WD-BILL-A-185; A — available governmental cash

Table row 42

- **Item:** Q-BILL-A-015 Human Intent (CWC-CE-170)
- **Status:** Recorded in WD-BILL-A-208; A — ceiling / not spending entitlement

Table row 43

- **Item:** CWC-CE-171 public-review reconciliation
- **Status:** This Draft **1.11**; Public Review Draft candidate; **not** Human-accepted; **not** published; HG-D1 **NOT PASSED**

---

14. Provisional Requirements Implications

INFORMATIVE SEEDS ONLY — NOT ACCEPTED REQUIREMENTS

If later SPEC work is authorized after HG-D1, seeds suggested by Q-BILL-A-001 Human Intent include (non-exhaustive):

- signal-before-claim content for each revenue claim;
- source-versus-mechanism distinction in taxpayer-visible records;
- spending-authority audit before any replacement-revenue target;
- stewardship / ownership controls across collection, pooling, expenditure, expiration, and node failure;
- four-month node accountability with a controlled failure response (consequence unspecified);
- sinking-fund / reserve planning as a financial-management expectation;
- non-permanent tax-rate authority;
- H.R. 25 economic-standard mirror with exact operative language where substantively identical;
- non-stacking surviving-excise deviation with express purpose → restricted pool → direct purpose execution; uniform standard for all surviving excises;
- no government administrative overhead against the restricted pool;
- existence-of-wealth non-event rule;
- evidenced audit of existing Kansas excise / excise-type claims before Human disposition;
- Kansas Legal Revenue Scope as a closed post-Bill-A **compulsory demand-authority** universe (state and local);
- Kansas Government Revenue Universe as the broader auditable receipt universe;
- receipt of money distinct from authority to compel payment;

- current-state inventory distinct from post-Bill-A authorization;
- no revenue authority by silence / rename / fee-label / local placement;
- criminal enforcement of unauthorized **demands** — **seed only; elements reserved; not applied to mere non-compulsory receipt**.

These seeds are **not** requirements. HG-D2 is NOT PASSED.

---

15. Authority Boundary

THIS LOU RECORDS ENGINEERING UNDERSTANDING.

IT DOES NOT AUTHORIZE IMPLEMENTATION.

TMP-002 §2 language that an LOU records **accepted** understanding applies **after** Human Engineer HG-D1 acceptance. This instance is Draft / Candidate / NOT HUMAN-ACCEPTED. HG-D1 is NOT PASSED.

Research recorded here is informative, not authoritative. AI research does not create engineering authority. Silence is not Human Engineer acceptance.

Implementation requires a separately approved CWC-CE and all applicable downstream controls (ECR when required, CEP, CER, Human Acceptance, Git, and publication authorization as applicable).

---

16. Requirements / SPEC Transition

Deferred until after HG-D1 (or express Human Engineer waiver).

Intended future: `SPEC-NNN` for Bill A — Comprehensive Kansas Tax-System Replacement (number TBD). No SPEC is created by CWC-CE-121.

Sequence remains:

```
Human accepts LOU → HG-D1 → candidate SPEC → Human accepts SPEC →
```

---

17. Human Engineer Acceptance Record

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **Field:** Approver
- **Value:** Human Engineer

Table row 2

- **Field:** Decision
- **Value:** PENDING — not Accepted / not Accepted with Conditions / not Returned / not Rejected

Table row 3

- **Field:** Date
- **Value:** —

Table row 4

- **Field:** Conditions
- **Value:** —

Table row 5

- **Field:** Notes
- **Value:** CWC-CE-121 / CWC-CE-123 / CWC-CE-124 / CWC-CE-125 / CWC-CE-127 / CWC-CE-128 / CWC-CE-139 / CWC-CE-141 / CWC-CE-142 candidate. Q-BILL-A-001 through Q-BILL-A-005 Human Intent recorded. CWC-CE-139 county ALL-IN / ALL-OUT recording is **SUPERSEDED as controlling** by CWC-CE-142 (WD-BILL-A-067) — not HG-D1. Domain 01–05 evidence executed in working artifacts; Domain 01–04 closure applied; dispositions BLANK; findings not accepted LOU provisions. Domain 06 not executed. Criminal-enforcement intent is not legislation. Silence is not acceptance. Recording intent is not HG-D1. Acceptance does not authorize implementation.

18. Revision / Supersession

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **Artifact:** LOU-001 Draft 0.3
- **Relationship: Not superseded.** Shared A/B candidate remains in force as a separate artifact. This LOU is a Bill A–only working candidate.

Table row 2

- **Artifact:** LOU-001 Draft 0.2
- **Relationship:** Retained in history inside LOU-001; inverted labels not used as this LOU's identity.

Table row 3

- **Artifact:** LOU-002 Draft 0.5
- **Relationship:** Master Plan (HG-D1 ACCEPTED). Does not accept Bill A. Not modified.

Table row 4

- **Artifact:** LOU-003 Draft 0.1
- **Relationship:** Bill C / Kansas NBEF Act. Outside scope. Number reserved/occupied. Not modified.

Table row 5

- **Artifact:** PRC-BILL-A-2026-08-30
- **Relationship:** Public-review packet pointing at LOU-001. Not released. Not modified.

If this LOU later supersedes the Bill A portion of LOU-001, that supersession SHALL be recorded with Human authority. It is **not** recorded now.

---

20. Version History

[Table reformatted for phone-first readability — cell text unchanged]

Table row 1

- **Version:** Draft 0.1
- **Date:** 2026-08-30
- **Summary:** CWC-CE-121 initialization. Bill A–only working candidate under sequential identity LOU-004. No agreed understanding. First Human question asked. HG-D1 NOT PASSED.

Table row 2

- **Version:** Draft 0.2
- **Date:** 2026-08-31
- **Summary:** Records Q-BILL-A-001 Human Intent / working definition. No HG-D1. Asks Q-BILL-A-002 (end-state tax architecture).

Table row 3

- **Version:** Draft 0.3
- **Date:** 2026-09-01
- **Summary:** Records Q-BILL-A-002 Human Intent — H.R. 25 FairTax mirror architecture + retained-excise deviation. Opens WD-BILL-A-009 crosswalk. Inventory not invented. Asks Q-BILL-A-003 (retained-excise set beyond motor fuel). Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 4

- **Version:** Draft 0.4
- **Date:** 2026-09-01
- **Summary:** CWC-CE-123: exception-boundary model (HUMAN-ACCEPTANCE REQUIRED); Q-BILL-A-003 presented/aligned, **not answered**; motor fuel remains sole Human candidate; other exceptions UNDETERMINED. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 5

- **Version:** Draft 0.5
- **Date:** 2026-09-01

• **Summary:** Records Q-BILL-A-003 Human Intent: evidenced audit of all Kansas excise / excise-type claims; uniform surviving-excise standard; motor fuel = example not unique class; dispositions deferred and not invented. Defines WD-BILL-A-013 audit requirement (audit not executed). Asks Q-BILL-A-004 (materially equivalent scope). Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 6

• **Version:** Draft 0.6

• **Date:** 2026-09-02

• **Summary:** CWC-CE-124: records Q-BILL-A-004 Human Intent — Kansas Legal Revenue Scope; comprehensive current-state vs post-Bill-A distinction; WD-BILL-A-013 subordinated; narrow Q-004 historically retained and SUPERSEDED; criminal-enforcement intent recorded as intent only; audit not executed. Asks Q-BILL-A-005 (compulsory vs other receipts in final KLRS). Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 7

• **Version:** Draft 0.7

• **Date:** 2026-09-02

• **Summary:** CWC-CE-125: records Q-BILL-A-005 Option (a) — KLRS = compulsory demand-authority; Government Revenue Universe remains auditable; locks candidate master schema (WD-BILL-A-019) and completeness protocol (WD-BILL-A-020). Audit not executed. Motor fuel not RETAINED. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 8

• **Version:** Draft 0.8

• **Date:** 2026-09-02

• **Summary:** CWC-CE-127: Domain 01 evidence execution **status** only. Findings live in WD-BILL-A-022–026 and are **not** accepted LOU provisions. Dispositions BLANK. Motor fuel not RETAINED. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 9

• **Version:** Draft 0.9

- **Date:** 2026-09-02
- **Summary:** CWC-CE-128: Domain 01 evidence closure **status** only. Findings live in WD-BILL-A-028 / updated 022–026 and are **not** accepted LOU provisions. Count 14. Gaming referred. Completeness not upgraded. Dispositions BLANK. Motor fuel not RETAINED. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 10

- **Version:** Draft 1.0
- **Date:** 2026-09-02
- **Summary:** CWC-CE-130: Domain 02 evidence execution **status** only. Findings live in WD-BILL-A-030–035 and are **not** accepted LOU provisions. 15 claim-category rows. Dispositions BLANK. BLANK ≠ RETAIN. No property-tax elimination design. Completeness: Domain 02 substantially complete with explicit gaps. Universe/KLRS not certified. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 11

- **Version:** Draft 1.1
- **Date:** 2026-09-02
- **Summary:** CWC-CE-131: Domain 02 evidence closure **status** only. Findings live in WD-BILL-A-037 and updated WD-BILL-A-030–035. Count **16**. Dispositions BLANK. Completeness not upgraded. Universe/KLRS not certified. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 12

- **Version:** Draft 1.2
- **Date:** 2026-09-02
- **Summary:** CWC-CE-133: Domain 03 evidence execution **status** only. Findings live in WD-BILL-A-039–045 and are **not** accepted LOU provisions. Count **5**. Dispositions BLANK. Completeness: Domain 03 substantially complete with explicit gaps. Universe/KLRS not certified. Domain 04 not executed. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 13

- **Version:** Draft 1.3
- **Date:** 2026-09-02
- **Summary:** CWC-CE-134: Domain 03 evidence closure **status** only. Findings live in WD-BILL-A-046 and updated WD-BILL-A-039–044 and are **not** accepted LOU provisions. Count remains **5**. Dispositions BLANK. Completeness **not upgraded**. Universe/KLRS not certified. Domain 04 not executed. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 14

- **Version:** Draft 1.4
- **Date:** 2026-09-02
- **Summary:** CWC-CE-136: Domain 04 evidence execution **status** only. Findings live in WD-BILL-A-048–054 and are **not** accepted LOU provisions. Count **5**. Dispositions BLANK. Completeness: Domain 04 substantially complete with explicit gaps. Universe/KLRS not certified. Current Kansas sales/use ≠ H.R. 25. No FairTax rate. Domain 05 not executed. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 15

- **Version:** Draft 1.5
- **Date:** 2026-09-02
- **Summary:** CWC-CE-137: Domain 04 evidence closure **status** only. Findings live in WD-BILL-A-055 and updated WD-BILL-A-048–054 and are **not** accepted LOU provisions. Count remains **5**. Dispositions BLANK. Completeness **not upgraded**. Universe/KLRS not certified. Current Kansas sales/use ≠ H.R. 25. No FairTax rate. Domain 05 not executed. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 16

- **Version:** Draft 1.6
- **Date:** 2026-09-02
- **Summary:** CWC-CE-139: records county property-tax ALL-IN / ALL-OUT Human Engineering Intent and statewide API / Taxpayer Supremacy / Runtime Republic boundary. 5-year and 7-year remain

candidates. Domain 01–04 dispositions BLANK. Domain 05 not executed. No FairTax rate, replacement revenue, or distribution engineering. No Q-BILL-A-006. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 17

- **Version:** Draft 1.7
- **Date:** 2026-09-02
- **Summary:** CWC-CE-141: Domain 05 evidence execution **status** only. Findings live in WD-BILL-A-060–066 and are **not** accepted LOU provisions. Count **18**. Dispositions BLANK. Completeness: Domain 05 substantially complete with explicit gaps. Universe/KLRS not certified. County PT intent unchanged. Domain 06 not executed. No FairTax rate. No Q-BILL-A-006. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 18

- **Version:** Draft 1.8
- **Date:** 2026-09-02
- **Summary:** CWC-CE-142: records controlling Human Intent — statewide mandatory property-tax elimination; county 5- or 7-year schedule; ALL-IN/ALL-OUT as tax-system choice (legacy minus PT). Supersedes CWC-CE-139/140 PT-transition-participation reading. Domain 01–05 evidence preserved; dispositions BLANK. No FairTax rate. No Q-BILL-A-006. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 19

- **Version:** Draft 1.9
- **Date:** 2026-09-02
- **Summary:** CWC-CE-144: Domain 06 assessments evidence execution **status** only. Findings live in WD-BILL-A-071–077 and are **not** accepted LOU provisions. Count **14**. Dispositions BLANK. Completeness: Domain 06 substantially complete with explicit gaps. Universe/KLRS not certified. Domain 01–05 preserved 14/16/5/5/18. County four-rule architecture unchanged. Domain 07 not executed. No FairTax rate. No Q-BILL-A-006. Maturity 19% unchanged. HG-D1 NOT

PASSED. No commit/push.

Table row 20

- **Version:** Draft 1.10
- **Date:** 2026-09-02
- **Summary:** CWC-CE-146: records transition Human Intent — 5/7 as maximum runway; no-double-dip; ALL-IN revenue-sufficiency acceleration; senior Year-1 zero priority; provisional up-to-5% state and up-to-5% local planning ceilings (not a guaranteed 10%); Current-State → Future-State mapping; function-first local envelope; Sedgwick as initial reference model (audit not executed). CWC-CE-142 four rules preserved/integrated, not superseded. Domain 01–06 dispositions BLANK. No rate/replacement/distribution calculation. No Q-BILL-A-006. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 21

- **Version:** Draft 1.10 status update
- **Date:** 2026-09-04
- **Summary:** CWC-CE-148: Sedgwick Current-State reference-model evidence mapping **status/traceability only** (§2.14 / §10.22). Findings live in WD-BILL-A-082–091 and are **not** accepted LOU provisions. Draft version **remains 1.10**. **VERSION CHANGE WAS NOT PERFORMED.** Status update ≠ Human acceptance ≠ maturity change. Future State not designed. No rate/ARR/sufficiency calculation. CWC-CE-149 not created. No Q-BILL-A-006. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 22

- **Version:** Draft 1.10 status update
- **Date:** 2026-09-04
- **Summary:** CWC-CE-153: records Q-BILL-A-006 Human Intent (§2.17 / §10.23). Asks Q-BILL-A-007 (transitional continuity). Draft version **remains 1.10**. **VERSION CHANGE WAS NOT PERFORMED.** Status update ≠ Human acceptance ≠ maturity change. ARR/TRR not calculated. Q-007 not answered. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 23

- **Version:** Draft 1.10 status update
- **Date:** 2026-09-05
- **Summary:** CWC-CE-154: records Q-BILL-A-007 Human Intent (§2.18 / §10.24). Establishes TRR / reserves ARR. Asks Q-BILL-A-008. Draft version **remains 1.10**. **VERSION CHANGE WAS NOT PERFORMED.** TRR/ARR not calculated. Q-008 not answered. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 24

- **Version:** Draft 1.10 status update
- **Date:** 2026-09-05
- **Summary:** CWC-CE-155: records ALL-IN / ALL-OUT revenue architecture and Government Claim Degradation (§2.19 / §10.25). Adds explanatory tax-system table. Q-BILL-A-008 **re-presented, not answered**. Draft version **remains 1.10**. **VERSION CHANGE WAS NOT PERFORMED.** Status update ≠ Human acceptance ≠ maturity change. TRR/ARR not calculated. Field 25 BLANK. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 25

- **Version:** Draft 1.10 status update
- **Date:** 2026-09-05
- **Summary:** CWC-CE-156: records Q-BILL-A-008 = B Enforceable-Instrument Class (§2.20 / §10.26). Asks Q-BILL-A-009 (GCD terminal condition). Draft version **remains 1.10**. **VERSION CHANGE WAS NOT PERFORMED.** TRR/ARR not calculated. Qualifying classes not classified. Q-009 not answered. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 26

- **Version:** Draft 1.10 status update
- **Date:** 2026-09-05
- **Summary:** CWC-CE-157: records Q-BILL-A-009 = A Zero Terminal (§2.21 / §10.27). Records personal/governmental sinking-fund Future-State objective with evidence firewall. Asks Q-BILL-A-010

(ALL-OUT income/payroll GCD). Draft version **remains 1.10**. **VERSION CHANGE WAS NOT PERFORMED.** TRR/ARR/fund balances not calculated. Q-010 not answered. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 27

- **Version:** Draft 1.10 status update
- **Date:** 2026-09-05
- **Summary:** CWC-CE-158: records Q-BILL-A-010 = A Applies in Full (§2.22 / §10.28). ALL-OUT income/payroll GCD to Zero Terminal. LOU Completion Readiness **OUTCOME A**. Q-BILL-A-011 **not asked**. Draft version **remains 1.10**. **VERSION CHANGE WAS NOT PERFORMED.** TRR/ARR not calculated. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 28

- **Version:** Draft 1.10 status update
- **Date:** 2026-09-05
- **Summary:** CWC-CE-159: final LOU reconciliation / Human-review preparation (§2.0 / §2.23 / §10.29). Designated **FINAL HUMAN-REVIEW CANDIDATE**. **Not** Human-accepted. CLASS H = NONE. Consistency Tests 1–18 PASS. Draft version **remains 1.10**. **VERSION CHANGE WAS NOT PERFORMED.** Status update ≠ Human acceptance ≠ maturity change. TRR/ARR not calculated. Field 25 BLANK. Maturity 19% unchanged. HG-D1 NOT PASSED. No commit/push.

Table row 29

- **Version:** Draft 1.11
- **Date:** 2026-09-05
- **Summary:** CWC-CE-171: public-review reconciliation through CWC-CE-170. Q-011 = C hold; Q-012 = A; Q-013 = B; Q-014 = A; Q-015 = A. Lottery waterfall / 90/10 / cash / ceiling incorporated. ALL-OUT no longer presented as an active coequal path. Public Review Draft candidate. **Not** Human-accepted. **Not** published. HG-D1 NOT PASSED. Maturity 19% unchanged. No commit/push.

Table row 30

• **Version:** Draft 1.12

• **Date:** 2026-09-05

• **Summary:** CWC-CE-174: records Q-BILL-A-016 = C Invariants First. Improvement-machine / PDCA architecture; Future State = continuously improving operating condition; I-01–I-06 durable; named numbers preserved as initial CLASS P / CLASS HYP / CLASS T / CLASS PILOT values; PDCA authority firewall. Public Review Draft candidate. **Not** Human-accepted. **Not** published. White Paper remains Draft 1.11 (reconciliation required). HG-D1 NOT PASSED. Maturity 19% unchanged. No commit/push.

---

21. BILL A LOU-004 HUMAN REVIEW DECISION

THIS SECTION ASKS. IT DOES NOT ANSWER.

Cursor shall **not** infer the Human answer. Human silence ≠ acceptance.

This Draft 1.12 is a **Public Review Draft candidate**. It is **not** Human-accepted. Selection of **A** would accept LOU-004 as the controlled statement of Human Intent. It would **not** automatically pass HG-D1 unless governing control expressly makes them identical. They are **not** identical.

A later Human authorization to **publish for comment** is a **separate** decision from **A**. Publication for comment ≠ A. Public comment ≠ HG-D1.

Human Review Summary WD-BILL-A-113 maps Draft 1.10 only. Controlling architecture for this draft: **§2.0**.

```
BILL A LOU-004 HUMAN REVIEW DECISION

A — ACCEPT LOU-004 AS THE CONTROLLED STATEMENT OF HUMAN INTENT.

B — REVISE LOU-004.

C — HOLD / REQUEST ADDITIONAL REVIEW.
```

Current status: UNANSWERED.

Public-review publication status: NOT AUTHORIZED. Candidate only. Later Human-approved Git cycle required.

Libertas sine lapsu — Liberty without drift.
